

ORDINANCE NO.

AN ORDINANCE AMENDING CITY CODE CHAPTERS 25-1 AND 25-5 RELATING TO VESTED DEVELOPMENT RIGHTS AND CONTINUING USE RIGHTS UNDER THE TEXAS LOCAL GOVERNMENT CODE AND CHAPTERS 24-4 AND 30-2 RELATING TO SUBDIVISION PLATS.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The city council finds:

A. Local ordinances play a critical role in the implementation of state vested rights laws by: (1) ensuring that determinations of vested rights are based on complete information; (2) establishing clear procedures for review of claims; and (3) providing developers, landowners, and community residents with needed certainty regarding when new construction will be required to meet current regulations.

B. On March 28, 2013, the City Council adopted Ordinance No. 20130328-019, which repealed portions of the City's vested rights regulations and initiated the development of a new vested rights ordinance. In preparing the ordinance, the Council directed the city manager to ensure compliance with state law and to consider the procedures and ordinances adopted by other Texas cities.

C. Based on this review, and on consultation with legal counsel, staff determined that state law does not prohibit a municipality from adopting reasonable expiration dates that limit how long a project may remain undeveloped before construction will be required to comply with current regulations. Expiration periods under the Land Development Code are within the range of expiration periods used by other Texas municipalities.

D. The requirements and procedures of this ordinance are consistent with state law and draw upon the best practices of other municipalities in implementing state vested rights legislation.

PART 2. City Code Chapter 25-1 (*General Requirements and Procedures*) is amended to add a new Article 12 to read as follows:

ARTICLE 12. VESTED RIGHTS.

DIVISION 1.

PETITION SUBMITTAL AND REVIEW PROCEDURES.

1 **§ 25-1-531 DEFINITIONS.**

2 (1) In this article, "permit," "project," and "regulatory agency" have the meanings
3 assigned to them by Chapter 245 of the Local Government Code.

4 (2) PLAT NOTE means a note required by the City of Austin to be placed on the
5 face of a subdivision plat in order to impose a discretionary condition on site
6 development or to secure performance of an obligation not otherwise required by the
7 ordinances, regulations, or rules in effect on the date of plat approval.

8 (3) TYPE 1 (CHAPTER 245) PETITION means a vested rights petition that alleges
9 rights under Chapter 245 of the Local Government Code to develop property under
10 ordinances, regulations, or rules other than those in effect on the date the permit
11 application is submitted.

12 (4) TYPE 2 (CONTINUING USE) PETITION means a vested rights petition that
13 alleges rights under Section 43.002 of the Local Government Code to continue or begin a
14 land use that was begun or planned prior to annexation.

15 (5) VESTING DATE means the date on which a project accrued development
16 rights under Chapter 245 or use rights under Section 43.002 of the Local Government
17 Code.

18 (6) VESTED RIGHTS means a right conferred by state law to develop property
19 under ordinances, regulations, or rules other than those in effect on the date a permit
20 application is submitted. The term includes development rights under Chapter 245 and
21 use rights under Section 43.002 of the Local Government Code, but does not include a
22 right existing under common law.

23 (7) VESTED RIGHTS PETITION or PETITION means a petition requesting a
24 determination of development rights under Chapter 245 or use rights under Section
25 43.002 of the Local Government Code.

26 **§ 25-1-532 PURPOSE AND APPLICABILITY.**

27 (A) This article establishes requirements for determining whether a project is
28 entitled to vested rights under Chapter 245 or Section 43.002 of the Local Government
29 Code. To the extent a project is entitled to vested rights, as determined under this article,
30 a permit necessary to initiate, continue, or complete the project may be exempt from
31 current regulations.
32

33 (B) The purpose of this article is to:

34 (1) Establish a clear and consistent process for evaluating vested rights
35 claims;

1 (2) Ensure that vested rights determinations are based on accurate and
2 complete information, including the nature and scope of the original project for
3 which vested rights are asserted and actual development that has occurred over
4 time; and

5 (3) Recognize legitimate claims of vested rights under state law, while
6 ensuring that new development complies to the greatest extent possible with
7 current regulations.

8 (C) The requirements of this article apply within the planning jurisdiction.
9

10 **§ 25-1-534 VESTED RIGHTS PETITION REQUIRED.**

11 A petition for vested rights that meets the requirements of Section 25-1-535 (*Contents*
12 *of Vested Rights Petition*) must be submitted by a landowner or a landowner's agent in
13 order to request that an application for a permit be reviewed under ordinances,
14 regulations, or rules other than those in effect on the date the application is filed.
15

16 **§ 25-1-535 CONTENTS OF VESTED RIGHTS PETITION.**

17 (A) Except as provided in Subsection (B) of this section, a petition for vested rights
18 required by Section 25-1-534 (*Vested Rights Petition Required*) must be submitted on a
19 form approved by the director and must include, at a minimum, the following
20 information:

21 (1) reference to one of the following applications, which must be submitted
22 concurrent with the vested rights petition:

23 (a) a permit application for development of the property; or

24 (b) a fair notice application submitted under Section 25-1-536(B)
25 (*Fair Notice Application*);

26 (2) a summary of the basis on which the applicant claims vested rights;

27 (3) the date on which the applicant claims that vested rights accrued and any
28 permit or other application that was submitted on that date; and

29 (4) a complete chronological history of the project for which vested rights
30 are claimed, including:

31 (a) a list of permits for development of the property, along with
32 supporting documents, that were issued or applied for after the date the
33 applicant claims that vested rights accrued;

- 1 (b) a description of any permitted or unpermitted development that
2 occurred on the property after the date the applicant claims that vested
3 rights accrued;
- 4 (c) a description of existing development on the property, regardless
5 of whether the development is permitted or unpermitted;
- 6 (d) a list of all annexations and zoning changes affecting the property,
7 if any;
- 8 (e) any covenants, conditions, or restrictions recorded in the deed
9 records for the property; and
- 10 (f) if deemed relevant by the director, evidence regarding progress
11 towards completion of the project under Section 25-1-553 (*Permit*
12 *Expiration for Dormant Projects*).

13 (B) The director may allow an applicant to omit information required under this
14 section if, in the sole judgment of the director, an application is associated with a project
15 for which vested rights have been conclusively established by a court order or by a
16 settlement agreement or project consent agreement approved by the city council.

17
18 **§ 25-1-536 FAIR NOTICE APPLICATION.**

19 (A) A fair notice application may be used in lieu of a permit application to establish
20 vested rights for a new project or to support a petition requesting a vested rights
21 determination for a continuing project under Section 25-1-534 (*Vested Rights Petition*
22 *Required*).

23 (B) The director shall adopt the following fair notice applications:

24 (1) A Fair Notice Application (Continuing Project), which may be used to
25 request a vested rights determination under Section 25-1-534 (*Vested Rights*
26 *Petition Required*) based on a prior application submitted for the project. The
27 fair notice application must include information deemed necessary by the
28 director to establish the nature of the permit sought, including the scope and
29 intensity of development and the type of land use, but need not include
30 construction-level detail.

31 (2) A Fair Notice Application (New Project), which may be used to establish
32 a vesting date for a new project that is filed for review under current regulations
33 and for which no prior permits have been sought. The application must include
34 a proposed plan for development of the property, including the scope and
35 intensity of development and the nature of the land use, but need not include
36 construction-level detail.

1 (C) Acceptance of a fair notice application does not authorize construction or have
2 any effect other than that prescribed by this article.
3

4 **§ 25-1-537 COMPLETENESS REVIEW FOR VESTED RIGHTS PETITION.**

5 A vested rights petition and associated development application are treated as a single
6 application for purposes of completeness review and expiration under Section 25-1-82
7 (*Application Requirements and Expiration*).
8

9 **DIVISION 2.**
10 **VESTED RIGHTS DETERMINATIONS.**

11 **§ 25-1-541 VESTED RIGHTS DETERMINATION.**

12 (A) Not later than 10 working days after acceptance of a complete vested rights
13 petition, the director shall review the petition under Section 25-1-542 (*Criteria for*
14 *Approval*) and render a determination consistent with the requirements of this section.

15 (B) In acting on a petition, the director may:

16 (1) approve the petition and require the development applications necessary
17 to initiate, continue, or complete the project to be reviewed in accordance with
18 regulations in effect on the vesting date, except for those regulations exempt
19 from vesting under state law;

20 (2) deny the petition and require the development application associated with
21 the project to be reviewed under current regulations of this title; or

22 (3) approve the petition in part, as authorized by Subsection (C) of this
23 section.

24 (C) The director may approve a petition in part if a project is legally entitled to
25 some, but not all, of the rights asserted in the petition, or if a change in the scale or
26 intensity of development is necessary to maintain conformity with the original project. A
27 vested rights determination may not waive or modify applicable regulations or provide
28 relief not required by Chapter 245 or Section 43.002 of the Local Government Code.

29 (D) The director shall provide a written determination to the applicant, which must
30 state:

31 (1) Whether the petition is approved or denied, in whole or in part, and the
32 basis for the decision;

33 (2) The permit or fair notice application on which the petition is based; and

34 (3) If the application is approved:

- 1 (a) a description of the project for which vested rights are recognized;
2 and
3 (b) a vesting date.

4 (E) An applicant may request that the director reconsider a vested rights
5 determination at any time before the application expires under Section 25-1-82
6 (*Application Requirements and Expiration*). The director's decision on a reconsideration
7 request is final and not subject to further reconsideration.

8 (F) A vested rights determination under this section does not affect the availability
9 of a variance or other administrative remedy authorized by this title.
10

11 **§ 25-1-542 CRITERIA FOR APPROVAL.**

12 (A) The director shall review a Type 1 (Chapter 245) petition for vested rights
13 under the criteria described in this subsection.

14 (1) General Standard. A permit application is entitled to development rights
15 under Chapter 245 of the Local Government Code if the permit is required to
16 initiate, continue, or complete a project for which a prior application was
17 submitted to the City of Austin. An application is not entitled to development
18 rights if it is unrelated to or inconsistent with the original project or if the
19 original project has been completed, changed, or expired.

20 (2) Review Criteria. In determining whether a petition meets the standard
21 for approval under this subsection, the director shall consider the following
22 factors:

23 (a) The nature and extent of proposed development shown on the prior
24 permit or other application that initiated the project for which vested
25 rights are claimed;

26 (b) Whether the permit application submitted in connection with the
27 vested rights petition is related to and consistent with the original project;

28 (c) The nature and extent of prior development of the property,
29 including any permitting or construction activity that occurred
30 subsequent to the vesting date requested by the applicant;

31 (d) Any prior vested rights determinations made for development of
32 the property; and

33 (e) Whether the project has expired in accordance with Division 3
34 (*Expirations and Extensions*) of this article or other applicable
35 regulations.

1 (B) The director shall review a Type 2 (Continuing Use) petition for vested rights
2 under the criteria described in this subsection.

3 (1) General Standard. A permit application is entitled to use rights under
4 Section 43.002 of the Local Government to the extent that current regulations
5 would prohibit:

6 (a) continuing to use the land in the manner in which it was being used
7 on the date the annexation proceedings were instituted, if the land use
8 was legal at that time; or

9 (b) beginning to use land in the manner that was planned before the
10 90th day before the effective date of the annexation if:

11 (i) one or more licenses, certificates, permits, approvals, or
12 other forms of authorization by a governmental entity were
13 required by law for the planned land use; and

14 (ii) a completed application for the initial authorization was
15 filed with the governmental entity before the date the annexation
16 proceedings were instituted.

17 (2) Review Criteria. In determining whether a petition meets the standard
18 for approval under this subsection, the director shall consider the nature and
19 extent of development that:

20 (a) occurred on the property prior to initiation of annexation
21 proceedings, including photographs or other evidence substantiating the
22 use; or

23 (b) was proposed in one or more required applications submitted to a
24 governmental entity.

25 (3) Date of Annexation. For purposes of this subsection, annexation
26 proceedings are deemed to have been instituted on the date of the first public
27 hearing before the city council on the annexation ordinance for the property.

28 (C) The criteria in this section are intended to assist the director in reviewing Type
29 1 (Chapter 245) and Type 2 (Continuing Use) petitions for vested rights, but do not limit
30 the director from considering other factors relevant to the determination of rights for a
31 particular project. The director may consider whether a project is entitled to common law
32 vested rights if the project is not subject to Chapter 245 or Section 43.002 of the Local
33 Government Code.

34 **§ 25-1-543 EFFECT OF VESTED RIGHTS DETERMINATION.**

1 If the director approves a vested rights petition, any permit required to initiate,
2 continue, or complete the project shall be entitled to the development or continuing use
3 rights recognized by the vested rights determination, unless the project expires under
4 Division 3 (*Project Expiration*) of this article or other applicable regulations.
5

6 **§ 25-1-544 PROJECT CONSENT AGREEMENTS.**

7 (A) The section provides a voluntary mechanism for determining applicable
8 regulations where the extent of a project's vested rights are unclear and for incentivizing
9 projects with clearly established vested rights to achieve greater compliance with current
10 regulations.

11 (B) An applicant may submit a request for a project consent agreement to the
12 director, in writing, after the director issues a vested rights determination under Section
13 25-1-541 (*Vested Rights Determinations*) and before the application expires under
14 Section 25-1-82 (*Application Requirements and Expiration*). The request must identify:

- 15 (1) current regulations for which compliance would be required, other than
16 regulations exempt from vested rights protections under state law;
17 (2) additional restrictions on the nature and intensity of the proposed
18 development; and
19 (3) any modifications or waivers requested as a condition to the agreement,
20 including but not limited to provisions for the transfer or averaging of
21 impervious cover to include additional property or changes to the original
22 project that increase compatibility with adjacent land uses.

23 (C) The director may recommend a project consent agreement for approval to the
24 city council if the director finds that the agreement achieves a greater degree of
25 environmental protection or compatibility with adjacent land uses than would occur if a
26 project developed to the full extent of its claimed vested rights.

27 (D) In making a determination under Subsection (C) of this section, the director
28 shall consider:

- 29 (1) the degree to which vested rights for the project have been established;
30 (2) the importance of particular regulations to achieving adopted planning
31 goals or policies for the area in which the project is located; and
32 (3) a recommendation from the environmental officer regarding the
33 environmental benefits of the proposed agreement, if vested rights from the
34 regulations of Chapter 25-8 (*Environment*) are asserted for the project.

35 (E) The city council may consider approval of a project consent agreement under
36 this section only if the agreement is recommended by the director or initiated by the city

1 council. Before acting on a consent agreement, the council shall hold a public hearing
2 and the director shall provide notice of the hearing under Section 25-1-132(B) (*Notice of*
3 *Public Hearing*).

4 (F) In acting on a project consent agreement, the city council may approve, deny, or
5 modify the agreement based on the standard applicable to the director's review under
6 Subsections (C) and (D) of this section. A project consent agreement may waive or
7 modify site development regulations applicable to a project as deemed appropriate by the
8 city council.

9 (G) A project consent agreement for a project located in the extraterritorial
10 jurisdiction may include a development agreement as authorized under Section 212.172
11 of the Local Government Code. The director shall review a proposed development
12 agreement concurrent with an application for a project consent agreement, but council
13 may consider the agreements separately or as a single agreement.

14 (H) A project consent agreement is subject to the expiration requirements specified
15 in this subsection.

16 (1) A project consent agreement approved by the city council expires on the
17 90th day after approval, unless the applicant has submitted a complete site plan
18 application for review by the director under the terms of the agreement.

19 (2) Following submittal of a site plan application, a project consent
20 agreement expires if:

21 (a) the site plan application expires under Section 25-1-82
22 (*Application Requirements and Expiration*); or

23 (b) the site plan expires under Section 25-5-81 (*Site Plan Expiration*).

24 (3) In approving a project consent agreement, the city council may extend
25 the expiration periods established under this subsection.
26

27 **§ 25-1-545 ADMINISTRATIVE GUIDELINES.**

28 (A) The director may adopt guidelines to assist in reviewing applications under
29 Section 25-1-534 (*Vested Rights Petition Required*), Section 25-1-544 (*Project Consent*
30 *Agreements*), and Section 25-1-553 (*Managed Growth Agreements*).

31 (B) Guidelines adopted under this section for review of vested rights petitions may
32 be used to help address common questions that arise in determining vested rights,
33 including but not limited to:

34 (a) whether a permit application is required to continue, complete, or initiate
35 the project for which vested rights are claimed;

(b) whether the project for which vested rights are claimed has been completed or changed; and

(c) whether progress towards completion of a project has been made under Section 25-1-553 (*Permit Expiration for Dormant Projects*).

(C) Guidelines adopted under this section shall be posted on the department's website and made available to the public, but need not be adopted by administrative rule under Section 1-2 (*Adoption of Rules*).

DIVISION 3. EXPIRATIONS.

§ 25-1-551 EXPIRATION REQUIREMENTS GENERALLY.

(A) During the timeframes established under this division, a vested rights determination for a project approved under Section 25-1-541 (*Vested Rights Determination*) applies to any permit application required to initiate, continue, or complete the project.

(B) If the vesting date approved for a project under Section 25-1-541 (*Vested Rights Determination*) is based on a permit application that is submitted on or after {insert effective date of ordinance}, the project is subject to the expiration periods specified in Section 25-1-552 (*Expiration of Projects Begun On or After {Insert Effective Date}*).

(C) If all permits for a project expire, the project expires.

(D) A permit application submitted after a project expires constitutes a new project and is subject to the current regulations of this title, except that:

(a) if a site plan associated with a project remains active at the time the project expires, the vested rights determination for the project applies to any application for a building permit necessary to complete construction of the site plan for as long as the site plan remains active; and

(b) an application to extend a site plan associated with a project may be approved in accordance with Section 25-5-62 (*Extension of Released Site Plan by Director*) or Section 25-5-63 (*Extension of Released Site Plan by The Land Use Commission*).

(E) The expiration of a project associated with a preliminary plan or a final plat does not affect the validity of a platted lot under this title.

§ 25-1-552 EXPIRATION OF PROJECTS BEGUN ON OR AFTER _____.

1 (A) The project expiration periods under this section apply if the vesting date
2 approved for a project under Section 25-1-541 (*Vested Rights Determination*) is based on
3 a permit application that is submitted on or after {insert effective date of ordinance}.

4 (B) If the vesting date approved for a project under Section 25-1-541 (*Vested Rights*
5 *Determination*) is based on a preliminary plan, the project expires:

6 (1) on the date the preliminary plan expires under Section 25-4-62
7 (*Expiration of Approved Preliminary Plan*) or Section 30-2-62 (*Expiration of*
8 *Approved Preliminary Plan*); or

9 (2) for any lot that is platted before the preliminary plan expires, nine years
10 after the date the preliminary plan was approved.

11 (C) If the vesting date approved for a project under Section 25-1-541 (*Vested Rights*
12 *Determination*) is based on a final plat that is not associated with a preliminary plan, the
13 project expires four years after the date the final plat was approved.

14 (D) If the vesting date approved for a project under Section 25-1-541 (*Vested Rights*
15 *Determination*) is based on a fair notice application (new project) submitted under
16 Section 25-1-536 (*Fair Notice Application*), the project expires one year after the date the
17 application was submitted.

18 (E) If the vesting date approved for a project under Section 25-1-541 (*Vested Rights*
19 *Determination*) is based on a site plan, the project expires on the date that the site plan
20 expires under Chapter 25-5, Article 1, Division 4 (*Revision, Extension, and Replacement*)
21 or other applicable regulation.

22 (F) If the vesting date approved for a project under Section 25-1-541 (*Vested Rights*
23 *Determination*) is based on a building permit, the project expires on the date that building
24 permit expires under Section 25-12-267 (*Expiration*) or other applicable regulation.

25 (G) If the vesting date approved for a project under Section 25-1-541 (*Vested*
26 *Rights Determination*) is based on an application not specifically addressed in this
27 section, the project expires on the dates provided for a final plat under Subsection (C) of
28 this section.

29 § 25-1-553 MANAGED GROWTH AGREEMENTS.

31 (A) This section provides a voluntary mechanism to request longer project
32 expiration periods than those established under Section 25-1-552 (*Expiration of Projects*
33 *Begun On or After {Insert Effective Date}*) for large-scale projects or projects located
34 within a planned development center.

35 (B) A project may be considered for a managed growth agreement only if the
36 project:

- (1) is filed for review under current regulations;
- (2) is located within the zoning jurisdiction, outside of the Barton Springs Zone;
- (3) does not require a variance, unless the project is limited to residential uses that do not require a site plan under Section 25-5-2 (*Exemptions*); and
- (4) includes at least 250 acres or is located wholly or partially within a regional center or town center designated by the Growth Concept Map of the Imagine Austin Comprehensive Plan.

(C) An application for a managed growth agreement must:

- (1) contain all information required by the director, including a proposed project expiration date; and
- (2) be submitted concurrent with the first application for the project or before the 180-day review period expires.

(D) If an application for a proposed managed growth agreement meets the requirements of Subsection (B) of this section, the director shall:

- (1) schedule a public hearing on the proposed agreement and provide notice of the hearing under Section 25-1-532(B); and
- (2) make a recommendation to approve or deny the agreement based on whether the project is likely to:
 - (a) require a longer period of time to construct than the timeframes established under Section 25-1-552 (*Expiration of Projects Begun On or After {Insert Effective Date}*);
 - (b) substantially further specific goals and policies of the Imagine Austin Comprehensive Plan; and
 - (c) result in development that is environmentally superior to the minimum standards applicable to the project under Chapter 25-8 (*Environment*), as determined based on a recommendation from the environmental officer.

(E) The city council may approve or deny a proposed managed growth agreement based on the criteria in Subsection (D)(2) of this section and may establish whatever expiration period the council deems appropriate, but may not waive or modify current regulations applicable to the project.

1 (F) If a managed growth agreement is approved under this section, the director shall
2 treat the project as vested to the regulations in effect on the date of the first application
3 until the date the agreement expires.
4

5 **PART 3.** City Code Chapter 25-1 (*General Requirements and Procedures*) is amended
6 to repeal Article 13 (*Dormant Project Expiration*) and to add a new Section 25-1-553 to
7 read as follows:

8 **§ 25-1-553 PERMIT EXPIRATION FOR DORMANT PROJECTS.**

9 (A) This section is adopted under Section 245.005 of the Local Government Code
10 to provide expiration dates for permits that lack an expiration date under applicable
11 regulations. This section does not apply to a permit that is subject to an expiration date
12 under the regulations applicable to the permit. For purposes of this section, a permit that
13 is not subject to an expiration date is an “unexpired permit.”

14 (B) If an unexpired permit was approved prior to May 11, 2000, then the permit
15 expired on May 11, 2004, unless the applicant submits evidence sufficient to show that
16 progress towards completion of the project was made under Subsection (D) of this
17 section prior to May 11, 2000.

18 (C) If an application for an unexpired permit was submitted after September 5,
19 2005, then the permit expires five years after the permit was approved unless the
20 applicant submits evidence sufficient to show that progress towards completion of the
21 project was made prior to that date under Subsection (D) of this section.

22 (D) For purposes of this section, progress towards completion of a project includes
23 any one of the following:

- 24 (1) an application for a final plat or plan is submitted to a regulatory agency;
25 (2) a good-faith attempt is made to file with a regulatory agency an
26 application for a permit necessary to begin or continue towards completion of
27 the project;
28 (3) costs have been incurred for developing the project including, without
29 limitation, costs associated with roadway, utility, and other infrastructure
30 facilities designed to serve, in whole or in part, the project (but exclusive of
31 land acquisition) in the aggregate amount of five percent of the most recent
32 appraised market value of the real property on which the project is located;
33 (4) fiscal security is posted with a regulatory agency to ensure performance
34 of an obligation required by the regulatory agency; or
35 (5) utility connection fees or impact fees for the project have been paid to a
36 regulatory agency.

1
2 **PART 4.** City Code Chapter 25-1 (*General Requirements and Procedures*) is amended
3 to repeal Article 7, Division 4 (*Special Exceptions*) and to renumber Division 5
4 (*Adjustments*) accordingly.
5

6 **PART 5.** Subsection (A) of City Code Section 25-1-2 (*Applicability of Regulations*) is
7 amended to read:

8 (A) Regulations in this title apply as follows:

9 (1) except as provided in Paragraph (5) and Subsection (B), all regulations
10 apply to property in the zoning jurisdiction;

11 (2) except as provided in Subsection (B), water quality, utility district, city
12 utility, and subdivision regulations apply to property in the planning
13 jurisdiction;

14 (3) Chapter 25-1, Article 12 (*Vested Rights*) applies to projects in the
15 planning jurisdiction;

16 (4) Chapter 25-12, Article 4 (*Electrical Code*) applies to a structure served
17 by the City's electric utility;

18 (5)[(4)] Chapter 25-12, Article 6 (*Uniform Plumbing Code*) applies to a
19 structure served by the City's water utility; and

20 (6)[(5)] Chapter 25-13 (*Airport Hazard and Compatible Land Use*
21 *Regulations*) applies in the geographic area described in that chapter.
22

23 **PART 6.** City Code Section 25-1-82 (*Application Requirements*) is amended to read:

24 **§ 25-1-82 APPLICATION REQUIREMENTS AND EXPIRATION.**

25 (A) The responsible director may adopt rules establishing the requirements for an
26 application.

27 (B) The responsible director or building official may permit an applicant to omit
28 required information from an application that the responsible director or building official
29 determines is not material to a decision on the application. An applicant who disagrees
30 with a determination under this subsection may appeal the decision to the city manager.

31 (C) ~~[Except as provided in Subsection (B), the]~~ The responsible director or building
32 official may not accept an application unless the application is determined to be complete
33 in accordance with this subsection [and the applicant has paid the required fee].

34 (1) The responsible director or building official shall accept an application as
35 complete if the applicant has paid the required fee and provided the information

1 required to be included in the application no later than the 45th day after the
2 application is submitted.

3 (2) If an application is rejected as incomplete, the responsible director or
4 building official shall provide the applicant a written explanation identifying the
5 deficiencies and the information required to complete the application 10
6 working days after receipt of the application.

7 (3) An application expires if it is not complete on or before the 45th after the
8 application is submitted. An applicant may submit an update to provide
9 additional information and to correct deficiencies at any time before the
10 application expires.

11
12 **PART 7.** City Code Section 25-4-62 (*Expiration of Approved Preliminary Plan*) is
13 amended to read:

14 **§ 25-4-62 EXPIRATION OF APPROVED PRELIMINARY PLAN.**

15 An approved preliminary plan expires five years after the date the application for
16 approval of the preliminary plan is approved[:

17 (1) in the drinking water protection zone, three years after the date the
18 application for its approval is filed; or

19 (2) in the desired development zone, five years after the date the application
20 for its approval is filed].

21
22 **PART 8.** City Code Section 25-5-62 (*Extension of Released Site Plan by Director*) is
23 amended to add a new Subsection (D) to read as follows and to renumber the remaining
24 subsections accordingly:

25 (D) If a site plan is associated with a project that has expired for purposes of vested
26 rights under Chapter 25-1, Article 12, Division 3 (*Expirations*), the director may extend
27 the expiration date of the site plan one time for a period of one year under the
28 requirements of this subsection.

29 (1) If the site plan substantially complies with the requirements that would
30 apply to a new application, the director may grant an extension if the criteria in
31 Subsection (C) of this section are satisfied.

32 (2) If the site plan does not substantially comply with the requirements that
33 would apply to a new application, the director may grant an extension if the
34 there is good cause for the requested extension and:
