

## Late Backup

Proposed supplemental language:

As a condition of the SOS ordinance amendment, the City Council further directs the City Manager to prepare two or more options for the south side of Barton Creek, and south of Barton Springs Road, that would further improve bicycle and pedestrian access, expand recreational use of park land, and significantly reduce impervious cover and erosion, improve water quality, and increase setbacks of impervious surfaces from Barton Creek. The options shall be prepared in conjunction with all concerned stakeholders and boards and commissions.
