**Additional Backup Information**

The appellant, David Whitworth, is appealing the RDCC’s denial of a modification request to increase the FAR 2.8% above the maximum allowable 40%.

Granting the appeal would allow the applicant to have a FAR of 42.8% (3,082 square feet), where the maximum FAR allowed is 40% (2,880 square feet).

**Background and Basis for the Appeal**

The appellant challenges the RDCC’s decision to deny the increase in FAR based on four reasons alleged in his letter (attached) and summarized below:

1. The RDCC did not rule on the specific waiver request.
2. The RDCC misinterpreted the character of the area.
3. There was zero opposition to the modification waiver request.
4. The RDCC based their decisions on BOA guidelines.
The appellant requests the RDCC’s decision be overturned. The appellant requests that Council grant the modification request to build a two-story duplex with a 2.8% increase in FAR for the site.
