Additional Backup Information

The existing ordinance adopted in 2011 (Ordinance No. 20110526-098) and amended in 2012 (Ordinance No. 20121108-091) added a new "special exceptions" section that could be considered by the Board of Adjustment for an existing residential structure or a portion of an existing structure that violates a setback required under zoning if certain criteria are met.

The intent of the ordinance was to allow residents with long-standing minor code violations for existing structures

that posed no harm or adverse impacts to public health, safety, or welfare, to be granted an exception that may allow the structure to remain in place. The proposed amendment would extend both deadlines established in 25-1-366 and 25-2-476 an additional three years. The proposed amendment would also shorten the years of non-compliance established in 25-2-476 from 15 years to 10 years.

Staff recommends approval of this amendment.
