For More Information:	Kerri Lang, EMS Assistant Director, 972-7211
Boards and Commission Action:	
MBE / WBE:	
Related Items:	

### Additional Backup Information

The Emergency Medical Services Department has received reimbursement from the Travis County Healthcare District (d/b/a Central Health) for the transport of Medical Access Program (MAP) patients for the past five or more years under previous interlocal agreements with Central Health, and the department has a current revenue goal for the contracted amount. On June 1, 2013, Central Health and the Seton Healthcare Family created the Community Care Collaborative (CCC), which is a 501(c)(3) corporation designed to be a new integrated delivery system that will provide a coordinated continuum of services to a defined patient population. The CCC will oversee and fund the MAP program going forward. Thus, the City must enter into a new agreement with the CCC to recover the fees due it for the transport of MAP beneficiaries.
