SECTION 1	PRODUCT AND COMPANY IDENTIFICATION			
TRADE NAME:	Hydrofluosilicic Acid			
CHEMICAL NAME:	Hydrofluosilicic Acid			
CAS NUMBER:	16961-83-4			
CHEMICAL FAMILY:	Inorganic Fluorides			
SYNONYMS:	Fluorosilicic Acid, Hexafluosilicic Acid, HFS, FSA			
PRIMARY USE:	Industrial Chemical			
COMPANY	Atı	ne Mosaic Company ria Corporate Center Suite E490		
COMPANY INFORMATION:	3033 Campus Drive Plymouth, MN 55441 www.mosaicco.com For non-emergency questions, phone numbers are 8 AM to 5 PM Central Time US 800-918-8270 or 763-577-2700			
EMERGENCY TELEPHONE:	EMERGENCY OVERVIEW 24 Hour Emergency Telephone Number: For Chemical Emergencies: Spill, Leak, Fire or Accident Call CHEMTREC (CCN 201871) North America: (800) 424-9300 Others: (703) 527-3887 (collect)			
SECTION 2	HAZARD IDENTIFICATION			
EMERGENCY OVERVIEW:	Health Hazards:	Corrosive to the skin, eyes and mucous membranes through direct contact, inhalation or ingestion. May cause severe irritation and burns, which may not be immediately apparent. Handle with extreme care.		
	Physical Hazards: Not applicable			
	Physical Form:	Liquid		
	Appearance:	Water white to straw yellow liquid		
	Odor: Pungent			

	NFPA HAZARD CLASS		HMIS HAZAF	RD	WHMIS HAZARD CLASS			
	Health:	3	Health:	3				
	Flammability:	0	Flammability:	0	Symbol	E		
·	Instability:	1	Physical Hazard:	. 0	Classification	E		
	Special Hazard:	Corrosive	PPE:	Section 8	Sub Class			
POTENTIAL HEALTH EFFECTS:	Eye:		Corrosive. Contact may cause burns, and permanent eye dam.			ritation, eye		
	Skin:		Corrosive. Contact may cause severe irritation, skin burns, and permanent skin damage.					
	Inhalation (B	reathing)	Corrosive. Harmful if inhaled. May cause seve irritation and burns of the nose, throat, and respirate tract.					
	Ingestion (Sw	vallowing)		n and bur	atal if swallowed. ons of the mouth			
	Signs and Sy	mptoms:	Effects of overexposure may include severe irritation and burns of the mouth, nose, throat, respiratory and digestive tract. Symptoms of overexposure may include ulceration of the nose and throat, coughing, salivation, headache, fatigue, dizziness, nausea, shock, and pulmonary edema (accumulation of fluid around the lungs). May lead to coma or death. Onset of symptoms may be delayed.					
	Cancer:		The ingredient(s) of this product is (are) not classified as carcinogenic by NTP, IARC, or OSHA					
	Target Organs: Developmental:		No data available for this material (see Other Comments below).					
			No data available for this material					

		-	· · · · · · · · · · · · · · · · · · ·				
	Pre-Existing Medical		Prolonged or repeated overexposure to fluoride compounds may cause fluorosis. Fluorosis is characterized by skeletal changes, consisting of osteosclerosis (hardening or abnormal density of bone) and osteomalacia (softening of bones) and be mottled discoloration of the enamel of teeth (exposure occurs during enamel formation) Symptoms may include bone and joint pain and limited range of motion. Conditions aggravated be exposure may include skin and respiratory (asthmatlike) disorders.				
			Conditions aggravated by exposure may include skin and respiratory (asthma-like) disorders.				
POTENTIAL ENVIRONMENTAL EFFECTS:	May be hazardous to the environment and aquatic organisms.						
SECTION 3	COM	COMPOSITION INFORMATION ON INGREDIENTS					
FORMULA:	H₂SiF₅						
COMPOSITION:	Hydrofluosilicic	Acid	CAS No. 16961-83-4 20-25%				
	Water	Water 75-80%					
SECTION 4		FIRST AID MEASURES					
FIRST AID PROCEDURES:	Eyes: Immediately flush with plenty of water for at least 15 minutes. Ge medical attention immediately.						
		Immediately flush with plenty of water. Remove contaminated clothing. Discard contaminated clothing properly. Get medical attention if irritation occurs or persists.					
	Skin:	clothing.	Discard contaminated clothing properly. Get medical				
	Skin: Inhaled:	clothing. attention i	Discard contaminated clothing properly. Get medical if irritation occurs or persists. fresh air. Administer oxygen. Treat symptomatically. Get attention promptly. Observe for possible delayed

Extinguishing Media:	Small fires: Water spray, foam, dry chemical or CO ₂ . Large fires: Water spray, fog or foam.				
Protection of	Wear self-contai	Wear self-contained breathing apparatus with full protective clothing.			
Firefighters:	Fluorosilicic Acid is not flammable, however when heated to decomposition, highly toxic and corrosive fumes of fluorides are emitted. May generate flammable and explosive hydrogen gas in contact with some metals.				
SECTION 6	ACCIDENTAL RELEASE MEASURES				
RESPONSE TECHNIQUES:	Small spills: Contain spill and stop leak if it can be done without risk. Use sodium carbonate or a mixture of soda ash and slaked lime, sand or noncombustible absorbent material to soak up material. Place in DOT-approved poly container and dispose of properly.				
	Large spills: Use same procedure as above. Isolate spill area and deny entry. Prevent discharge into waterways and sewers. Material may be neutralized with sodium carbonate or a mixture of soda ash and slaked lime. Contact proper local, state, or federal regulatory agencies to ascertain proper disposal techniques and procedures.				
	All waste to be collected in a DOT-approved poly drum for disposal.				
SECTION 7	HANDLING AND STORAGE				
HANDLING:	Avoid contact with eyes, skin, and clothing. Wash thoroughly after handling. Maintain proper hygiene practices when handling this product.				
STORAGE:	Store in tightly closed containers, in a well-ventilated area. Keep away from heat, combustible materials, strong bases and metals. Large storage tanks should be bermed. Avoid using glass, metal or ceramic containers.				
SECTION 8	EXPOSURE CONTROLS / PERSONAL PROTECTION				
ENGINEERING CONTROLS:	Assure that ventilation is adequate to control airborne levels.				
	Eye/Face:	Splash proof goggles and full-face shield should be worn at all times.			
PERSONAL	Skin:	Acid proof gloves, headgear, protective shoes and clothing should be worn to prevent contact.			
PROTECTIVE EQUIPMENT (PPE):	Respiratory:	Wear NIOSH approved respiratory protective equipment when vapor or mists may exceed applicable concentration limits.			
	Facilities utilizing or storing this material should be equipped with an eyewash station and a safety shower.				

GENERAL HYGIENE CONSIDERATIONS:	Avoid breathing fumes. Avoid ingestion. Wash thoroughly after handling. Avoid contact with eyes or skin. Use with adequate ventilation					
EXPOSURE	OSHA Perr (PEL) :	missible Exposure Limits	2.5 mg/m³ as Fluoride			
GUIDELINES: ACGIH Thr		eshold Limit Value (TLV):	2.5 mg/m³ as Fluoride			
recommended to preven	t developmer	Fluoride/I in urine collected at the tof fluorosis. An increase of 1 m -weighted average exposure of 0.	g Fluoride/l in urine over an 8-hour			
SECTION 9	PHYSICAL AND CHEMICAL PROPERTIES					
Note: Unless otherwise stated, values in this section are determined at 20 ℃ (68 °F) and 760 mm Hg (1 atm).						
Flash Point:		Not applicable				
Flammability/ Explosive	Limits (%):	Not applicable				
Auto-Ignition Temperatu	re:	Not applicable				
Appearance:		Water white to straw yellow liquid				
Physical State:		Liquid				
Odor:		Pungent				
Molecular Weight of Pure Material:		144.11				
pH:		1.2				
Vapor Pressure (mm Hg):	Not applicable				
Vapor Density (air=1):		Not applicable				
Boiling Point:		222 – 223 °F				
Freezing/Melting Point:		Not applicable				
Solubility in Water:		100% Soluble in water				
Specific Gravity:		1.2				
Volatility:		Not applicable				
Bulk Density:	_	9.7 – 10.1 lbs./ft ³ , 25% Sol. @ 77°F				
SECTION 10	STABILITY AND REACTIVITY					
Chemical Stability:	Stable under recommended conditions of storage, handling and proper use.					

Conditions to Avoid:	Avoid all heat sources.			
Incompatible Materials:	Avoid contact with metals, stoneware, strong acids and alkalis, explosives, toxicants, readily oxidizable materials, alkali metals, combustible solids, and organic peroxides.			
Hazardous Decomposition Products:	Extreme temperatures such as a fire cause formation of highly toxic and corrosive fumes of fluorides such as SiF ₄ and HF. Hydrogen gas may be formed at temperatures above 227°F.			
Corrosiveness:	Attacks silica bearing materials, metals, and stoneware			
Hazardous Polymerization:	Will not occur.			
SECTION 11	TOXICOLOGICAL INFORMATION			
Acute Oral Toxicity	LD50 = 200 mg/Kg (guinea pig)			
Acute Inhalation Toxicity	LC50 850 - 1070 ppm / 1 hour (Rat)			
Acute Dermal Toxicity	140 mg/kg LDLo (Frog)			
Mutagenesis	No data available			
Target Organ	No data available			
Developmental Toxicity	No data available			
Carcinogenicity	No data available			
SECTION 12	ECOLOGICAL INFORMATION			
Ecotoxicology	May be hazardous to the environment and aquatic organisms.			
SECTION 13	DISPOSAL CONSIDERATIONS			
SECTION 13	DISPOSAL CONSIDERATIONS It is the responsibility of the waste generator to properly characterize all waste materials for treatment and/or disposal according to applicable regulatory entities. Consult Federal, State/Provincial, Local regulation regarding disposal of waste material that may incorporate some amount of this product. If the undiluted material is spilled to soil or water, it is recommended to characterize the waste material according to 40CFR 261.20-24 (USA). Keep material in labeled, covered DOT- approved container pending disposal. (Refer to Section 6 and 7)			
SECTION 13 SECTION 14	It is the responsibility of the waste generator to properly characterize all waste materials for treatment and/or disposal according to applicable regulatory entities. Consult Federal, State/Provincial, Local regulation regarding disposal of waste material that may incorporate some amount of this product. If the undiluted material is spilled to soil or water, it is recommended to characterize the waste material according to 40CFR 261.20-24 (USA). Keep material in labeled, covered
