Additional Backup Information

Austin Energy requests authorization to issue a rebate to Lakeway Regional Medical Center, LLC in an amount not to exceed \$200,000 for the installation of High Efficiency Lighting (on-peak and off-peak), High Efficiency Chillers, Cooling Towers, High Efficiency Motors, Variable Frequency Drives, Custom Heat Pump Chiller and Commercial Kitchen Equipment in accordance with the City of Austin's Commercial Rebate Program guidelines. This program is one element of Austin Energy's comprehensive Resource, Generation, Climate Protection Plan to 2020, approved in April 2010 by City Council, designed to reduce local air pollution through energy conservation, to reduce peak demand, and to assist customers in reducing electric consumption.

The Lakeway Regional Medical Center is located at 100 Medical Parkway in Lakeway, Texas. The demand kilowatt (kW) savings associated with the high efficiency equipment installed in this project is estimated at 734.77 kW, at a program cost of \$272.19 per kW saved. The avoided kilowatt hours (kWh), estimated at 5,234,757 kWh per year, represents a major benefit to the local environment. This project will prevent the following air pollutants from being emitted: 3,143.3 metric tons of Carbon Dioxide (CO₂), 1.981 metric tons of Sulfur Dioxide (SO₂), and 2.191 metric

tons of Nitrogen Oxides (NOX).

In addition to the reduced air and toxic metals pollution, the project savings are also equivalent to an estimated 7,057,408 vehicle miles traveled, the removal of 602.2 cars from our roadways, or the planting of 80,752 trees or 4,038 acres of forest in Austin's parks.
