#### Additional Backup Information

This contract will provide replacement parts for the 135 Transnorm power –turn conveyors located within ABIA. The conveyor belt system is a critical component of ABIA's baggage handling system. This contract is necessary for ABIA in order to meet their customer's expectation of delivering luggage for air travel.

Transnorm Systems, Inc. is the sole provider of replacement parts for Transnorm belt conveyors and does not have any authorized distributors in the United States. The use of non-Transnorm parts may result in the cancellation of any warranty available on a given conveyor.
