ZONING CHANGE REVIEW SHEET

CASE: C14-2014-0094 (11205 Limoncillo Ct.)  Z.A.P. DATE: July 15, 2014

ADDRESS: 11205 Limoncillo Court

OWNER/APPLICANT: William Brian Beckham & Kimberly Shannon Beckham

AGENT: Armbrust & Brown, PLLC (Lynn Ann Carley)

ZONING FROM: SF-1  TO: SF-2  AREA: 0.3933 acres (17,132 sq. ft.)

SUMMARY STAFF RECOMMENDATION:

The staff’s recommendation is to grant SF-2, Single Family-Standard Lot District, zoning for this site.

ZONING AND PLATTING COMMISSION RECOMMENDATION:

7/15/14: Approved staff’s recommendation of SF-2 zoning on consent (5-0, C. Banks & S. Compton-absent); P. Seege-1st, R. McDaniel-2nd.

DEPARTMENT COMMENTS:

The property in question is developed with a single family residence. The applicant is requesting a rezoning from SF-1 to SF-2 to add a bathroom on to the main house and to construct a deck around the pool area (Please see Zoning Request Letter-Attachment A).

The staff recommends SF-2, Single Family-Standard Lot District, zoning for this site as the SF-2 district will permit the applicant to redevelop the property with standard lot size single family residences in an existing neighborhood where the majority of property consists of large or moderate sized single family lots. The proposed SF-2 zoning will provide for a mixture of housing and will promote consistency and orderly planning because there are existing single family residential uses to the north, south, east and west of this site. The property in question is located adjacent to SF-2 zoning to the northeast and southwest.

beam construction instead of a slab on grade.

12/14/06: Approved SF-1-CO with conditions (6-0); 2nd/3rd readings
STAFF RECOMMENDATION

The staff’s recommendation is to grant SF-2, Single Family-Standard Lot District, zoning for this site.

BASIS FOR RECOMMENDATION

1. The proposed zoning should be consistent with the purpose statement of the district sought.

   Single-family residence standard lot (SF-2) district is the designation for a moderate density single-family residential use on a lot that is a minimum of 5,750 square feet. An SF-2 district designation may be applied to a use in an existing single-family neighborhood that has moderate sized lots or to new development of single-family housing on lots that are 5,750 square feet or more.

   SF-2-CO zoning will permit the applicant to redevelop the property in question with low density single family uses adjacent to other of large or moderate sized single family lots and zoning.

2. The proposed zoning should promote consistency and orderly planning.

   The proposed SF-2 zoning will promote consistency and orderly planning because there are existing single family residential uses to the north, south, east and west of this site. The property in question is located adjacent to SF-2 zoning to the northeast and southwest.

EXISTING CONDITIONS

Site Characteristics

The site under is developed with a single-family home. There are single family residences surrounding the property to the north, south, east and west.

Comprehensive Planning

SF-1 to SF-2

This zoning case is situated on a .39 acre parcel, which contains a large house within a single family subdivision. This property is not located within the boundaries of neighborhood planning area and is surrounded in all four directions by other single family houses. The proposal is to change the zoning from SF-1 to SF-2, which increases the maximum building lot coverage from 35 to 40 percent and the maximum impervious coverage from 40 to 45 percent.

Imagine Austin

The comparatively small scale of the site relative to the rest of the residential development in the area, in addition to the property not being located along an Activity Corridor or within an Activity Center as per the Imagine Austin Growth Concept Map falls below the scope of Imagine Austin; and consequently the plan is neutral on the proposed rezoning. However, due to the site’s location in an environmentally sensitive area (the Edward Aquifer), there will be at the site planning stage an environmental review to determine if any critical environmental features are located on the
site. If any are located, mitigation and setbacks necessitated by the land development code will be required.

**Environmental**

The site is located over the Edwards Aquifer Recharge Zone. The site is in the Bull Creek Watershed of the Colorado River Basin, which is classified as a Water Supply Suburban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Drinking Water Protection Zone.

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Numerous trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development’s requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 512-974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

**Impervious Cover**

The maximum impervious cover allowed by the SF-2 zoning district would be 45%. However, because the Watershed impervious cover is more restrictive than the OR zoning district's allowable impervious cover, the impervious cover on this site would be limited by the watershed ordinance.

Under the current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<table>
<thead>
<tr>
<th>Development Classification</th>
<th>% of Net Site Area</th>
<th>% NSA with Transfers</th>
</tr>
</thead>
<tbody>
<tr>
<td>One or Two Family Residential</td>
<td>30%</td>
<td>40%</td>
</tr>
<tr>
<td>Multifamily Residential</td>
<td>40%</td>
<td>55%</td>
</tr>
<tr>
<td>Commercial</td>
<td>40%</td>
<td>55%</td>
</tr>
</tbody>
</table>

Development within a Water Quality Transition Zone is limited to 18%.

Note: The most restrictive impervious cover limit applies.

**Site Plan**

No site plan comments at this time.
**Stormwater Detention**

At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in storm water runoff will be mitigated through on-site storm water detention ponds, or participation in the City of Austin Regional Stormwater Management Program, if available.

**Transportation**

Existing Street Characteristics:

<tr>
<td>Top Ridge Drive</td>
<td>66'</td>
<td>40'</td>
<td>Local</td>
<td>No</td>
<td>No</td>
<td>No</td>
</tr>
</tbody>
</table>

**Water and Wastewater**

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by the Austin Water Utility for compliance with City criteria and suitability for operation and maintenance. Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

Re: 11205 Limoncillo Court Rezoning (the “Application”)

Dear Mr. Guernsey:

This firm represents and this letter is submitted on behalf of the owners in the above referenced Application. The property is legally described as Lot 2, Block F, The Enclave Section 1 at the Villages of Spicewood Subdivision, Travis County, Texas, also known as TCADParcel #01-6813-1161-0000 (the “Property”).

This Application is being filed to rezone the Property from SF-1 to SF-2 to allow the owners to add a full bathroom to the footprint of their home and to add additional decking to their pool.

Thank you for your time and consideration in this matter. If you have any questions, comments, or need additional information, please do not hesitate to contact me.

Sincerely,

[Signature]

Lynn Ann Carley, P.E.
Senior Land Development Consultant

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application’s hearing to a later date, or may evaluate the City staff’s recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin’s land development process, visit our website: www.austintexas.gov
