ZONING CHANGE REVIEW SHEET

CASE: C14-2012-0002 (The Domain)  P.C. DATE: April 24, 2012
May 8, 2012

ADDRESS: 10728-11306 and 11500-11900 Burnet Road; 3300 West Braker Lane; 11105 and
11401-11925 Domain Drive, and 2900-3210 Esperanza Crossing

OWNER: RREEF Domain, LP (Chad Marsh); Domain Retail I, LP (Chad Marsh),
Domain Parkside I, LP (Robert Shaw)

AGENT: Winstead PC (Michele Haussmann)

ZONING FROM: MI-PDA    TO: MI-PDA    AREA: 160.7965 acres

SUMMARY STAFF RECOMMENDATION:
The staff’s recommendation is to grant the MI-PDA amendment for this site.

PLANNING COMMISSION RECOMMENDATION:
5/08/12: Approved MI-PDA zoning by consent (9-0); D. Anderson-1st, S. Kirk-2nd.

DEPARTMENT COMMENTS:
The property in question (The Domain-Endeavor site) is currently developed with a mixture of high density residential, office and commercial uses. The applicant is requesting to amend the Planned Development Area (PDA) overlay to change the following conditions of the zoning:
1) To allow for a Cocktail Lounge use as a permitted use on a designated 2,198 sq. ft. parcel located within the Property and 2) To relocate 1-acre of designated zero impervious area within a nine acre park to a new location within the same park.

The staff recommends the applicant’s requested change to the MI-PDA zoning because the proposed amendment will not alter the intent of the approved MI PDA designation for this site. The proposed amendment will permit the applicant to develop a cocktail lounge in a specific lease space within the footprint of the Aloft site (Please see Proposed Site Location Aerial and Field Note Description – Attachment A) in the Domain development without going through the conditional use site plan process for approval. The proposed cocktail lounge use is compatible with other commercial and restaurant uses that have already been constructed within the Domain development. In addition, the staff recommends that applicant’s request to relocate 1-acre of designated impervious cover as the proposed relocation will allow for the construction of park improvements (trail ways) while maintaining the intent to limit one acre of land on the Endeavor-Domain site to zero percent impervious cover to offset the increase in impervious cover on the Simon-Domain property (Please see Proposed Zero Impervious Relocation Aerial – Attachment B).

The proposed MI-PDA zoning will allow for a mixture of high-density residential uses, office uses, commercial uses, and industrial uses to be developed on the property in question. The location of the
site is appropriate for the proposed mixture and intensity of uses because the property in question is located between three major roadways, MOPAC Expressway North, Burnet Road, and Braker Lane. The property in question is located within the North Burnet/Gateway Combined Neighborhood Planning Area.

The applicant agrees with the staff's recommendation.

ZONING

ZONING CASE#: C14-2012-0002

This product is for informational purposes and may not have been prepared for or be suitable for legal, engineering, or surveying purposes. It does not represent an on-the-ground survey and represents only the approximate relative location of property boundaries.

This product has been produced by CTM for the sole purpose of geographic reference. No warranty is made by the City of Austin regarding specific accuracy or completeness.

1" = 600'
STAFF RECOMMENDATION

The staff’s recommendation is to grant the MI-PDA amendment for this site.

BASIS FOR RECOMMENDATION

1. The proposed zoning should be consistent with the purpose statement of the district sought.

   The MI district designation is for a commercial service use, research and development use, administrative use, or manufacturing use that meets strict development and performance standards and is generally located on a large site or in a planned industrial center.

   The PDA combining district designation provides for industrial and commercial uses in certain commercial and industrial base districts.

2. The proposed zoning should promote consistency and orderly planning.

   The proposed MI-PDA amendment will allow the applicant to develop one permitted cocktail lounge use in a defined lease space within a large, established mixed use/commercial development.

   In addition, the relocation of the 1-acre of designated impervious cover will allow for the construction of park improvements within the Domain development while maintaining the intent to limit one acre of land on the Endeavor-Domain site to zero percent impervious cover to offset the 3% increase in impervious cover on the Simon-Domain property.

3. Zoning changes should promote an orderly relationship among land uses.

   MI-PDA zoning would allow this site to be developed with a mixture of high-density residential uses, office uses, commercial uses and industrial uses. This location is appropriate for the proposed PDA because the property in question is located between three major roadways, MOPAC Expressway North (freeway), Burnet Road (major arterial roadway), and Braker Lane (major arterial roadway). A portion of the tract also abuts the Missouri Pacific Railroad.

EXISTING CONDITIONS

Site Characteristics

The property in question is currently constructed with a large mixed use development. It is located along Mopac Expressway North, a freeway, and Burnet Road, a major arterial roadway. A portion of the site borders the Missouri Pacific Railroad on the western side.

Hill Country Roadway

The site is not within a Hill Country Roadway Corridor.

Environmental
Please provide a map showing the location of the current designated Pervious Tract and the proposed designated Pervious Tract. In addition, show the location (if applicable) of the WQTZ and CWQZ within the proposed designated Pervious Tract. Additional comments may be pending. - The location map has been provided as Attachment B to this report.

**Impervious Cover**

The maximum impervious cover allowed by the MI zoning district would be 80%. However, if the watershed impervious cover is more restrictive than the zoning district's allowable impervious cover, the impervious cover is limited by the watershed regulations. In this case the applicant is seeking to exceed the MI district impervious cover limits by requesting an additional 3% of impervious cover rights through the PDA, which would allow a total of 83% zoning impervious cover on this property.

A portion of the site is located over the Edward’s Aquifer Recharge Zone. The site is in the Walnut and Shoal Creek Watersheds of the Colorado River Basin. Shoal Creek is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. Impervious cover is not limited in the Shoal Creek Watershed. The portion of the site that is located in the Shoal Creek Watershed is required to provide on-site structural water quality controls (or payment in lieu of) for all development and/or redevelopment when 5,000 sq. ft. cumulative is exceeded, and detention for the two-year storm.

The portion of the site that is within the Walnut Creek Watershed is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. Under current watershed regulations, development or redevelopment within the Walnut Creek portion of the site will be subject to the following impervious cover limits:

<table>
<thead>
<tr>
<th>Development Classification</th>
<th>% of Net Site Area</th>
<th>% with Transfers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single-Family</td>
<td>50%</td>
<td>60%</td>
</tr>
<tr>
<td>(minimum lot size 5750 sq. ft.)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Other Single-Family or Duplex</td>
<td>55%</td>
<td>60%</td>
</tr>
<tr>
<td>Multifamily</td>
<td>60%</td>
<td>70%</td>
</tr>
<tr>
<td>Commercial</td>
<td>80%</td>
<td>90%</td>
</tr>
</tbody>
</table>

In the Water Quality Transition Zones, impervious cover is limited to 30%.

Note: The most restrictive impervious cover limit applies.

**Site Plan / Compatibility Standards**

There have been several site plans approved for the overall development: built: Westin parking lot, Domain Office, Aloft, Domain Pond; and approved or under construction: Domain Infrastructure plans, Blocks C1 & C2, Block X, Block W, Block Y, Block Z, H & T Block. Whole Foods and currently under review V Block, S Block and Domain Park.

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.
Transportation

A TIA was completed with the zoning case C14-06-0121. Any changes to uses and intensities that vary from the projected traffic conditions including peak hour trip generations, traffic distribution, roadway conditions, and other traffic related characteristics assumed in the TIA shall require an addendum to the existing TIA.

Water and Wastewater

FYI: The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the proposed land use. Water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.
Exhibit “A” – Legal Description

BEING A DESCRIPTION OF A TRACT OF LAND CONTAINING 0.0505 ACRE, (2,198 SQUARE FEET), BEING OUT OF LOT 2-A4, BLOCK “A” OF THE AMENDED PLAT OF LOTS 2-A1 AND 2-A4, BLOCK “A”, RESUBDIVISION OF LOT 2-A, BLOCK “A”, RESUBDIVISION OF LOT 2, BLOCK “A”, DOMAIN SECTION 2 SUBDIVISION, A SUBDIVISION IN TRAVIS COUNTY, TEXAS, RECORDED IN DOCUMENT #200800180 OF THE OFFICIAL PUBLIC RECORDS OF TRAVIS COUNTY, TEXAS (O.P.R.T.C.T.), AND BEING GROUND LEVEL VACANT RETAIL SPACE ON THE INTERIOR OF AN EXISTING BUILDING, ALOFT HOTEL AT THE DOMAIN, SAID 0.0505 ACRE BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS (ALL BEARINGS ARE BASED ON THE TEXAS STATE PLANE COORDINATE SYSTEM, GRID NORTH, CENTRAL ZONE (4203):
