C20-78-016 Zoning Ordinance

To consider amending the zoning ordinance relating to Parking Lot Landscaping

Mr. Lillie requested the Commission to postpone this item for further study. He explained there had been meetings with the Building Inspection and with the Parks and Recreation Departments on the proposed landscape proposal and requested the Commission to appoint a one- or two-member subcommittee to work with them to get some idea of the complications involved and to come back to the Planning Commission with a report on December 12.

COMMISSION VOTE:

Mr. Dixon moved and Mrs. Shipman seconded the motion to postpone the proposed amendment to the zoning ordinance relating to parking lot landscaping until December 12. Mr. Stoll requested that all City-owned property be included in whatever is decided.

<u>C7p-78-006</u> Sa

<u>Sale of City Property</u> Consideration of the sale of city property located at 1610-1618 Summit Street 1611-1619 South IH 35

Jean Mather explained that this piece of property, if developed would ruin the entrance into the neighborhood as well as the approach to the City on IH 35 and requested the City to hold this property as an investment in this neighborhood. She explained these small tracts served as buffers and are needed to protect the neighborhood. She also pointed out that when the Planning Commission approved their Master Plan, the South River City Citizens were of the opinion this meant the tract would not be placed for sale.

COMMISSION ACTION

Mr. Vier asked if the "O" zoning is too severe, why does the neighborhood group not buy this tract. He pointed out that to keep it in its natural

November 28,1978 3

state deprives the City of tax income and also causes increased maintenance costs. Mr. Stoll asked if to hold these small tracts of land might be cheaper than to place noise barriers as is being discussed for MoPac and asked how many tracts of this nature were over the entire city. Mr. Guerrero felt each tract should be taken on its own merits as the situation arises. Mrs. Shipman felt the request not to sell the tract had merit since the Planning Commission had adopted the SRCC Master Plan. Mr. Vier discussed the possibility of establishing a restriction or zoning so that if a singlefamily structure is across the street, the tract remain single-family if sold. Mr. Lillie explained the tract is only 78 feet deep and because of setback requirements contains only 28 feet of building area.

COMMISSION VOTE

Mrs. Shipman moved and Mrs. Schechter seconded the motion that since the South River City Citizen's Master Plan had been adopted, the property not be sold.

Mr. Snyder offered a substitute motion to allow the City to sell this tract but that it be stated there would be no access either from Woodland or Summit Streets and that the zoning be established as "A". Mr. Vier seconded this motion and it failed by a vote of 2-6.

Mr. Jagger felt there should be access on Summit Street. Mrs. Shipman stated this is the first Master Plan of any neighborhood group. This is the first item to come up, and this would violate what the Planning Commission had accepted.

The Commission then voted on the original motion not to offer the property for sale.

AYE: Dixon, Guerrero, Jagger, Schechter, Shipman, Stoll NAY: Snyder and Vier ABSENT: Danze

THE ORIGINAL MOTION PASSED BY A VOTE OF 6-2.

R200 Review Policy on MUD/Package Treatment Plant

Mr. Lillie explained that the policy has been reviewed by the subcommittee and is ready for Planning Commission consideration. Mr. Curtis Johnson, Director of the Water and Wastewater Department and Mr. Charles Graves, Director of the Engineering Department, also stated they were in agreement with the proposal as submitted. Mrs. Shipman felt it appropriate to send the policy to the City Council so they will know of the decision of the Planning Commission.

R200 Review Policy on MUD/Package Treatment Plant (cont'd.)

COMMISSION VOTE

On motion by Mr. Vier, seconded by Mr. Stoll, the Planning Commission aproved the policy on MUD/Package Treatment Plant and requested it be sent to the City Council for their information.

AYE: Danze, Guerrero, Schechter, Shipman, Snyder, Stoll, Vier. ABSENT: Dixon, Jagger

THE MOTION PASSED BY A VOTE OF 7-0.

R200 Consideration of Recommendation to City Council on Davenport Ranch Proposal

Mr. Lillie explained this agenda item was for the purpose of considering a recommendation to the City Council on this issue. He explained an effort is being made by the staff to identify future alternatives available to the City with respect to the proposal and to the total peninsula. This item is on the City Council agenda on December 7 for action which, if approved, will allow the owner to proceed on to the State with a request to create a MUD. The Planning Commission may want to submit recommendations to the Council by that date. He suggested that perhaps the Planning Commission might like to consider this item on either December 4 or December 5.

COMMISSION ACTION

Mr. Vier felt the Council should be put in a position of giving the Planning Commission some direction. He felt that they should hear the request and then send it back to the Planning Commission with their direction. Mrs. Shipman suggested the Council remove this from their agenda and give the Planning Commission direction. Mr. Stoll felt the Council should hold the hearing and then refer it back to the Planning Commission with directions. Mr. Lillie suggested all materials be placed in Planning Commission packets on Friday, December 1; that it be placed on the Planning Commission agenda on December 4 and December 5 for consideration; that the Chairman or a representative of the Commission appear before the City Council on Thursday, December 7, requesting consideration at that time. Mr. Stoll so moved and Mr. Danze seconded the motion.

AYE: Danze, Guerrero, Schechter, Shipman, Snyder, Stoll, Vier. ABSENT: Dixon, Jagger
