

The Smoking area is constructed from 8'w x 4'h metal bicycle racks. Inside the area will be one 6' table with a total of ten urns used to both put out and dispose of cigarette butts. On the exterior Southern area of the bicycle rack a banner will be placed that reads "SMOKE HERE ONLY". An attendant will be assigned to maintain the area.

**Note: there are two smoking areas, one is on the Far Northwest corner of the stage fence line and the other one is on the Far Northeast corner of the stage fence line. They are identical in size and set up.**
