II. No Minutes to review.

III. Chair Briefing:

Reviewed aggregated information from status update completed in last 2 committee meetings. Findings from the review indicated a need to create a structure that allows the comprehensive plan to be measured over the next 3 years as implemented. Concept of identification first of what business is put forward, who consumes and who is responsible for service within the comprehensive plan as a working document for community stakeholders.

Framing and formatting the comprehensive plan was discussed in length:

It was discussed that Goals should drive the comprehensive plan, while objectives could keep consistent under each goal allowing focus on quantifiable outcomes, with varying task to accomplish objectives under a specific goal.

Needs Assessment; Evaluation / QM, Allocation; Core Strategies; Funded and Unfunded Collaborations were discussed as domains needing consideration within the development of the comprehensive plan being developed for the next 3 years.

National HIV Strategy:

National HIV strategy summary was reviewed and discussed as another guiding instrument to frame goals within Comprehensive planning process.
