* This CIP project is located in the Drinking Water Protection Zone (DWPZ), and is a capital expansion for existing and/or agreed upon future customers. This project is not considered a growth-related project as it is not necessitated by or attributable to growth. Additional capacity may be provided by this project as noted below:								
<ul style="list-style-type: none"><li>It is inherent to the project, adding infrastructure per design standards for existing customers for reliability and/or to allow maintenance of facilities adds capacity to the system</li><li>The existing system does not have adequate capacity to safely serve existing and/or agreed upon future customers so non-growth additional capacity is needed</li></ul>								

**AWU DWPZ Project Detail per AWU Financial Policy No. 8:**

The following list of FY2014-FY2018 Capital Improvement Program (CIP) projects for new water and wastewater treatment plants, capital expansions, and growth-related projects that are located in the Drinking Water Protection Zone (DWPZ) are categorized below by Project Status (e.g. Planning, Design, and Construction):

**Projects in Planning Phase:**Water Distribution System Improvements (2 "Planning" Projects):

## 1. 6935.037 - Highland Park Improvements

- Description: Highland Park reservoir and pump station have reached the end of their useful life and are undersized for the area. The area (approximately 2,300 accounts) is currently supplied with a single 12" line with no looping. Project is to construct a secondary supply to the area.
- This project is not considered a growth-related project as it is not necessitated by or attributable to growth. Additional capacity may be provided by this project as noted below:
  - It is inherent to the project, adding infrastructure per design standards for existing customers for reliability and/or to allow maintenance of facilities adds capacity to the system
  - The existing system does not have adequate capacity to safely serve existing and/or agreed upon future customers so non-growth additional capacity is needed
- Spending Plan:
