Additional Backup Information

On February 10, 2011, Council authorized acceptance of a grant from the Texas Commission on Environmental Quality (TCEQ) through the Texas Emissions Reduction Plan (TERP) for the purchase of 25 cleaner, lower emissions replacement units.

This contract is for a one-time sale of scrap metal materials after the destruction of the 25 salvage units in accordance with the terms of the TCEQ grant. The scrap metal materials will be considered as obsolete or scrap materials that can be reused after recycling.

The Grant allows the City to accept reimbursement from the sale of the scrap metal. The Contractor will pay the City in accordance with certified weights \$3.00 for every one hundred pounds, once the 25 units have been destroyed.

BID ANALYSIS

- Highest of 2 bids received. 2 vendors returned "No Bid" forms due to the transportation cost of relocating the destroyed vehicles from San Antonio.
- Four notices were sent, with no MBEs/WBEs identified for this commodity code. Two bids were received.
- There is no pricing/revenue history for an effort comparable to this.

APPROVAL JUSTIFICATION

- Highest bid received. Texas Auto Salvage won the bid to destroy the vehicles so no additional transportation costs are associated with the disposal of the units.
- The Purchasing Office concurs with Fleet Service's Department's recommended award.
