GENERAL MODIFICATION WAIVER

STREET ADDRESS: 5504 Jeff Davis

LEGAL DESCRIPTION: Subdivision – Broadacres Resub

Lot(s) 35A Block 4 Outlot Division

LAND STATUS DETERMINATION CASE NUMBER (if applicable) N/A

I/We David Whitworth on behalf of myself/ourselves as authorized agent for

David Whitworth Development Company affirm that on May 14, 2012,

hereby apply for a hearing before the Residential Design and Compatibility Commission for modification Section 2.8.1. of up to 25% increase in one or more of the following:

- X Maximum Floor to area ratio .4 or Gross floor area 2300 sq ft.
 Maximum Linear feet of Gables protruding from setback plane
 Maximum Linear feet of Dormers protruding from the setback plane

Waive or modify the side wall articulation requirement of Section 2.7.

 Side Wall Length Articulation
(Please describe request. Please be brief but thorough).

Requesting additional 200sf parking exemption for a duplex in order to meet FAR requirements while allowing for 3 bedrooms and a single car garage per unit. A waiver would increase the gross floor area by about 6-7% which is well below the 25% discretionary limit allowed by RDCC guidelines.

Allowable 40% (2895.6[#]) to 42.6% (3082[#])

in SF3-NP zoning district.

Note: Certificate of Appropriateness: H (Historic) or HD (Historic Designation) – case goes to RDCC first. National Register Historical District (NRHD) Overlay: without H or HD - case goes to Historic Landmark Commission first.

**CITY OF AUSTIN
APPLICATION TO THE RESIDENTIAL DESIGN
AND COMPATIBILITY COMMISSION**

GENERAL MODIFICATION WAIVER

REASONABLE USE:

1. The Residential Design and Compatibility Standards Ordinance applicable to the property does not allow for a reasonable use because:

The 200sf parking exemption amounts to allowing half of a single car garage per duplex side. This can be overcome on large duplex lots, but this is a small duplex lot. A reasonable use here is a modest sized affordable duplex with each side having 1400sf, 3 bedrooms, and a single car enclosed garage. In order to provide the extra garage in this case, without expensive basements, or complicated habitable attic space, we would have to remove a 10x10 bedroom from each side which is a significant trade off. Young families with children shopping in an affordable price point need to be served and should be afforded a small 3 bedroom home with a single car garage (which is also a secure place to store bikes). This is not an exuberant large expensive duplex requesting even more square footage on top of an already large home. Just trying to give both sides a single car garage here without significantly impairing the living quarters.

REQUEST:

2. The request for the modification is unique to the property in that:

This is an affordable project in an area of diverse character which is very unique. Additionally, there are 21 properties over 40% FAR within 500ft. Granting a waiver here does not necessarily set precedent that any large expensive duplex in any neighborhood deserves a parking waiver.

AREA CHARACTER:

3. The modification will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

Jeff Davis enjoys a diverse urban make up of properties such as office, duplex, single family, retail, apartments, bank, car dealership, mechanic shop, pizza, and coffee shop all within the short stretch from 2222 to Burnet. The adjacent property to the south is an apartment complex. The existing duplex at this property has been condemned by City of Austin Code Enforcement and a \$250 per week fine is being levied until Demolition. This duplex will not alter or impair the character of the neighborhood.

* The 25-year and 100-year floodplain elevations are used to regulate development in the floodplain within the full purpose and extra territorial jurisdiction (ETJ) of the City of Austin as established in the Land Development Code. The elevations are determined from the best available information. Official elevations to be used for development applications must be determined by a Texas Registered Professional Engineer. The City of Austin regulatory floodplains *may differ* from the FEMA flood insurance 1% annual chance floodplains. To request flood insurance floodplain information, please complete the Flood Insurance Study Information Request Form.

ON GROUND SURVEY: Official determination of a parcel's fully developed floodplain status shall be based on a comparison of the 25-year and 100-year floodplain elevations to an on-the ground topographic survey by a Texas Registered Professional Land Surveyor.
