Additional Backup Information					

On August 8, 2013, Council approved a resolution directing the City Manager to initiate an amendment to Title 25 of the Land Development Code to allow placement of accessible ramps in a required yard setback. The proposed code amendment will modify requirements for setbacks and impervious cover.

On February 27, 2014, Council conducted a public hearing and approved an ordinance on first reading with the following amendments:

- Require the applicant to submit an affidavit that the ramp is for a disabled resident.
- Require that the ramp be no wider than forty-eight (48) inches in width, except for segments required for a run, which may be up to sixty (60) inches.
- Prohibit ramp from having a roof or walls, with the exception of railing.
- Clarify that, in order to be eligible for the impervious cover exemption, applicants must use existing impervious cover to the greatest extent possible.

On March 20, 2014, Council approved an ordinance on second reading with amendments removing occupancy requirements and the requirement for a statement or affidavit, and re-opened the public hearing.
