## Additional Backup Information

On February 10, 2012, Texas Gas Service (TGS), a division of ONEOK, Inc., filed its Gas Reliability Infrastructure Program (GRIP) filing in Austin and in the other Central Texas cities that it serves. Section 104.301 of the Texas Utilities Code allows a gas utility to recover additional invested capital costs through a new customer surcharge without filing a full rate case. GRIP rates must be based on reasonable increases in invested capital costs.

On March 8, 2012, the City Council suspended the effective date of the proposed increase to a date no earlier than May 25, 2012, to provide city staff an opportunity to properly review TGS's filing with the assistance of an outside rate consultant.

Changes to the rates or charges of a City franchisee are required by City Charter to be considered in a hearing prior to approval.
