

No.....NO.....NO!

ADUs are a bad idea, and do not decrease cost of housing rental or purchase

DO increase tax burden for neighboring residences

DO destroy any characteristics of a residential neighborhood

DO make builders, developers, real estate and investors wealthier

DO escalate the cost of rental or purchase of residences

DO NOT help disadvantaged, marginal or other residential owners

ARE disasters for Austin

ARE blights in our communities

ARE in direct opposition to page 207 of IMAGINE AUSTIN that states **continued protection and preservation of existing neighborhoods and the natural environment must be considered top priorities of comprehensive revisions to the City Code.**

The only stake holders in the attempted ADU debacle are the bona fide, single family home owners in the areas under attack, NOT developers/builders/speculators, NOT council members, NOT planning department staff.

I WILL financially support council members running for office who oppose this going forward

I WILL work as I can, for council candidates opposing this proposal

I WILL encourage as many people as I can reach to do as I will do.

Thank you. Sammy Easterday 12 June 2014
