SH 45 SW

This long-promised and long-needed portion of SH 45 should be included in all transportation plans and BUILT. I cannot IMAGINE the City of Austin annexing Shady Hollow without this roadway on its list of priority projects. It certainly should be built before Frate Barker is widened which will only add to the congestion on Brodie and Manchaca, not to mention destroy a lovely heritage tree.

SH 45 Project

I have heard that the project going on for Frate Barker is to be in place of SH45 project. This is a very odd replacement in my book. I strongly believe that they need to move forward with the SH45 project instead. It makes more sense, and will make a bigger difference. We all need to work together on this! :)

SH 45 SW should be put back into the Imagine Austin Plan. Please consider this and support it. We in Shady Hollow have been waiting twenty years for this road to be built with little support from elected officials. This needs to be done now. No more delays. The environmental concerns can be addressed by proper planning and design.
Thank you for your consideration.

Message:

Taxation should be a big concern for Imagine Austin. I have lived in the Zilker Neighborhood for 28 years and my estimated taxes for this year are about \$11,000. I have two young children, three and one years of age, my wife quit work to stay home with them, and I work for the State. I realize our choices have something to do with my financial situation, but I estimate my taxes will double in 10 years to over \$20,000/year -- this is a very realistic estimate. In 2002 my assessed value was 45% of my current assessed value, so it has more than doubled in the last 10 years.

The Imagine Austin plan calls for concentrated growth close to down town.

With property values escalating at over 10% per year, how can that happen with taxation like this? It certainly will not happen with lower class people staying and probably not likely with middle class. I consider myself to be in the (lower part of the) upper middle class and I am worried about it.

I recommend we adopt some type of phased freezing of property taxes. People who plan to stay (not people flipping houses) should get a tax break. These are people who are the fabric of Austin, living in houses in down town neighborhoods. Please don't misunderstand me; I am not criticizing people living in condos and apartments -- but do we want Austin to lose single family dwellings down town? I'm going to pick some numbers, but it seems reasonable that after living in the same house for 10 years your taxes could be frozen. So, say, at year six, you start a freeze on 20% of your taxes and this continues each years for five years until 100% of your taxes are frozen in year 10.

I would be glad to discuss this concept with you.

Thanks,
Rick

Message:

Please reconsider adding the SW extension of SH 45 to your plan. The construction and bonds have already been approved by Austin voters. Pass through traffic up and down Brodie Lane has become a real problem between RR1626 and Slaughter Lane. With Hays County's proposal to widen RR 1626 the traffic on Brodie will only get worse.

Thanks, John Harrison

SH 45 SW

Please, please keep SH 45 SW in Austin's Comprehensive Plan! Brodie lane was never intended to be a major thoroughfare for folks coming from the far south navigating their way to Mopac. The traffic has become crippling and unsafe,
not to mention the added air pollution it produces daily. It was a good idea 10 years ago when voters chose to allocate funds for the project, and it is still a good idea and long overdue!

SH45 SW

Please put SH45 SW back into the overall traffic plan for the area. We have lived in this area for over 20 years and the traffic is terrible. It is unsafe for school children, people running and riding bikes down Brodie and creates more pollution and delays. SH45 can be built with alot less impact on the enviroment than Brodie Lane. Brodie was not built to have the tremendous amount of traffic currently using it.

PUT SH45 SW BACK INTO THE OVERALL TRAFFIC PLAN

Imagine Austin with SH45 SW

Please put SH 45 back in the Imagine Austin plan. Development continues in this area and Brodie Lane cannot continue to support the volume of traffic it receives daily. Plans are in place to widen Frate Barker Rd which does not make sense based on the traffic patterns, and will not help ease the congestion along Brodie Lane. A recent criminal incident which happened in the early morning hours completely paralyzed the area, as would other emergencies, which further demonstrates the need for SH45 SW.

Thank you for this consideration.

SH45 SW

I love Austin! It has been a great place to live and raise a family. But it is getting harder and harder to say that, due to the horrendous traffic problems that those of us living in southwest Austin face every day. You have the power to help fix that. Please add the SH45 SW project back into the Imaging Austin Comprehensive Traffic plan.

SH45

Council should be working on getting SH45 on track instead of expanding Frate Barker Rd.
Way to much traffic on Brodie as is. Relief is needed on Brodie, why add to problem by enlarging Frate Barker?
Apparently no one is thinking of the elementary age students who must walk/bike to Baranoff Elementary along Brodie.
Also, we have many cars that turn off Brodie to Green Emerald to Capistrano back to Brodie in an effort to bypass Brodie traffic.
Adding lanes to Frate Barker will only make problem worse.

Please build SH45!!!

The traffic on Brodie is unbelievable in the mornings. If I would have known how bad the traffic is I probably would not have moved off of Brodie. I love everything else about this area, but with traffic congestion so bad in the mornings that it can take 45 minutes just to get down Brodie - something is wrong. Please add SH45 SW back to the Comprehensive Plan! We desperately need help. Please give us the help that was promised.

SH 45 SW -It's WAY past due!

I am begging you, PLEASE add SH 45 SW back onto the Imagine Austin Comprehensive Plan. I have lived in the area for 35 years. When I moved to Shady Hollow with my parents in 1977, you could go from the Brodie/290 interchange to Shady Hollow and not pass another vehicle. That same 2-lane road carries traffic from Slaughter south to 1626. Now during rush hour, trying to turn from Slaughter south onto Brodie means waiting for the stop-and-go traffic to inch forward to allow you in. At any time of day, you can not turn North from any west side street in Shady Hollow without a light or a long wait. I now live off of Frate Barker. I avoid Brodie at all times, if possible. Rush hour traffic backs up on Manchaca as well. Hays County has recognized the problem and is widening 1626 to a four-and five-lane highway from FM 967 to Brodie. SH 45 SW was approved in 1986. It was a good idea then. It is critical now.

SH45 SW

Please put SH45 SW back in the plan! It is long over due! It can take up to 10 minutes just to be able to turn out of my street onto Brodie lane. That is a lot of gas and time wasted. The traffice on south Brodie lane through Shady Hollow is very dangerous. Cars have to pass other cars making left turns just to keep the bumper to bumper traffic flowing. It is a danger to bike riders and pedestrians in our neighborhood most of them being children.

Do we have to wait till someone is killed to make this happen? We have already had enough of our pets and wildlife killed by the traffic that travels through our neighborhood. Thank you

SH45 SW is Critical

Please include SH45 SW in the traffic planning. The incredible growth in Hays County has resulted in a drastic need for infrastructure that supports the commuter traffic into Austin. Existing roads do not support this traffic and were never intended for this purpose. The SH 45 SW provides a solution that can support current and future growth in the region.

SH45

Please include SH 45 and it's SW extension in your plan. The Austin voters specifically approved the funding for this road. Hays County is now wanting to expand RR1626; this will significantly increase traffic through Brodie Lane and our quiet neighborhood.

Thanks, John Harrison

SH45 SW

Please consider a plan that includes SH45 SW being added back to the Comprehensive Plan. Traffic is already too much for Brodie Lane, and as the area becomes more developed, especially in Hays County, the only route to MOPAC and Austin will become more of a congested nightmare.

City of Austin Comprehensive Plan

I recommend and request that SH 45 South construction be discussed and included in the City of Austins Comprehensive Plan. The traffic on Brodie lane is dangerous and was never intended to be a major highway. I can't believe that the City of Austin is talking about cpmmuter trains without even considering building roads that are desperately needed.

SH45 SW -- Add it back!

Good afternoon. Please add SH45 SW back into the overall traffic plan for the area. Areas around Brodie Lane and Slaughter Lane are paralyzed with traffic during the morning and evening rush hours because of commuters from Hays County traveling to and from work on Brodie and Slaughter. This extra volume on a residential street causes traffic to come to a standstill many times. This creates pollution, delays, and many unsafe conditions.

This is unnecessary! Plans were made long ago to divert this traffic to the SW addition to SH45. Please do your part to help us!

SH 45 SW

Please consider restoring a plan that will include the development of SH45 SW. It is imperative that an alternate travel route be provided besides Brodie Lane for any traffic from the south (FM1626 and beyond.) Additional lanes will only ENCOURAGE MORE traffic along Brodie Lane. I have lived in the area over 35 years and the traffic situation is getting progressively more difficult to endure.

City of Austin Comprehensive Plan and Imagine Austin hearings

It is strongly recommended and requested that SH 45 South Construction be discussed and included in the City of Austins Comprehensive Plan. The completion of SH 45 is critical to the welfare and well being of all residents living adjacent to Brodie Lane south of Slaughter Lane.

Comprehensive Plan, SH45 SW

Please put SH45 SW back into the Imagine Austin Comprehensive Plan. This road is desperately needed by the residents of south Austin now. It was recognized as a good idea almost 20 yrs ago!

Brodie conjection in Shady Hollow

I cannot IMAGINE what reason might have possessed ANYONE to take off SH45 SW as part of the ImagineAustin campaign. The traffic in our subdivision is horrendous. We cannot get in and out of our neighborhood at any time night or day without waiting 5 to 10 minutes for a let-up in traffic, or some kind soul holding traffic so that we can enter. The people in Buda and Kyle have no other route to Austin, but Brodie, which is not even supported by their taxes. Can you try to IMAGINE what that traffic is like? Those sitting on the council must not live anywhere near this area of Austin.

SH45 SW -- Add it back!

I am so tired of this. Please put SH45 SW back on the plans. We have lived in this same house for close to 16 years now. The traffic has changed drastically for the worse over time and it doesn't appear that anyone is listening!

State Hwy. 45

State Highway 45 should be included in the plan. This area of southwest Austin and Travis County is literally drowning in traffic which is inappropriately routed through subdivisions instead of a commuter highway connecting Hays County to Loop 1 (MoPAC). Every day another subdivision or apartment complex springs up with absolutely no plans for traffic relief.

Please do the responsible thing and place SH 45 back into the plan NOW!

SH45 SW

Please consider placing SW45 SW back on the Comprehensive Plan. It was a good idea 10 years ago, and is a good idea now!

Thank you,
Molly Hodges
