ZONING CHANGE REVIEW SHEET

CASE: C14-2014-0087 – 2103 West Slaughter Lane Zoning Change  Z.A.P. DATE: July 1, 2014
                                      July 15, 2014

ADDRESS: 2103 West Slaughter Lane

OWNER/APPLICANT: Shokrollah Delaram  AGENT: Sara Delaram

ZONING FROM: GO-MU-CO    TO: LR-MU, as amended

AREA: 0.7682 acres
       (33,462.79 square feet)

SUMMARY STAFF RECOMMENDATION (REVISED on July 15, 2014):

The Staff recommendation is to deny the Applicant’s request for neighborhood commercial – mixed use (LR-MU) district zoning, and maintain the general office – mixed use – conditional overlay (GO-MU-CO) combining district zoning, with the Conditional Overlay allowing for personal services, other neighborhood office (NO) zoning district uses and development regulations.

ZONING AND PLATTING COMMISSION RECOMMENDATION:

July 1, 2014: MEETING CANCELLED DUE TO LACK OF QUORUM; CASE RENOTIFIED FOR JULY 15, 2014

July 15, 2014: TO GRANT LR-MU-CO DISTRICT ZONING WITH THE CONDITIONAL OVERLAY ALLOWING FOR PERSONAL IMPROVEMENT SERVICES, PERSONAL SERVICES AND ALL NO, NEIGHBORHOOD OFFICE USES AND DEVELOPMENT REGULATIONS, AND MAINTAINING THE EXISTING SF-2 ZONING FOR THAT PORTION OF THE LOT FRONTING ALLRED DRIVE

[G. ROJAS; J. MEEKER – 2ND] (5-0) C. BANKS; S. COMPTON – ABSENT

ISSUES:

The Applicant desires to add general retail sales (convenience) as a permitted use, and would like to discuss this with Council.

DEPARTMENT COMMENTS:

The subject rezoning area consists of two platted lots and has access to West Slaughter Lane and Allred Drive. The lot fronting Slaughter Lane and the north 45 feet of the adjoining lot are zoned general office – mixed use – conditional overlay (GO-MU-CO) district by a 2009 rezoning case (The 2,060 square foot single family residential structure was originally constructed on the common lot line, hence the need in 2009 to rezone a portion of the adjoining lot to the south.) The Conditional Overlay allows for personal services, other neighborhood office (NO) zoning district uses and development regulations (C14-2009-
0149). Access is taken by way of a circular driveway to West Slaughter Lane. The remainder of the lot which faces Allred is zoned single family residence – standard lot (SF-2) district zoning, contains an efficiency unit and has its own driveway access.

The property to the east also has driveway access to Slaughter Lane (GO-MU-CO), while the property to the west takes access to a driveway that connects to Riddle Road (LR-MU-CO). There are single family residences on platted lots to the south (SF-2) and across Slaughter Lane to the north, there is a shopping center (GR). Please refer to Exhibits A (Zoning Map), A-1 (Aerial View), B (Recorded Plat), C (Survey of Property) and D (2009 Rezoning Ordinance).

The property most recently operated as a personal services use (a tattoo business), and is now vacant. The Applicant has requested community commercial – mixed use (GR-MU) zoning in order to allow for additional uses on the property, including personal improvement services, general retail sales and restaurant uses. Staff has discussed with the Applicant that these uses are first allowed in the neighborhood commercial (LR) district and believes that the Applicant is amenable to amending the request to the LR-MU district and maintaining the SF-2 zoned property on Allred.

Within the past 15 years, office zoning has been granted for three other properties on this block of Riddle Road/Slaughter Lane. Although the adjacent property to the west is zoned LR-MU-CO with the Conditional Overlay allowing for general retail sales (convenience), restaurant (limited) uses, and all GO uses, Staff is concerned about extending the precedent for commercial zoning along this block of Slaughter Lane. Staff recognizes that this property has access to Slaughter Lane, a heavily travelled roadway, however, the intent of the existing Conditional Overlay is to enable redevelopment while retaining the residential character of existing buildings, and maintain compatibility with the single family residences to the south. Therefore, the Staff recommendation is to retain the existing GO-MU-CO and SF-2 zonings on the property.

**RELATED CASES:**

On February 4, 2010, Council approved rezoning the property from SF-2 to GO-MU-CO with the CO for personal services, other neighborhood office (NO) zoning district uses and development regulations. The rezoning was accompanied by a Restrictive Covenant prohibiting business operations between the hours of 10 p.m. and 9 a.m. Monday through Saturday, and on Sundays (C14-2009-0149 – 2103 West Slaughter Lane Zoning Change).

The property is platted as Lot 6, and the north 45 feet of Lot 9, Block A of the Ford Oaks subdivision, recorded in June 1946 (C8-1946-1765). Prior to the expansion of West Slaughter Lane, right-of-way was acquired along the frontage of Lot 6. Notes on the Ford Oaks plat that was recorded in 1946 designate the use of all lots except for four lots located at the intersection of Riddle Road and Allred Drive to residential uses. However, a subsequent plat note states that, “…these restrictions and covenants shall be binding until January 1, 1960.”

On February 29, 2012, a site plan exemption was approved to change the use of the property from residential to office, and create a 940 square foot area for parallel parking (DA-2012-0256).

LOCATED AT 2103 SLAUGHTER LANE.
ORDINANCE NO. 20100204-032

AN ORDINANCE REZONING AND CHANGING THE ZONING MAP FOR THE PROPERTY LOCATED AT 2103 WEST SLAUGHTER LANE FROM SINGLE FAMILY RESIDENCE STANDARD LOT (SF-2) DISTRICT TO GENERAL OFFICE-MIXED USE-CONDITIONAL OVERLAY (GO-MU-CO) COMBINING DISTRICT.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The zoning map established by Section 25-2-191 of the City Code is amended to change the base district from single family residence standard lot (SF-2) district to general office-mixed use-conditional overlay (GO-MU-CO) combining district on the property described in Zoning Case No. C14-2009-0149, on file at the Planning and Development Review Department, as follows:

Lot 6 and the north 45 feet of Lot 9, Block A, Ford Oaks Subdivision, a subdivision in the City of Austin, Travis County, Texas, according to the map or plat of record in Plat Book 4, Page 264, of the Plat Records of Travis County, Texas; Save and Except 0.1179 acres of land out of Lot 6 being more particularly described by metes and bounds in Exhibit “A” incorporated into this ordinance (the “Property”),

locally known as 2103 West Slaughter Lane, in the City of Austin, Travis County, Texas, and generally identified in the map attached as Exhibit “B”.

PART 2. The Property within the boundaries of the conditional overlay combining district established by this ordinance is subject to the following conditions:

A. Development of the Property shall comply with the following regulations:

1) The minimum front setback is 25 feet.
2) The maximum floor-to-area ratio is 0.35 to 1.0.
3) The maximum building coverage is 35 percent.
4) The maximum impervious cover is 60 percent.
5) The maximum height is 35 feet.
6) The maximum height is two stories.

EXHIBIT D
B. The following uses are prohibited uses of the Property:

Business or trade school
Club or lodge
Convalescent services
Guidance services
Hospital services (limited)
Printing & publishing
Medical offices (exceeding 5000 sq. ft. of gross floor area)
Medical offices (not exceeding 5000 sq. ft. of gross floor area)

Business support services
Communication services
Cultural services
Hospital services (general)
Off-site accessory parking
Restaurant (limited)

C. The following uses are conditional uses of the Property:

College and university facilities
Private secondary educational facilities

Group home, Class II

Except as specifically restricted under this ordinance, the Property may be developed and used in accordance with the regulations established for the general office (GO) base district, the mixed use combining district, and other applicable requirements of the City Code.

PART 3. This ordinance takes effect on February 15, 2010.

PASSED AND APPROVED

February 4, 2010

Lee Leffingwell
Mayor

David Allan Smith
City Attorney

Shirley A. Gentry
City Clerk

Tom H. Milo
Registered Public Surveyor
No. 4334 - State of Texas
SUMMARY STAFF RECOMMENDATION (REVISED on July 15, 2014):

The Staff recommendation is to deny the Applicant’s request for neighborhood commercial – mixed use (LR-MU) district zoning, and maintain the general office – mixed use – conditional overlay (GO-MU-CO) combining district zoning, with the Conditional Overlay allowing for personal services, other neighborhood office (NO) zoning district uses and development regulations.

BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)

1. The proposed zoning should be consistent with the purpose statement of the district sought.

Applicant’s Request, as amended: The neighborhood commercial (LR) district is intended for shopping facilities that provide limited business services and offices to the residents of the neighborhood, such as consumer repair services, food sales, service stations, and pet services. The purpose statement listed in the City of Austin Land Development Code states: “The Neighborhood Commercial district is the designation for a commercial use that provides business service and office facilities for the residents of a neighborhood. Site development regulations and performance standards applicable to a LR district use are designed to ensure that the use is compatible and complementary in scale and appearance with the residential environment.” The mixed use (MU) district is intended to allow for office, retail, commercial and residential uses to be combined in a single development.

Staff Recommendation: The general office (GO) district is intended for offices and selected commercial uses predominantly serving community or City-wide needs, such as medical or professional offices. A building in a GO district may contain more than one use. The mixed use (MU) district is intended to allow for office, retail, commercial and residential uses to be combined in a single development.

2. Zoning changes should promote an orderly and compatible relationship among land uses.

Within the past 15 years, office zoning has been granted for three other properties on this block of Riddle Road/Slaughter Lane. Although the adjacent property to the west is zoned LR-MU-CO with the Conditional Overlay allowing for general retail sales (convenience), restaurant (limited) uses, and all GO uses, Staff is concerned about extending the precedent for commercial zoning along this block of Slaughter Lane. Staff recognizes that this property has access to Slaughter Lane, a heavily travelled roadway, however, the intent of the existing Conditional Overlay is to enable redevelopment while retaining the residential character of existing buildings, and maintain compatibility with the single family residences to the south. Therefore, the Staff recommendation is to retain the existing GO-MU-CO and SF-2 zonings on the property.
EXISTING CONDITIONS

Site Characteristics

The subject lot is developed with one single family residential structure that was formerly used as a personal services use, and has moderate vegetative cover. There appear to be no significant topographical constraints on the site.

Impervious Cover

The maximum impervious cover allowed by the GR-MU and the LR-MU zoning districts would be 80%, which is a consistent figure between the zoning and watershed regulations.

The maximum impervious cover allowed by the GO zoning district is 80%, a consistent figure between the zoning and watershed regulations. The maximum impervious cover allowed by the NO and LO zoning districts is 60% and 70%, respectively, a figure based on the more restrictive zoning regulations.

Comprehensive Planning

This zoning case is located on the south side of W. Slaughter Lane, on a vacant parcel that is 1.3 acres in size and also has double frontage on Allred Drive. The subject property is not located within the boundaries of the neighborhood planning area. Surrounding land uses includes an HEB shopping center to the north, vacant land to the south (along Allred Drive, a residential street), a single family house to the west and a small personal services use to the east. The proposed use is retail. The existing conditional overlay on the property prohibits a number of uses, including but not limited to medical office and restaurants, while a restrictive covenant restricts hours of operation.

Imagine Austin

The property is located within the boundaries of ‘Neighborhood Center’ and along an ‘Activity Corridor’, as identified on the Imagine Austin’s Growth Concept Map. A Neighborhood Center is the smallest and least intense of the three types of activity centers outlined in the Growth Concept Map, with a focus on creating local businesses and services— including doctors and dentists, shops, branch libraries, dry cleaners, hair salons, coffee shops, restaurants, and other small and local businesses that generally serve the center and surrounding neighborhoods. Activity corridors are characterized by a variety of activities and types of buildings located along the roadway, and are intended to allow people to reside, work, shop, access services, people watch, recreate, and hang out without traveling far distances. The following IACP policies are also relevant to this case:

- **LUT P1.** Align land use and transportation planning and decision-making to achieve a compact and connected city in line with the growth concept map.

- **LUT P3.** Promote development in compact centers, communities, or along corridors that are connected by roads and transit that are designed to encourage walking and bicycling, and reduce health care, housing and transportation costs.
• **LUT P4.** Protect neighborhood character by directing growth to areas of change that includes designated redevelopment areas, corridors and infill sites. Recognize that different neighborhoods have different characteristics and new and infill development should be sensitive to the predominant character of these communities.

**Conclusion**

Based on this property being: (1) within the boundaries of a ‘Neighborhood Center’ and along an ‘Activity Corridor’, as identified on the Imagine Austin Growth Concept Map, which supports commercial uses, including retail; and (2) the Imagine Austin policies referenced above that supports a variety of land uses including retail, staff believes that the proposed land use is supported by the Imagine Austin Comprehensive Plan.

**Environmental**

The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Slaughter Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. The site is in the Desired Development Zone.

Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<table>
<thead>
<tr>
<th>Development Classification</th>
<th>% of Gross Site Area</th>
<th>% of Gross Site Area with Transfers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single-Family</td>
<td>50%</td>
<td>60%</td>
</tr>
<tr>
<td>(minimum lot size 5750 sq. ft.)</td>

<td>60%</td>
</tr>
<tr>
<td>Multifamily</td>
<td>60%</td>
<td>70%</td>
</tr>
<tr>
<td>Commercial</td>
<td>80%</td>
<td>90%</td>
</tr>
</tbody>
</table>

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Numerous trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 512-974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.
Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

**Transportation**

If the requested zoning is granted, it is recommended that access to Allred Drive be prohibited as a condition of zoning because it is inappropriate for a commercial use to take access to a local street which predominately serves single family.

If access is allowed on to Allred Drive, a Neighborhood Traffic Analysis will be required and will be performed for this project by the Transportation Review staff. Results will be provided in a separate memo [LDC, Sec. 25-6-114].

Additional right-of-way may be required at the time of subdivision and/or site plan.

A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 vehicle trips per day [LDC, 25-6-117].

**Water and Wastewater**

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by the Austin Water Utility for compliance with City criteria and suitability for operation and maintenance. Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

**Site Plan and Compatibility Standards**

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted. The site is on a Core Transit Corridor.

This location is in the Scenic Roadway sign district.

Site plans will be required for any new development other than single-family or duplex residential.
Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations. The site is subject to compatibility standards. Along the south property line (Allred Drive), the following standards apply:

a. No structure may be built within 25 feet of the property line.

b. No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.

c. No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.

d. No parking or driveways are allowed within 25 feet of the property line.

e. A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.

f. For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property zoned SF-5 or more restrictive.

g. An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.

h. Additional design regulations will be enforced at the time a site plan is submitted.
CASE NUMBER C14-2014-0087
2103 W SLAUGHTER LN
AUSTIN TX 78748
"Children are the world's most valuable resource and its best hope for the future."

John F. Kennedy, July 25, 1963

An Idea Lives On.

Columbia Point, Boston • AnIdeaLivesOn.org
Property Address: 2103 W Slaughter Lane
Austin Tx 78748

My background:
Having Graduated from University of Texas at Austin with a degree in Mathematics and completing the Uteach teaching certification program I have always wanted to teach and make a difference in someone's life. When I was in high school I struggled with math and science. One of my teachers would stay after school and teach me the material I wasn't understanding, she changed the way I viewed math and made me fall in love with the subject. From then on I have made it my mission to make a difference in kids' lives. The passion I have for math and teaching is so great, and I want to spread that to as many students as I can. I ran my own business for 3 years and have a business background as well but I was meant to teach and do this I will make it my mission to better and higher education in Austin. I want to create more jobs and make learning fun for students. Learning should not be dictated to students they should learn to better their life and the way they see the world.

Our Mission:
The mission of Delta Learning Center is to help struggling students excel in school and in life by providing tools that ensure countless successes. We provide service to underserved communities aimed at increasing education and promoting success beyond Elementary, Middle, and High School. Our hands on approach to school makes learning fun and memorable. The material learned at Delta will prove to be invaluable beyond primary and secondary school. Our goal is to increase high school and college graduation rates, thereby increasing the community's employment opportunities.

Business goal and plan:
- We will provide tutoring service to all students, we will have individualized lesson plans for each student that will fit their needs, based on their learning styles and academically.
- We will give each student a pre and post assessment to keep track of their progress.
- We want to decrease dropout and unemployment rates. More than 50% of Texas population is economically disadvantaged.
- Our goal is to have more students graduate from high school and with the a strict academic plan we will have them more prepared for college than any school and institute.
- Mentor each student to teach them about life and help them make future goals to succeed
- We want to create more jobs for the community
- Have leadership programs that will help get students involved in their communities
- I will work closely with the community to help increase high school and college graduates.
- At the same time I will be selling school supplies and books to help pay for the center. this is help improve the community in so many ways
- Increase attendance and test scores in schools.
• Engage students in wanting to learn and having fun learning.

Plan for the property:
• Front building will be used as indoor tutoring center
• Back building will be used as a classroom
• Back land will be used as outdoor study area for students
• Back lot that is zoned SF-2 will be fenced and leased out as residential to a tenant
• Front parking will be the same, parents will drop kids off and pick them up during business hours.
• Parents will only use the entrance from slaughter

Some facts:
There are still 8939 Students who need to pass the STAAR Exam. If we can help at least half of these students we can help the community. Every year schools lose about 5.4 million dollars for every student that don't attend class and school. This comes out to be about $45 per student per day they miss

Below is the percentage of Passing scores in STAAR test in the AISD district. Our goal is to increase these numbers Grades Elementary and Middle school:
