Sustainable Strategies

View from West Cesar Chavez looking to Downtown

Sustainable Strategies

- **The New Central Library will use District Chilled Water Service**
- **The New Central Library features a 200kW Photovoltaic array; the largest PV installation for non-Austin Energy facility**
- **The New Central Library is designed to operate at 30% more efficient than code requires resulting in energy savings equivalent to 130 households per year**
- **The New Central Library will feature Extensive use of Natural Daylighting, Regional and Recycled Materials**

Project Budget

- Construction Budget - \$90 Million
- Comparative estimates are within budget

New Central Library - A Library for the Future
