Cooperative Purchase.

Prior Council
Action:

For More Information:	Sydney Ceder, Senior Buyer/974-2035
Boards and Commission Action:	To be reviewed by the Electric Utility Commission on August 20, 2012. To be reviewed by the Water and Wastewater Commission on August 8, 2012.
Related Items:	
MBE / WBE:	This contract will be awarded in compliance with Chapter 2-9D of the City Code (Minority-Owned and Women-Owned Business Enterprise Procurement Program). This contract is a cooperative contract; therefore, it is exempted under Chapter 791 of the Texas Government Code and no goals were established for this contract.
Additional Backup Information	
<p>This contract is for the purchase of twelve new and thirty-one replacement pieces of heavy-duty equipment to be distributed among the following departments: Austin Energy, Austin Water Utility, Public Works, Parks and Recreation, Austin Fire, Building Services, Austin Resource Recovery and Watershed Protection.</p> <p>The Austin Climate Protection Program team and Fleet staff have worked together to develop a vehicle and equipment purchasing process in our progress towards our citywide objective of obtaining carbon neutrality by 2020. The development of the purchasing criteria incorporates emissions impact, available technologies on the market, physical demands on the vehicle, and service application. These criteria are applied to all vehicles submitted to Fleet for purchase.</p> <p>A majority of these vehicles are powered by alternative fuels. Thirty-six pieces of equipment have engines capable of burning biodiesel (B20) fuel. In line with Austin Climate Protection Program goals, B20 provides an approximate 25% reduction in greenhouse gas emissions versus using gasoline and an approximate 5% reduction versus using petro-diesel. Five pieces of equipment have engines capable of burning Compressed Natural Gas (CNG). In line with Austin Climate Protection Program goals, CNG provides an approximate 25% reduction in greenhouse gas emissions versus using gasoline and an approximate 25% reduction versus using diesel.</p> <p>The equipment in this RCA has been recommended for purchase utilizing a process that involves the Fleet Officer, affected Department Directors, and Assistant City Managers (ACMs). ACM approval is required for all new additions to the City's fleet prior to any requests being made to the Purchasing Office.</p> <p>Departments reviewed the list of equipment determined eligible for replacement by Fleet Services based on mileage, hours of use, and maintenance costs. From that list, priority uses were determined within the departments, and the proposed equipment was reviewed by the Fleet Service Center Manager to ensure the specified equipment is appropriate for the use.</p> <p>All of the replacement equipment has met the Fleet Officer's eligibility criteria for replacement. The Fleet Service Center Managers have inspected each vehicle to be replaced, and determined that the mileage or hours of use of each piece of equipment proposed for replacement cannot be increased without risking a significant increase in repair costs and loss of productivity due to down time.</p> <p>This purchase includes the following heavy-duty equipment:</p> <p><u>Austin Energy</u></p> <p>1 Sprinter Cargo Biodiesel – Replacement</p>	

Austin Water Utility

1 Backhoe Diesel – Replacement

Parks and Recreation

1 Skid Loader with attachments Diesel – New

1 Sprinter Cargo Van 170" Biodiesel - Replacement

Public Works Department

3 Skid Loaders B20 – New

1 Concrete Mixer Biodiesel – Replacement

3 Autocar refuse chassis Biodiesel – Replacement

2 Autocar deadend trucks Biodiesel – Replacement

1 UD deadend truck Biodiesel – Replacement

1 UD deadend truck Biodiesel – New

1 Crane Carrier refuse truck chassis CNG – Replacement

2 Mack dump truck chassis Biodiesel – Replacement

2 Sidewalk Sweepers Biodiesel - Replacement

The Purchasing Office conducted an analysis to determine that all of these contracts are the best value to the City. These contracts offered the lowest prices and are able to provide equipment that fully meets the needs of the using departments.

Bobcat Company, Cooper Equipment, RDO Equipment, Freightliner of Austin, Chastang's Bayou City Autocar, Rush Trucks, Longhorn International, Heil of Texas, Grande Truck Center and Equipment Southwest are contracted through BuyBoard to supply these types of heavy-duty equipment to other public entities statewide as a result of a competitive bidding process. Utilizing the BuyBoard contracts provides for volume discount pricing as well as the earliest opportunity to place the City's equipment orders.
