Leane,  
Regarding Case C15-2014-0092, 1302 Lorrain St.  
I object

The variance requested is substantial and would result in a structure very close to the property line and to the neighbor. 3 feet and 6 inches is a significant difference from the code of 10 feet. I imagine the code was written purposefully to maintain safe distances from property lines and to ensure our neighborhood is not too densely developed.

Thank you,
