## Additional Backup Information

Section 25-1-540 *Managed Growth Agreements* of the Land Development City Code states that an applicant may request the City Council to enter into a Managed Growth Agreement for planning and developing large projects, long term projects or any project which has special benefits in the public interest. The agreement shall extend, the expiration date for the project completion.

This action will authorize the negotiation and execution of a Managed Growth Agreement with MacMora LTD for MacMora II Cottage site plan located at 10625 MacMora Rd and consisting of 2.37 acres. The MGA will extend the site plan expiration date to April 28, 2017.

Staff has evaluated the proposal with respect to §25-1-540 and recommends approval of the Managed Growth Agreement. The site plan meets current code, and consists of twenty single-family condominium units and four duplex condominium units. Because the site plan requires more than two building permits and construction will exceed five years, it meets the Managed Growth Agreement code requirements for a large, long term project.
