## Additional Backup Information

The City Health and Human Services Department has provided public health services to Travis County through various agreements since 1985. After several years of work by City and County staff to consolidate the patchwork of agreements and amendments, the Travis County Commissioners Court and Austin City Council approved the current interlocal agreement on September 27, 2007 and October 18, 2007, respectively. The original term was for the period October 1, 2007 through September 30, 2008, and provided for up to four 12-month renewal terms. On October 2, 2008, the City Council approved a three-month extension of the interlocal agreement, terminating on December 31, 2008, and approved a nine-month renewal and extension on December 18, 2009 for the period of January 1, 2009 through September 30, 2009. On September 24, 2009, the City Council approved a 12-month renewal for the period of October 1, 2009 through September 30, 2010. On September 23, 2010, the City Council approved a 12-month renewal for the period of October 1, 2010 through September 30, 2011. On September 22, 2011, the City Council approved a 12-month renewal for the period of October 1, 2011 through September 30, 2012.

In the Fiscal Year 2013 Budget, Animal Services separated from the Health & Human Services Department. This separation resulted in a need to separate the interlocal agreement with Travis County. Through this agreement, the

Health & Human Services Department will continue to provide public health services such as HIV outreach & prevention, immunizations, disease surveillance, vital records, chronic disease prevention, tuberculosis elimination and environmental health services. This agreement is for the 2013 Term of October 1, 2012 through September 30, 2013.

Based upon the cost model approved for the Fiscal Year 2012 term, Travis County will pay \$596,207 more in Fiscal Year 2013 than the Fiscal Year 2012 amount. This increase includes the increased costs for health insurance, retirement contributions, and wage adjustments. In addition, the cost model has been revised to calculate the revenue credit based on population percentage. The County population percentage has increased from 27.37% to 28.21%. Approval of this interlocal agreement will allow the City to continue to provide public health services to Travis County through September 31, 2013, in exchange for total payment by the County of \$2,884,213.
