ZONING CHANGE REVIEW SHEET

CASE: C14-2012-0027 – Felter Lane Road Zoning

Z.A.P. DATE: May 1, 2012

ADDRESS: Felter Lane at Burleson Road

OWNER/APPLICANT: Travis Business Park, Ltd.
(Brenda Horton)

AGENT: Thrower Design
(Ron Thrower)

ZONING FROM: I-SF-2; I-RR
TO: LI

AREA: 14.94 acres

SUMMARY STAFF RECOMMENDATION:

The Staff recommendation is to grant limited industrial service – conditional overlay (LI-CO) combining district zoning. The Conditional Overlay limits the development of the property to 2,000 trips per day over the existing land uses.

ZONING AND PLATTING COMMISSION RECOMMENDATION:

May 1, 2012: TO GRANT LI-CO DISTRICT ZONING AS STAFF RECOMMENDED, BY CONSENT.

[P. SEEGER; G. BOURGEOIS – 2ND] (6-0) S. BALDRIDGE – ABSENT

ISSUES:

None at this time.

DEPARTMENT COMMENTS:

The subject zoning area is developed with a mix of commercial, office/warehouse and industrial uses within the Travis Business Park, and is zoned interim – rural residence (I-RR) district. Travis Business Park has access to Burleson Road by way of Felter Lane which is a private driveway for the businesses. There are office/warehousing/ manufacturing uses and undeveloped land to the north (LI-PDA-NP), undeveloped land to the east, south and west (I-RR; County). There are a few uses within Travis Business Park that are not a part of the zoning application, and include office/warehouse uses and an adult lounge (I-RR). For reference, McKinney Falls Parkway is approximately one-half mile to the east. Please refer to Exhibits A (Zoning Map) and A-1 (Aerial View).

Travis Business Park and adjacent land to the east was annexed into the City limits on December 19, 2011. The Applicant proposes to zone the property to the limited industrial service (LI) district consistent with the existing set of commercial and industrial uses. Staff recommends the Applicant’s request based on the following considerations: 1) the proposed use is compatible with similar uses and zoning to the north, as well as properties within the City limits to the west, and there is sufficient separation from residential development; and, 2) access is taken to a major arterial roadway.

ZONING AREA
SUMMARY STAFF RECOMMENDATION:

The Staff recommendation is to grant limited industrial service – conditional overlay (LI-CO) combining district zoning. The Conditional Overlay limits the development of the property to 2,000 trips per day over the existing land uses.

BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

The LI district designation is for a commercial service use or limited manufacturing use generally located on a medium or large sized site.

2. *Zoning changes should promote an orderly and compatible relationship among land uses.*

Staff recommends the Applicant’s request based on the following considerations: 1) the proposed use is compatible with similar uses and zoning to the north, as well as properties within the City limits to the west, and there is sufficient separation from residential development; and, 2) access is taken to a major arterial roadway.

EXISTING CONDITIONS

Site Characteristics

The subject zoning area contains part of an commercial/industrial park that includes an automotive repair use, office/warehousing distribution uses, fabrication uses, and construction sales and services uses. There appear to be no significant topographical constraints on the site.

Impervious Cover

Within the Onion Creek watershed, the maximum impervious cover allowed by the LI zoning district would be 80%, which is a consistent figure between the watershed and the zoning regulations.

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Desired Development Zone. The site is in the Onion Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:
<table>
<thead>
<tr>
<th>Development Classification</th>
<th>% of Net Site Area</th>
<th>% with Transfers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single-Family (minimum lot size 5750 sq. ft.)</td>
<td>50%</td>
<td>60%</td>
</tr>
<tr>
<td>Other Single-Family or Duplex</td>
<td>55%</td>
<td>60%</td>
</tr>
<tr>
<td>Multifamily</td>
<td>60%</td>
<td>70%</td>
</tr>
<tr>
<td>Commercial</td>
<td>80%</td>
<td>90%</td>
</tr>
</tbody>
</table>

According to flood plain maps there is no flood plain within or adjacent to the project boundary.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development’s requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment on this site will be subject to the following water quality control requirements:

- Structural controls: Sedimentation and filtration basins with increased capture volume and 2 year detention.

**Site Plan**

Site plans will be required for any new development other than single-family or duplex residential.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

**Transportation**

No additional right-of-way is needed at this time.

A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 vehicle trips per day over the existing land use [LDC, 25-6-117].
**Water / Wastewater**

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at his own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. Water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.
