

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak **FOR** or **AGAINST** the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing; and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 14 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/development.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments: **Exception To New Build:**

The fact that this is a spec house with the owner having no intent to live in it, I would be greatly disappointed to see a McHarrison built on this oversized lot. I encourage the neighborhood to be limited to past standards. Not a property line to property line behavior. It does not belong in this Historical District.

All:

I looked briefly at the set of plans online for the project at the address listed above.

I think the HLC hearing for this project should be postponed to clear up a few very important matters.

Also, it would give the owner a chance to present the project to the Board properly, rather than through incomplete email conversation.

My reasons for postponement are thus:

1. The project seems to have failed technical review and
2. THE PROJECT DOES NOT SEEM TO COMPLY WITH THE GARAGE PLACEMENT REQUIREMENTS of our neighborhood plan. I am not sure I am seeing everything but first glance gives me concern. The historical pattern in Bryker Woods is not one of garage forward "snout houses".

The owner indicated that he would like to talk with us at the time his demolition work was stopped and I think a postponement would give him that chance.

NEIGHBORHOOD PLAN DESIGN TOOLS

Parking Placement for New Single-Family Construction

LDC 25-2-1603

No more than forty percent (40%) of the required front yard may be impervious cover—sidewalks and driveways.

Interior lots may have no more than four parking spaces in the front yard. Corner lots may have no more than four parking spaces in the front and side yards combined.

The Director of Watershed Protection and Development Review (WPDR) may grant a waiver to this requirement if he/she determines that a circular driveway or turnaround is necessary to address traffic safety issues associated with vehicles backing onto the adjacent street or roadway.

All:

I am concern about the scheduled case hearing NRD 2013-0109 for the above referenced address.

It appears that the proposed plans have a fgarage forward design which is out of character with Bryker Woods and out-of-compliance with the Land Development Code.

If I understand the garage placement rules (which I may not) this project is not in compliance with the infill tool adopted in our Neighborhood Plan and cited in the City Land Development Code.

I strongly object to hearing a case regarding a building which cannot be legally built. It is a waste of Commission, City Staff and Neighborhood Volunteer time to hear a case which will need complete redesign to come into compliance.

It would be much better to ask the applicant for a LDC compliant design and then have him or her meet with neighbors before putting this on the agenda.

This infill tool is complicated and has caused permitting issues for applicants and our neighborhood in the very recent past. A permit issued in error becomes a very complicated matter for all involved. Hopefully the Historic Landmark Commission will not review a case unsuitable under the LDC.

Dear Chair Limbacher and Commissioners,

I am a neighbor/property owner near the above referenced property and I ask that you delay releasing the demolition permit for the two houses at 509 Lockhart Dr. We would like to see if there are alternatives to demolition. Lockhart Dr. is currently historically intact with 100% of the properties contributing to a pending Local Historic District within the Travis Heights neighborhood. I am writing with the request that a decision on demolition is delayed until neighbors have an opportunity to talk with the developer about the plans he has for this property.

Thank you,

Dear Commissioners,

I live two doors down from 509 Lockhart Dr., and I am hoping that you will delay issuing a demolition permit for these two houses. The street has remained McMansion-free so far, and all the properties presently would qualify as contributing to the Local Historic District many neighbors have been working toward. Neighbors would like more time to talk with the developer about what is going to happen to this property, in hopes that changes will be in keeping with the vintage South Austin atmosphere of the street.

Thank you for your consideration,

Subject: 509 Lockhart Dr

Dear Chairman Limbacher and Commissioners:

I am a neighbor and property owner for 34 years at 504 Terrace Dr. The property at 509 Lockhart is within 100 ft of my home. We would like to see if there are alternatives to demolition of 509 Lockhart. Lockhart Dr. is historically intact with 100% contributing properties (as is mine in the adjacent block) to a pending Local Historic District within the Travis Heights neighborhood. It would not be an undue burden if a decision on demolition is delayed until neighbors have an opportunity to talk with the developer about the plans he has for this property.

Thank you,

Donna Morrow

Subject: Demolition Permit for 509 Lockhart Dr.

Historic Landmark Commissioners,

I am voicing my opposition to not only the demolition permit for the two houses at 509 Lockhart Dr., but also the plans for the new structures that would destroy the character of the neighborhood. The proposed decks ("party decks") would no doubt contribute to noise, cigaretter smoke, etc., which would torment the neighbors.

Thank you for your consideration.

Dear Chair Limbacher and Commissioners,

Dear Chair Limbacher and Commissioners:

I am writing on behalf of myself and my aunt who is a property owner at 510 Terrace Dr, close to the property referenced above (509 Lockhart Dr).

We are concerned about the design features the developer of this property is planning, especially the plans for side balconies and a deck over the carport which, while certainly attractive features for buyers or renters, are not conducive to maintaining the privacy and quiet enjoyment of *our* neighborhood.

Thus, I would like to ask for a delay in releasing the demolition permit for 509 Lockhart Dr, in the hopes that we can speak with the developer to learn more about his plans and to voice our concerns.

Thank you for your consideration,

Valerie D. Castillo

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak **FOR** or **AGAINST** the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 14 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/development.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Subject: Email from austintexas.gov: Objection to Case # HDP-2014-0339

This message is from Amenity J Applewhite. ☐

Hi Mr. Sadowsky,

I'm emailing to express my objection to the demolition of the structure at 2100 E 14th Street.

This home is over 100 years old and maintains an iconic architectural style that is unique and integral to the neighborhood.

The developer in question builds homes characterized by a looming scale, generic style, and economy of cheap materials.

Furthermore, replacing a small simple home that has been continuously occupied until quite recently with a massive new house would be detrimental to the affordability of the property for housing purposes.

I have reviewed the documents submitted by the developer stating that the house is unsalvageable, but I am very dubious that this is actually the case. At the very least, preserving the house in some manner deserves investigation by an independent expert.

Sincerely,
Amenity Applewhite

Demolition Permit for 908 Nueces Street (South and West Corner of 10th Street)

The Applicant, Scotia Western States Housing, LLC is requesting permission to demolish a small one-story commercial building without providing a definite plan for future construction.

As a resident living across the said project, I strongly disapprove of such a request and as a member of DANA, I ask you to reject the company request and postpone any decisions until the complete agenda is presented to your Board.
