

ORDINANCE NO. 20140908-003

AN ORDINANCE AUTHORIZING FEES, FINES, AND OTHER CHARGES TO BE SET OR CHARGED BY THE CITY FOR FISCAL YEAR 2014-2015 BEGINNING ON OCTOBER 1, 2014, AND ENDING ON SEPTEMBER 30, 2015.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The City Council authorizes the fees, fines and other charges listed in the attached Attachment "A" to be set or charged by the City for Fiscal Year 2014-2015 beginning on October 1, 2014, and ending on September 30, 2015.

PART 2. To the extent that a previous ordinance conflicts with this ordinance, the earlier ordinance is repealed.

PART 3. Except as otherwise specifically provided in Attachment "A", this ordinance takes effect on October 1, 2014. A fee, fine, or other charge for which a specific effective date has been established in Attachment "A" takes effect on the specified effective date.

(I) Development incentives in Smart Growth zones:

Fees for projects in areas where development is encouraged are discounted. The percentage of the applicable fee to be charged is described below:

1. In the portion of the Desired Development Zone that is located in the extraterritorial jurisdiction: 80%
2. Except as provided in number (3) below, in the portion of the Desired Development Zone that is located in the city limits: 70%
3. In the urban watersheds: 50%

Note that development projects that have had fees determined by the Smart Growth Matrix are not eligible for the above reductions.

PRICING GUIDELINES FOR ELECTRIC UTILITY PRODUCTS AND SERVICES

The pricing of electric products and services shall be derived from a competition-based pricing strategy. Competition-based pricing, also known as going-rate pricing, shall correlate prices for Austin Energy electric utility products and services to those of competitors for like goods and services in Austin, Texas or similar marketplaces. By including market-based surveys in the pricing process, competition based pricing includes within the pricing calculation the consumer's perception of the value of the product or service. The competition-based prices for products and services shall be selected by combining two standard pricing data sets and using pricing based on marginal cost.

- (1) The first pricing data set is the price range between the average lowest and average highest prices of the product or service. This price range shall be determined by researching the prices of the product or service in the current marketplace. Both internal and external market price surveys may be used. This range becomes the competition-based price range as established by competition in the market place.
- (2) The second pricing data set is the internally computed marginal cost of the product or service. Marginal cost is calculated by combining the determined total fixed and total variable costs to establish the floor of the profit margin.
- (3) The final price of the product or service shall not be offered below the marginal cost of the product or service and must be within the determined competition-based price range.
- (4) Calculation of the final price shall assume a product life cycle (to be determined for each product) for the purposes of determining the number of units or amount of service that will be sold.
- (5) The final price for a particular product or service shall be a ratio of the sum of the marginal cost and targeted profit to the anticipated number of units to be sold.

Competition-based pricing assumes that the selected price represents the collective pricing wisdom of the electric utility product and service marketplace. It reflects a price that affords a fair profit in a competitive marketplace.

LIGHTING PRODUCTS AND SERVICES

This service includes the supply and installation of lights or poles for commercial facilities and residences. Lights and poles may be owned and maintained by the Utility.

MAINTENANCE CONTRACTS FOR CUSTOMER-OWNED MEDIUM-VOLTAGE EQUIPMENT

This service provides specific maintenance contracts for customers requesting assistance in repairing or providing maintenance on medium-voltage equipment (over 600 volts). A maintenance contract will be prepared for each customer.

2014-15 Fee Schedule

Austin Energy Approved

POWER QUALITY OR RELIABILITY CONTRACTING

This service provides contracts to improve customer power quality or reliability through the sale, lease, installation and maintenance of electrical devices. The final product or service offering will be based on that customer's specific needs.

SURGE PROTECTION

This service provides whole building and point-of-use surge protection from voltage spikes. These products will be suitable for residential and commercial establishments. Customers have the option of choosing either whole building surge protection installed at the meter or high quality surge protection strips for individual or grouped devices, or both.

AUSTIN ANALYTICAL SERVICES

Austin Analytical laboratory services can benefit other customers as well as the City of Austin. The laboratory is equipped to provide PCB, lead, asbestos, and other environmental and analytical testing to customers.

EDUCATIONAL SERVICES

This service provides information and education on utility and competitive issues such as safety, power quality, planning, and energy services.

GREEN BUILDING PROGRAM

The Green Building Program is a voluntary building rating system that encourages environmentally sound building, remodeling, and building maintenance practices. This program includes those services connected with providing "green building" practices: professional consulting, educational and informational "green building" services, and marketing of the same, all connected with providing and promoting environmentally sound building practices and systems ("green building"). Green Building services are available to individuals and business outside the City of Austin's electric service area as well to businesses within the service area boundary.

DISTRICT HEATING AND COOLING SERVICE

This service provides customers and their facilities with thermal energy (in the form of chilled water, heated water, or steam) from central plant facilities and distribution systems operated by Austin Energy.

2014-15 Fee Schedule

Austin Energy Approved

CONSTRUCTION / INSTALLATION

This service consists of pole or tower construction and conduit installation for electric or communications companies.

PULSE METERING, SUBMETERING, AND INTERVAL LOAD DATA SERVICES

This service provides installation of pulse metering, submetering, or interval load data recorders at a customer's facility, and electronic collection of relevant data from a customer's facility, and provides customers with timely operating data to assist with the efficient operation of its equipment and facility.

ENERGY MANAGEMENT SERVICES

Services include energy audits, feasibility studies, cost estimates, project management, providing, installing, and/or maintaining energy-efficient equipment, and arranging for project financing for governmental, commercial, and industrial customers.

DISTRIBUTED GENERATION

This service provides on-site analysis for large industrial or commercial customers to assess opportunities for on-site electrical generation for these customers for peak shaving or emergency outage situations. If circumstances for on-site generation are favorable, Austin Energy may provide or assist customers in obtaining distributed generation equipment. Austin Energy may own, operate, and/or maintain such equipment.

ELECTRIC RELIABILITY COUNCIL OF TEXAS WHOLESALE MARKET SERVICES

These services may be offered to eligible parties desiring to participate in the Electric Reliability Council of Texas (ERCOT) wholesale market. Austin Energy is currently registered as a Qualified Scheduling Entity in ERCOT and, as such, may provide scheduling, dispatching, communication, and a broad range of other services related to the ERCOT wholesale market.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

RESIDENTIAL-AUSTIN

Application

This rate applies to electric service for residential purposes to single-family dwellings and single metered apartment units whose point of delivery is located inside the city limits of Austin. This rate does not apply if a portion of the dwelling or unit is used for non-residential purposes unless such use qualifies as a home occupation as defined by City Code Section 25-2-900. This rate does not apply to electric service for separately-metered uses at the same premises, such as water wells, gates, barns, garages, boat docks, pools, and lighting.

Character of Service

Service under this rate schedule shall be provided pursuant to City Code Section 15-9, Utility Service Regulations, and the Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless at Austin Energy's sole discretion additional metering is required.

GreenChoice Option

Service under this rate schedule is eligible for application of the GreenChoice Energy Rider.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

RESIDENTIAL SOLAR

Application

This rider applies to any customer receiving residential electric service who has an on-site solar photovoltaic system associated with their residential account that is interconnected with Austin Energy's electric distribution system.

Monthly Charges

Billable kWh under this rate schedule shall be based on the customer's total metered energy consumption during the billing month, including the metered energy delivered by Austin Energy's electric system and the metered energy consumed from an on-site solar system. All non-kWh-based charges under this rate schedule shall remain unaffected by the application of this rider.

Solar Credit

For each billing month the customer shall receive a non-refundable, non-transferable credit equal to the metered kWh output of the customer's photovoltaic system, times the current Value-of-Solar Factor plus any carry-over credit from the previous billing month. Credits are applicable to the customer's total charges for residential electric services in the customer's name on the same premise where the photovoltaic system is interconnected. Any remaining amount of solar credit shall be carried forward and applied to the customer's next electric bill. Credits may not be transferred to another customer or to another account for the same customer. In the event of service termination, any Value of Solar credit balance will be applied to the Power Supply Adjustment (PSA) to reduce net purchased power costs.

Value-of-Solar Factor

The Value-of-Solar Factor shall be set annually through the Austin Energy budget approval process. Effective January 1 of each calendar year, the Value-of-Solar Factor shall be the monthly average of the prospective year (12 months) Value-of-Solar assessment and either a) the prevailing Value-of-Solar assessments since October 1, 2012, or b) the previous 48 months, whichever is shorter.

Effective Date	Value-of-Solar Factor
October 1, 2012	\$0.128/kWh
January 1, 2014	\$0.107/kWh
January 1, 2015	\$0.113/kWh

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

SECONDARY VOLTAGE LESS THAN 10 KW

Application

This rate applies to secondary voltage (less than 12,470 volts nominal line to line) electric service, to which no other specific rate schedule applies, to any customer whose kW demand did not meet or exceed 10 kW at any interval during the most recent June through September billing months, or as determined by Austin Energy if insufficient usage history is available.

Under this rate, electric service provided to a religious sanctuary is eligible for the House of Worship Discount described below.

A "religious sanctuary" is a permanent or temporary building or facility that is primarily used for regular, organized group religious worship services that are open to the public.

The House of Worship Discount is not available for electric service provided to any school, educational facility, community recreational facility, child care facility, dormitory, residence, lodge, parking facility, gymnasium, meeting hall, office or event center.

To be eligible for the House of Worship Discount, a customer must be a tax-exempt 501(c)(3) organization for federal tax purposes and a tax-exempt religious organization under Sections 151.310, 156.102 and 171.058 of the Texas Tax Code.

Character of Service

Service under this rate schedule shall be provided pursuant to City Code Section 15-9, Utility Service Regulations, and the Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless at Austin Energy's sole discretion additional metering is required.

GreenChoice® Option

Service under this rate schedule is eligible for application of the GreenChoice Energy Rider.

Terms And Conditions

The Customer Charge will not be applied to a customer's bill until the customer has received service for at least ten days during the billing cycle.

The monthly electric charges billed pursuant to this rate schedule for any Independent School District account will be discounted by an effective rate of 10%.

For service under this rate schedule to a customer that is eligible for the House of Worship Discount, the customer's total monthly electric charges billed pursuant to this rate schedule for service delivered to a religious sanctuary shall not exceed an amount equaling the billed kWh usage times the rate specified below, but shall not be less than the Customer Charge. Effective November 1, 2013, the House of Worship Discount rate is \$0.13087 per kWh. Effective November 1, 2014, the House of Worship Discount rate is \$0.13353 per kWh.

GreenChoice® Option

Service under this rate schedule is eligible for application of the GreenChoice Energy Rider.

Terms And Conditions

Except as noted below, Billed kW shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy's metering equipment, adjusted for power factor corrections as follows:

When power factor during the interval of greatest use is less than 90 percent as indicated or recorded by metering equipment installed by Austin Energy, Billed kW shall be determined by multiplying metered kilowatt demand during the fifteen-minute interval of greatest use by 90 percent and dividing by the indicated or recorded power factor during the interval of greatest use.

For example:

The metered kilowatt demand during the fifteen-minute interval of greatest monthly use = 13.5 kW

The power factor during the fifteen-minute interval of greatest monthly use = 86.7%

The Billed kW = $13.5 \text{ kW} \times 0.90 \text{ power factor} / 0.867 \text{ power factor} = 14.0 \text{ kW}$

The Customer Charge will not be applied to a customer's bill until the customer has received service for at least ten days during the billing cycle.

The monthly electric charges billed pursuant to this rate schedule for any Independent School District account will be discounted by an effective rate of 10%.

For service under this rate schedule to a customer that is eligible for the House of Worship Discount, Billed kW shall be the kilowatt demand during the fifteen-minute interval of greatest use during weekdays (excluding weekends) during the current billing month as indicated or recorded by metering equipment installed by Austin Energy, adjusted for power factor as described above. The customer's total monthly electric charges billed pursuant to this rate schedule for service delivered to a religious sanctuary shall not exceed an amount equaling the billed kWh usage times the rate specified below, but shall not be less than the Customer Charge. CITY OF AUSTIN ELECTRIC RATE SCHEDULES

GreenChoice® Option

Service under this rate schedule is eligible for application of the GreenChoice Energy Rider.

Terms And Conditions

Except as noted below, Billed kW shall be the metered kilowatt demand during the fifteen-minute interval of greatest use during the current billing month as indicated or recorded by metering equipment installed by Austin Energy and adjusted for power factor corrections as follows:

When power factor during the interval of greatest use is less than 90 percent as indicated or recorded by metering equipment installed by Austin Energy, Billed kW shall be determined by multiplying metered kilowatt demand during the fifteen-minute interval of greatest use by 90 percent and dividing by the indicated or recorded power factor during the interval of greatest use.

For example:

The metered kilowatt demand during the fifteen-minute interval of greatest monthly use = 135 kW

The power factor during the fifteen-minute interval of greatest monthly use = 86.7%

The Billed kW = $135 \text{ kW} \times 0.90 \text{ power factor} / 0.867 \text{ power factor} = 140 \text{ kW}$

The Customer Charge will not be applied to a customer's bill until the customer has received service for at least ten days during the billing cycle.

The monthly electric charges billed pursuant to this rate schedule for any Independent School District account will be discounted by an effective rate of 10%.

For service under this rate schedule to a customer that is eligible for the House of Worship Discount, Billed kW shall be the kilowatt demand during the fifteen-minute interval of greatest use during weekdays (excluding weekends) during the current billing month as indicated or recorded by metering equipment installed by Austin Energy, adjusted for power factor as described above. The customer's total monthly electric charges billed pursuant to this rate schedule for service delivered to a religious sanctuary shall not exceed an amount equaling the billed kWh usage times the rate specified below, but shall not be less than the Customer Charge. Effective November 1, 2013, the House of Worship Discount rate is \$0.13087 per kWh. Effective November 1, 2014, the House of Worship Discount rate is \$0.13353 per kWh.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

PRIMARY VOLTAGE LESS THAN 3 MW- AUSTIN

Application

This rate applies to electric service at a primary voltage (12,470 to 69,000 volts nominal line to line) to any customer whose point of delivery is located inside the city limits of Austin and whose metered demand for power did not meet or exceed 3,000 kW at any interval during the most recent June through September billing months, or as determined by Austin Energy if insufficient usage history is available. The customer shall own, maintain, and operate all facilities and equipment on the customer's side of the point of delivery.

Character of Service

Service under this rate schedule shall be provided pursuant to City Code Section 15-9, Utility Service Regulations, and the Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless at Austin Energy's sole discretion additional metering is required.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

GreenChoice® Option

Service under this rate schedule is eligible for application of the GreenChoice Energy Rider.

Terms And Conditions

Billed kW shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy's metering equipment, adjusted for power factor as follows:

When power factor during the interval of greatest use is less than 90 percent as indicated or recorded by metering equipment installed by Austin Energy, Billed kW shall be determined by multiplying metered kilowatt demand during the fifteen-minute interval of greatest use by 90 percent and dividing by the indicated or recorded power factor during the interval of greatest use.

For example:

The metered kilowatt demand during the fifteen-minute interval of greatest monthly use = 31,000 kW

The power factor during the fifteen-minute interval of greatest monthly use = 86.7%

The Billed kW = $31,000 \text{ kW} \times 0.90 \text{ power factor} / 0.867 \text{ power factor} = 32,180 \text{ kW}$

A customer's bill for electric service of at least 10 days under this rate schedule shall not be less than the customer charge.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

THERMAL ENERGY STORAGE

Application

This rate applies to any customer who shifts from the Thermal Energy Storage period (TES period) at least the lesser of 20% of the customer's normal on-peak June through September billed demand or 1,000 kW through the use of thermal energy storage technology. The normal on-peak June through September billed demand shall be the maximum June through September billed demand recorded prior to taking service on this rate, or as may be determined by Austin Energy.

Character of Service

Service under this rate schedule shall be provided pursuant to City Code Section 15-9, Utility Service Regulations, and the Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless at Austin Energy's sole discretion additional metering is required.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

Terms And Conditions

Billed kW for the Electric Delivery and Regulatory Charges shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy's metering equipment, adjusted for power factor as set forth below.

Billed kW for the Demand Charge shall be calculated as follows, and shall be adjusted for power factor as set forth below:

For the June through September billing months, the billed kW shall be the highest 15-minute metered demand recorded during the TES on-peak period. The June through September billed kW shall not be less than 50% of the normal on-peak June through September billed kW. If more than 50% of the customer's load is attributable to cooling, the 50% floor will be waived.

For the October through May billing months, the billed kW shall be the highest 15-minute metered demand recorded during the TES Off-Peak period of the month, or 90% of the June through September billed on-peak kW set in the previous June through September billing months, whichever is less.

When power factor during the interval of greatest use is less than 90 percent as indicated or recorded by metering equipment installed by Austin Energy, billed kW shall be determined by multiplying metered kW demand during the 15-minute interval of greatest use during the appropriate time period by 90 percent and dividing by the indicated or recorded power factor during the interval of greatest use.

For example:

The metered kilowatt demand during the 15-minute interval of greatest monthly use = 1,000 kW

The power factor during the 15-minute interval of greatest monthly use = 86.7%

The billed kW = 1,000 kW x (0.90 power factor / 0.867 power factor) = 1,038 kW

The customer shall enter into a separate agreement with Austin Energy for this rate.

The customer shall continue to be served under the terms and conditions of, and shall continue to comply with, all rules and regulations of Austin Energy as amended from time to time during the term of this agreement. The customer shall permit Austin Energy to install all equipment necessary for time-of-use metering and to permit reasonable access to all service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes.

The TES on-peak period load shall be shifted, not eliminated or replaced by alternative fuels.

The monthly electric charges billed pursuant to this rate schedule for any Independent School District account will be reduced by an effective rate of 10%.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

RIDER TOU – THERMAL ENERGY STORAGE

Application

This rate is applicable to any customer on the Large Primary Special Contract Rider, Large Primary Special Contract Rider II or the Large Primary Special Contract – Industrial Rider rate (including Time-Of-Use customers on those rates) who shifts to off-peak time periods no less than the lesser of 20% of the customer's normal on-peak Summer Billed Demand or 2,500 kW through the use of Thermal Energy Storage technology. The normal on-peak Summer Billed Demand shall be the maximum Summer Billed Demand recorded prior to attaching this rider, or as may be determined by the City of Austin.

Rate

The customer shall continue to be billed under the applicable current rate ordinance with the following provisions:

Summer Billed Demand: From May through October, the Summer Billed Demand shall be the highest fifteen-minute demand recorded during the on-peak period. The Summer Billed Demand shall not be less than 50% of the normal on-peak Summer Billed Demand. If more than 50% of the customer's load is attributable to cooling, the 50% floor will be waived.

Winter Billed Demand: From November through April, the Winter Billed Demand shall be the highest fifteen-minute demand recorded during the month, or 90% of the Summer Billed Demand set in the previous summer; whichever is less.

On-Peak: 4:00 p.m. to 8:00 p.m., Monday through Friday; May 1 through October 31.

Off-Peak: 8:00 p.m. to 4:00 p.m., Monday through Friday; all day Saturday, Sunday, Memorial Day, Independence Day, and Labor Day; May 1 through October 31. All day November 1 through April 30.

Conditions of Service:

- A. The customer shall enter into a separate agreement with the City of Austin for this rider.
- B. The customer shall continue to be served under the terms and conditions of, and shall continue to comply with, all rules and regulations of the City of Austin as amended from time to time during the term of this agreement.
- C. The on-peak load shall be shifted to off-peak, not eliminated or replaced by alternative fuels.
- D. The customer shall permit the City to install all equipment necessary for time-of-use metering and to permit reasonable access to all electric service facilities installed by the City for inspection, maintenance, repair, removal, or data recording purposes.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

DISTRIBUTED GENERATION FROM RENEWABLE SOURCES RIDER

Application

This Rider is available to any non-residential customer who owns or hosts an on-site generating system powered by a renewable resource with a capacity of not more than 20 kW-ac that is interconnected with Austin Energy's electric system. Non-residential customers who own or host an on-site generating system powered by a renewable resource with a capacity of more than 20 kW-ac shall not be subject to this rider, and instead will be subject to the terms and conditions of the rate schedule under which the customer receives service, for all energy delivered by Austin Energy.

A renewable energy technology is any technology that exclusively relies on an energy source that is naturally regenerated over a short time and derived directly from the sun, indirectly from the sun, or from moving water or other natural movements and mechanisms of the environment. Renewable energy technologies include those that rely on energy derived directly from the sun, wind, geothermal, hydroelectric, wave, or tidal energy, or on biomass or biomass-based waste products, including landfill gas. A renewable energy technology does not rely on energy resources derived from fossil fuels, waste products from fossil fuels, or waste products from inorganic sources.

Conditions of Service

All charges, character of service, and terms and conditions of the rate schedule under which the customer receives service apply except as expressly altered by this rider. The customer shall comply with applicable Austin Energy interconnection requirements, including submittal of any required interconnection application and signed agreement. The customer is responsible for the costs of interconnecting with Austin Energy's electric system, including transformers, service lines, or other equipment determined necessary by Austin Energy for safe installation and operation of the customer's equipment. The customer is responsible for any costs associated with required inspections and permits.

Metering

Metering under this rider shall be by a single meter capable of registering the flow of electricity in both directions to determine the customer's net energy flow.

Net Energy

The customer's billed kWh shall be the customer's monthly net energy (kWh) use, which is the energy delivered by Austin Energy to the customer less any energy delivered from the customer's system to the Austin Energy distribution system during the billing month. If in any billing month the customer's monthly net energy use is negative, the customer's electric bill shall be credited as follows:

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

If the Power Supply Adjustment applies, the monthly credit equals the monthly net energy times the Power Supply Adjustment (¢/kWh).

If the GreenChoice Energy Rider applies, the monthly credit equals the monthly net energy times the Green Power Charge (¢/kWh).

If the Fuel Adjustment Clause applies, the monthly credit equals the monthly net energy times the Fuel Rate (¢/kWh).

Any charges not collected on a kWh basis are not altered by this calculation. Any credit shall be applied to the customer's bill for electric service. Any credit in excess of the customer's total charges for electric service, excluding the customer charge, shall be carried forward and applied to the customer's next electric bill.

GREENCHOICE ENERGY RIDER

Subscriptions under the GreenChoice® program support the City of Austin's inclusion of renewable fuel sources in its power generation portfolio. This energy cannot be directed to any one particular destination on the ERCOT electric grid, including participant's premises.

Application

This rider applies to electric service to a customer subscribed to the City of Austin's GreenChoice program.

Green Power Charge

While subscribed to the GreenChoice program, a customer will be billed a Green Power Charge in lieu of the Power Supply Adjustment (PSA) or Fuel Adjustment Clause (FAC) that would otherwise apply to the customer's subscribed energy usage.

Subscriptions entered into before October 1, 2013:

Subscription Batch	Green Power Charge	Subscription End Date
4	3.50 ¢ per kWh	June 30, 2015
5	5.50 ¢ per kWh	December 31, 2022
6.14	5.70 ¢ per kWh	December 31, 2014
6.21	5.70 ¢ per kWh	December 31, 2021

Effective October 1, 2013 Green Power Charges are:

Subscription Type	Green Power Charge
Adjustable	PSA or FAC plus 1.0¢ per kWh
Fixed	4.90 ¢ per kWh

Effective January 1, 2015 Green Power Charges are:

Subscription Type	Green Power Charge
Residential SmartCents	PSA plus 0.75¢ per kWh
Commercial BusinessCents	PSA or FAC plus 0.75¢ per kWh
Commercial Energizer	PSA or FAC plus 0.75¢ per kWh
Commercial Patron 14	4.90 ¢ per kWh
Commercial Patron 15	4.40 ¢ per kWh

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

Terms and Conditions

Except for subscriptions of 1.2 million kWh or more annually, subscriptions entered into after September 30, 2013 must be for 100% of a meter's monthly energy usage and will receive the adjustable Green Power Charge. Non-residential customers may opt to enter into a written subscription contract for a one-year term after which the subscription will continue on a monthly basis. Customers not under contract may unsubscribe from the program at any time. A customer who unsubscribes may not re-subscribe until the following calendar year.

After September 30, 2014, a customer who subscribes a total annual amount of 1.2 million kWh or more may receive the adjustable Green Power Charge as provided above or may enter into a written subscription contract for a fixed Green Power Charge until December 31, 2019. Each account subscribed to the program for the fixed charge must be subscribed for either (1) 100% of the account's energy usage, or (2) a specified amount of energy usage of at least 100,000 kWh per billing month.

Under subscriptions to Batches 4, 5, or 6, the Green Power Charge will be applied to 100% of the customer's energy usage (unless otherwise specified in a subscription contract in effect on September 30, 2013) through the batch's end date. Batches 4, 5, and 6 are closed to additional subscriptions. A non-residential account that has been subscribed to Batch 4, 5, or 6 may not be re-subscribed under new terms before the subscription batch's end date.

The terms of a subscription contract in effect on December 31, 2014 shall prevail in the event of a conflict with this rider. The director of the electric utility shall develop the contract terms and conditions for subscriptions entered into after December 31, 2014.

ELECTRIC VEHICLE PUBLIC CHARGING PILOT PROGRAM

Application

This rate applies to electric service to a customer through a public electric vehicle charging station under the Electric Vehicle Public Charging Pilot Program.

Rate

Six-month subscription: \$23.095 for unlimited charging

Non-subscription: \$1.85 per hour of charging

All other terms and conditions of the program shall be administratively determined.

GreenChoice Option

Service under this rate schedule is eligible for application of the GreenChoice Energy Rider.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

POWER SUPPLY ADJUSTMENT

Application

The Power Supply Adjustment (PSA) provides for the recovery and crediting of ERCOT settlements, fuel costs, and purchased power agreement costs, and an adjustment for the over/under-recovery balance for the period preceding the adjustment of the PSA. The PSA, to the extent not recovered through the closed Fuel Adjustment Clause, comprises the following costs (PSA costs):

- ERCOT Settlements – charges and credits from ERCOT, other than the Administrative and Nodal Fees;
- Fuel Costs – costs for fuel and fuel transportation, and hedging gains and losses;
- Net Purchased Power Costs – costs and offsetting revenues associated with short and long term purchased power agreements, and costs for distributed generation production; and

The PSA shall be determined as part of the City of Austin's annual budgeting process, including a public hearing. The PSA shall be determined by estimating the sum of all net costs that will be attributable to the PSA Costs during the twelve month period following the effective date of the PSA, and adding to that sum the positive or negative balance of any existing over- or under-recovery of PSA Costs. The PSA shall be the resulting sum divided by projected service area sales, for the twelve month period following the effective date of the PSA. For any particular customer, the PSA shall be adjusted by the following voltage level factors:

Secondary Voltage:	1.0049
Primary Voltage:	0.9821
Transmission Voltage:	0.9696

The PSA may be adjusted to eliminate any over- or under-recovery as described below. Within 30 days of any adjustment of the PSA to eliminate over- or under-recovery of costs, the City Manager will publicly present a report to the City Council that provides the underlying calculations for the PSA both pre- and post-adjustment by customer class.

If, at any time, the balance of PSA costs recovered since the date of the last PSA adjustment is more than 110% of PSA costs actually incurred during such period, and such over-recovery is projected to remain above 110% after 12 months from the date of the last PSA adjustment, the PSA shall be adjusted to eliminate the over-recovery balance within the next 12 months.

If, at any time, the balance of PSA costs recovered since the date of the last PSA adjustment is less than 90% of PSA costs actually incurred, and such under-recovery is projected to remain less than 90% after 12 months from the date of the last PSA adjustment, the PSA may be adjusted to eliminate the under-recovery balance within the next 12 months.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

At least once each year, the City Manager will publicly present a report to the City Council that provides the underlying calculations for the PSA by customer class. These calculations will break out fuel costs, ERCOT charges and credits, including ancillary service sales, and purchased power costs and revenues, including bilateral sales. They will also show the extent of over- or under-recovery of PSA costs for the previous twelve months.

Effective November 1, 2013, the PSA charges by voltage level are:

Austin Energy PSA Voltage Level	Voltage Level Adjustment Factors	Fuel Rate per kWh Effective November 1, 2013
System Average	n/a	3.691 cents
Secondary	1.0049	3.709 cents
Primary	0.9821	3.625 cents
Transmission	0.9696	3.579 cents

Effective November 1, 2014, the PSA charges by voltage level are:

Austin Energy PSA Voltage Level	Voltage Level Adjustment Factors	Fuel Rate per kWh Effective November 1, 2014
System Average	n/a	3.926 cents
Secondary	1.0049	3.945 cents
Primary	0.9821	3.856 cents
Transmission	0.9696	3.807 cents

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

COMMUNITY BENEFIT CHARGE

Application:

The Community Benefit Charge recovers certain costs incurred by the utility as a benefit to Austin Energy's service area customers and the greater community. This charge shall be determined through the City budget process, and includes three specific programs and services provided to customers.

Service Area Lighting (SAL) recovers the cost of street lighting (other than lighting maintained by TxDOT) and the operation of traffic signals located inside the city limits of Austin. Customers whose point of delivery is located outside the city limits of Austin are not subject to the Service Area Lighting component of the Community Benefit Charge.

Energy Efficiency Services (EES) recovers the cost of energy efficiency rebates and related costs, solar rebates, and the Green Building program offered by Austin Energy throughout its service area.

The Customer Assistance Program (CAP) funds projects that help qualifying low-income and other disadvantaged residential customers through bill discounts, payment assistance (Plus 1), and free weatherization services.

The discount component of CAP is available to a residential customer who receives, or who resides with a household member who receives, assistance from the Comprehensive Energy Assistance Program (CEAP), Travis County Hospital District Medical Assistance Program (MAP, Supplemental Security Income Program (SSI), Medicaid, the Supplemental Nutritional Assistance Program (SNAP), the Children's Health Insurance Program (CHIP), or the Telephone Lifeline Program. CEAP, MAP, SSI, Medicaid, and SNAP recipients will be given priority for program funding, followed by CHIP and then Telephone Lifeline recipients. Eligible residential customers will be automatically enrolled in the discount program through a third-party matching process, with self-enrollment also available directly through Austin Energy.

Customers enrolled in the discount program are exempt from the monthly Customer Charge and the CAP component of the Community Benefit Charge and shall receive a 10 percent bill reduction on kilowatt-hour-based charges. Customers in the discount program, as well as other low income and disadvantaged residential customers, may be eligible for bill payment assistance through Plus 1 and free weatherization assistance.

Funding for CAP shall be provided through the CAP component of the Community Benefit Charge and unexpended and re-appropriated funds. Information regarding CAP shall be made available quarterly, including the number of residential customers enrolled automatically and through self-enrollment, the total and average amount of benefits provided, and the number of residential customers referred to the low-income weatherization program. With Council approval funds unspent at the end of a fiscal year shall be rolled over to the next fiscal year's budget for the CAP program.

STANDBY CAPACITY (CLOSED)

THIS RATE SCHEDULE IS CLOSED TO NEW CUSTOMERS. This rate applies to a customer who received service under this rate schedule on June 7, 2012 under a contract with Austin Energy.

Character of Service

Service under this rate schedule shall be provided pursuant to City Code Section 15-9, Utility Service Regulations, and the Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter.

Monthly Standby Capacity Rate:

\$2.62 per kilowatt of Primary Voltage Standby Capacity

\$2.41 per kilowatt of Transmission Voltage Standby Capacity

Standby Capacity:

The Standby Capacity will be equivalent to the maximum demand of the load to be served by Austin Energy during a scheduled or unscheduled outage of the customer's power production facilities or as stipulated in the contract between Austin Energy and the customer.

Minimum Bill:

Customer will be assessed a monthly Minimum Bill equal to the Standby Capacity Rate times the Standby Capacity.

LARGE PRIMARY SERVICE SPECIAL CONTRACT RIDER

(CLOSED)

Definitions:

FULL REQUIREMENTS service means generation, transmission, and distribution, (i.e., "bundled") service as presently supplied by City of Austin to customer, provided however, that the customer may self-generate up to 500 kW of its requirements from customer-owned, on-site renewable energy technology, subject to the terms and conditions of the City of Austin's Distributed Generation from Renewable Sources Rider

BEST OFFER means the cost of generation of a competing supplier, plus other costs, fees or expenses that a customer incurs in order to bring the generation to its point of service, including but not limited to: (1) transmission wheeling costs to the City of Austin Electric System; (2) transmission and distribution wheeling costs to the customer's point of service; and (3) costs to install or construct any on-site generation, interconnection or metering facilities.

COMPETING SUPPLIERS includes but is not limited to a provider of generation, energy services, and ancillary services, whether or not the supplier is located inside the City of Austin's current service territory, to the extent that the provider is permitted by law to serve the customer load.

Application:

THIS RIDER IS CLOSED TO NEW CUSTOMERS. This rate applies to a large primary service (LPS) customer that executed a separate contract for service under this rider prior to October 9, 2006. This rate and other terms of this rider shall remain available to customer only for the remainder of the term currently specified in customer's contract. Any amendments to customer's current contract shall be subject to the terms of the City of Austin's Large Primary Service – Special Contract Rider II.,

The Rider – TOU – Thermal Energy Storage and the Optional Time-of-Use Rate may be attached to this rate

Character of Service:

The Character of Service provided under this rate is alternating current, 60 cycles, single phase or three phase, in accordance with the Utilities Criteria Manual prescribed by the City of Austin and which may be amended from time to time. Electric service of one standard character will be delivered to one point on the customer's premises and measured through one meter.

Rate (E):	<u>Winter</u> <u>Billing Months of</u> <u>November through April</u>	<u>Summer</u> <u>Billing Months of</u> <u>May through October</u>
Energy Rate (E)	1.11¢ per kWh, for all kWh	1.11¢ per kWh, for all kWh
Demand Rate (ELD)	\$11.40 per kW	\$12.54 per kW

Fuel Adjustment Clause (FAC) – plus an adjustment for variable costs, calculated according to the Fuel Adjustment Clause Tariff, multiplied by all kWh.

Minimum Bill:

Customer will be assessed a monthly Minimum Bill of \$12.00 if the above calculations result in a charge of less than \$12.00.

Billing Demand:

The kilowatt demand during the fifteen-minute interval of greatest use during the current billing month as indicated or recorded by metering equipment installed by the City of Austin. When power factor during the interval of greatest use is less than 85%, Billing Demand shall be determined by multiplying the indicated demand by 85% and dividing by the lower peak power factor.

Optional Time-Of-Use Rate:

At the option of the customer, a separate agreement may be entered into between the City and the customer for a time-of-use incentive rate. The customer shall permit the City to install all equipment necessary for time-of-use metering and to permit reasonable access to all electric service facilities installed by the City for inspection, maintenance, repair, removal, or data recording purposes.

Billed demand will be based on the fifteen-minute interval of greatest use during an On-Peak period for the current billing month. All other adjustments will be included as described above (See Billing Demand).

Fuel Adjustment Clause (FAC) - plus an adjustment for variable costs, calculated according to the Fuel Adjustment Clause Tariff, multiplied by all kWh.

On-Peak: 1:00 p.m. to 9:00 p.m., Monday through Friday; May 1 through October 31. 8:00 a.m. to 10:00 p.m., Monday through Sunday; November 1 through April 30.

Off-Peak: 9:00 p.m. to 1:00 p.m., Monday through Friday; all day Saturday, Sunday, Memorial Day, Independence Day, and Labor Day; May 1 through October 31. 10:00 p.m. to 8:00 a.m. Monday through Sunday; November 1 through April 30.

Terms and Conditions:

The special contract rate begins on the first day of the customer's billing cycle following the date that a separate contract has been executed between the City of Austin and the customer, and shall be in effect for a period of thirty-six (36) months thereafter.

Not earlier than the first day of the thirty-seventh month after the effective date and not later than the last day of the seventy-second month after the effective date, a most favored nations clause applies (which clause does not apply to a rate paid by a governmental entity of the State of Texas, that is mandated by Federal or State law, the Public Utility Commission, a judicial body, or a retail pilot program affecting a customer of the City of Austin). It is the intent of this provision that the most favored nations clause will not apply unless the City of Austin voluntarily charges a lower rate to another LPS customer or large industrial primary service or transmission level customer (who receives power at 12,500 volts or higher and has a demand for power that meets or exceeds 3,000 kW for any two months within the previous twelve months). If the City of Austin is required by Federal or State law, the Public Utility Commission, or a judicial body to charge a lower rate to a customer or group of customers, then the most favored nations clause does not apply.

For the remainder of the term of this contract after the seventy-second month after the effective date, the City of Austin may keep customer loads on-system by exercising a continuing right of first refusal to match the best offer of any competing suppliers. The City of Austin shall have until the later of sixty (60) months from the effective date, or seventy-five (75) days from the date it receives proper notice from Customer to exercise its right of first refusal. All such alternative proposals may be disclosed to the City of Austin on a confidential trade secret basis to the extent permitted by law, and shall be supported by a sworn affidavit signed by a corporate officer of the customer involved.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

For the remainder of the term of this contract after the seventy-second month after the effective date, provided that retail competition in the electric utility industry in Texas is allowed and is available in Austin, Texas, the City of Austin shall not be obligated to charge the customer the special contract rate. In the event that retail competition is not allowed in Texas, or is not available in Austin, Texas, the customer shall continue to take power from the City of Austin at the special contract rate (with Time-Of-Use option) and be subject to extended application of the most favorable nations clause, until the end of the term of the contract.

This tariff does not obligate the City of Austin to match the best offer of any competing supplier. In addition, nothing herein shall obligate the City of Austin to match any portion of an offer or other consideration not directly related to the supply of electric energy (i.e. generation, transmission and distribution) to the customer's facilities in the Austin area. In other words, the City of Austin would be required to match the total delivered cost of electric energy to the customer.

Contracts entered into under the provisions of this tariff shall protect the integrity and enforceability of the City's right of first refusal. After a customer commences to purchase electric generation from a competing supplier (and the City of Austin fails to exercise its right of first refusal or to match the offer of a competing supplier), provision of generation service by the City of Austin to that portion of customer's total load removed from the City of Austin Electric System shall thereafter be at the sole option of the City of Austin. However, the City of Austin shall have a continuing obligation to provide transmission and distribution services, including ancillary services if needed, pursuant to its tariffs and the Public Utility Commission's Substantive Rules or other applicable laws and regulations.

A customer may not submit bids or offers received from competing suppliers, and thereby cause or require the City of Austin to exercise its right of first refusal in accordance with the terms of this tariff, more than once every twelve months.

Nothing in this tariff or a contract under this tariff shall operate to prevent, prohibit, or delay the City of Austin from recovering "stranded" costs from the customer, to the extent authorized by law, including those described in the Public Utility Regulatory Act.

If, notwithstanding the foregoing paragraph, any subsequent legislation would in any way operate to prevent, prohibit or delay recovery of the full amount, otherwise authorized by law, of "stranded" costs through any surcharge or additional charge or any new or revised rate level or element solely because of the existence or contents of this tariff or the contract then the contract rates specified in this tariff for energy, demand and/or fuel shall be deemed to be changed by an amount designed to exactly equal the revenue the City of Austin would otherwise recover but for the existence or contents of this tariff or contract. Any such change shall take effect on the same date that the surcharge, additional charge or new or revised rate level or element would otherwise

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

go into effect. If necessary the change may take the form of a one-time charge, assessable prior to or after customer switches generation suppliers. To the extent possible, while still allowing full recovery of the otherwise authorized amount, the change shall be incorporated into prospective monthly recurring charges.

The contract to be signed by customer shall explicitly incorporate the terms of the preceding two paragraphs, and also provide that the result contemplated by such paragraphs are essential and non-severable terms of the contract.

Notwithstanding any provision of this tariff, neither customer nor the City of Austin shall be precluded from challenging the legal validity of any statute, regulations, or other provisions of law.

This Special Contract Rider shall be extended to all of an LPS customer's accounts having a maximum demand of at least 500 kW.

Upon request, customers receiving service under this Special Contract Rider will be provided dual feed service with reserve capacity and maintenance under the 10 year long contract provisions of the Special Contract Rider, except that the customer will be responsible for the initial assessment fee, customer requested changes to the initial assessment, and facilities design and construction costs, as established in the fee schedule. Dual feed service with reserve capacity is electric service provided to the customer's premise(s) through two (or more) independent distribution feeders, with one feeder in normal service and the other in back-up service. Capacity is reserved for the second feeder, and is placed into service upon an outage of the primary feeder.

If it is determined at any time by the City of Austin that the customer violated the provisions of this tariff or the contract implementing the tariff, then the customer will be immediately billed on the LPS rate schedule, or as amended, from the date service was first commenced under this tariff. The difference, plus interest at one percent (1%) per month, or the maximum allowable legal interest rate, whichever is less, from the date service was first commenced under this tariff, shall immediately become due by customer to the City of Austin.

The contract executed under this tariff shall address the rights of the City and the customer relating to the transfer or assignment of rights under this tariff.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

LARGE PRIMARY SERVICE SPECIAL CONTRACT RIDER II (CLOSED)

Definitions

FULL REQUIREMENTS service means full and exclusive generation, transmission, and distribution, (i.e., "bundled") service as presently supplied by City of Austin (sometimes referred to as City) to customer; provided, however, that the customer may self-generate up to 500 kW of its requirements from customer-owned, on site renewable energy technology, subject to the terms and condition of Austin Energy's Distributed generation from Renewable Sources Rider.

Application

THIS RIDER IS CLOSED TO NEW CUSTOMERS. This rate applies to a customer that executed a separate contract for this service on or after October 9, 2006, in form and substance acceptable to Austin Energy, but before May 24, 2012. This rate is unavailable to customers that did not execute a contract for this service before May 24, 2012. The contract requires the customer to remain a full requirements customer of Austin Energy through May 31, 2015, on which date customer's contract and the terms of this rider shall terminate; provided, however, that if Austin Energy subsequently adopts a rate schedule that provides more favorable rates, terms, or conditions than provided by this rider and which describes a customer class for which customer's large primary service accounts qualify, customer may terminate its contract and receive service pursuant to such subsequent rate schedule. Austin Energy enters and executes the contract and assumes its obligation in its proprietary capacity as the owner and operator of a utility enterprise increasingly in competition with other power suppliers for the attraction and retention of industrial loads, and in order to induce customer to remain a customer of Austin Energy.

The Rider TOU – Thermal Energy Storage and the Optional Time-of-Use Rate may be attached to this rate.

Character of Service

Service under this rate schedule shall be provided pursuant to City Code Section 15-9, Utility Service Regulations, and the Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point on the customer's premises and measured through one meter.

Energy Charge	1.110 ¢ Per kWh	1.110 ¢ Per kWh

Fuel Adjustment Clause (FAC) – plus an adjustment for variable costs, calculated according to the Fuel Adjustment Clause Rate schedule, multiplied by all kWh.

Minimum Bill:

Customer will be assessed a monthly Minimum Bill of \$12.00 if the above calculations result in a charge of less than \$12.00.

Billing Demand:

The kilowatt demand during the fifteen-minute interval of greatest use during the current billing month as indicated or recorded by metering equipment installed by Austin Energy. When customer's power factor during the interval of greatest use is less than 85 percent, Billing Demand shall be determined by multiplying the indicated demand by 85 percent and dividing by the lower peak power factor; provided, however, the power factor adjustment specified in this paragraph shall be superseded by any subsequent rate schedule or ordinance governing power factor that may be enacted or amended by the City of Austin from time to time.

Optional Time-Of-Use Rate:

At the option of the customer, a separate agreement may be entered into between Austin Energy and the customer for a time-of-use incentive rate. The customer shall permit Austin Energy to install all equipment necessary for time-of-use metering and to permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes.

Terms and Conditions:

The special contract rate is effective through May 31, 2015.

Notwithstanding any provision of this rate schedule, neither customer nor Austin Energy shall be precluded from challenging the legal validity of any statute, regulations or other provisions of the law.

This Special Contract Rider shall be extended to all of a qualifying customer's accounts having a maximum demand of at least 500 kW.

Upon request, customers receiving service under this Special Contract Rider will be provided dual feed service with reserve capacity and maintenance under the long term contract provisions of the Special Contract Rider, except that the customer will be responsible for the initial assessment fee, customer requested changes to the initial assessment, and facilities design and construction costs, as established in the fee schedule. Dual feed service with reserve capacity is electric service provided to the customer's premises(s) through two (or more) independent distribution feeders, with one feeder in normal service and the other in back-up service. Capacity is reserved for the second feeder, and is placed into service upon an outage of the primary feeder.

If it is determined at any time by Austin Energy that the customer violated the provisions of this rate schedule or the contract implementing the rate schedule, then the customer will be immediately billed on the otherwise applicable rate schedule from the date service was first commenced under this rate schedule. The difference, plus interest at one percent (1%) per month, or the maximum allowable legal interest rate, whichever is less, from the date service was first commenced under this rate schedule, shall immediately become due by customer to Austin Energy.

The contract executed under this rate schedule shall address the rights of Austin Energy and the customer relating to the transfer or assignment of rights under this rate schedule.

LARGE PRIMARY SERVICE SPECIAL CONTRACT INDUSTRIAL

RIDER (CLOSED)

Application

THIS RIDER IS CLOSED TO NEW CUSTOMERS. This rate applies to electric service to any customer that qualifies for service and executed a contract under the Large Primary Service – Special Contract Rider I or II and thereafter has (1) reached a billing demand of at least 25,000 kilowatts during any two months within the previous six months, (2) maintained an average load factor of at least 85% during the previous six months and (3) received service under this rider before May 24, 2012. This rate is unavailable to customers that did not receive service under this rider before May 24, 2012. Any action by the customer resulting in measurable reduction in peak demand or energy use may be taken into account by Austin Energy, in its sole discretion, when applying the demand and load factor requirements of this tariff. Austin Energy will also take into account up to 500 kilowatts of power generated by customer-owned, on-site renewable energy technology in accordance with the Distributed Generation from Renewable Sources Rider, when applying the demand requirement of this tariff.

The customer shall continue to receive service under the Large Primary Service – Special Contract Rider I or II rate schedule, as applicable, and comply with terms of its Large Primary Service Special Contract; provided, that customer at its option shall receive the energy and billing demand rates specified by this Rider for accounts which meet criteria (1) and (2) above, so long as this Rider remains in effect.

The Rider TOU – Thermal Energy Storage and the Optional Time-of-Use Rate may be attached to this rate.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

FUEL ADJUSTMENT CLAUSE (CLOSED)

Application

This clause applies to customers receiving service under the Large Primary Service – Special Contract Rider II or Large Primary Special Service – Industrial Rider.

Fuel Rate:

The Fuel Rate is expressed by the following formula:

$$\text{Fuel Rate} = \frac{F + I}{S} + \frac{(E + T) - A}{S}$$

In the Fuel Rate Formula:

F is the estimated cost of fuels and related expenses, including refunds and the cost of purchased power for the twelve (12) month period used to calculate the FAC year for service-area sales.

I is 1) the estimated fees and charges from the Electric Reliability Council of Texas (ERCOT) Independent System Operator (ISO) incurred by Austin Energy when providing energy and capacity needed to meet its service-area obligations for the twelve (12) month period used to calculate the FAC and 2) the estimated cost of the ERCOT ISO Administrative Fee for the 12 month period used to calculate the FAC.

S is the estimated service-area sales of kWh for the twelve (12) month period used to calculate the FAC.

E is the actual cost of fuels and related expenses, including refunds and the cost of purchased power, less any fuel costs for off system sales of energy for the latest twelve (12) month period of data available.

T is 1) the actual fees and charges from ERCOT ISO incurred by Austin Energy when providing energy and capacity needed to meet its service-area obligations and 2) the actual Administrative Fee for the latest twelve (12) month period of data available.

A is the actual cost recovered from service-area sales for the latest twelve (12) month period of data available.

The fuel rate shall be effective January 1st, unless adjusted for over- or under-recovery.

If, at any time, there is more than a ten percent over-recovery from the total projected fuel and purchased power costs for the twelve month period used to calculate those costs, Austin Energy shall initiate a review of the FAC to project whether the over-recovery will be within ten percent for the remaining months of the twelve month period used to calculate those costs. If the review

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

indicates an over-recovery of more than ten percent of the remainder of the period, Austin Energy shall adjust the FAC for the next twelve months to eliminate over-recovery.

If, at any time, there is more than a ten percent projected under-recovery from the total projected fuel and purchased power costs for the twelve month period used to calculate those costs, Austin Energy will initiate a review of the FAC to project whether the under-recovery will be within ten percent for the remaining months of the twelve month period used to calculate those costs. If the review indicates an under-recovery of more than ten percent for the remainder of the period, Austin Energy may adjust the FAC for the next twelve to eliminate under-recovery.

Calculation:

The Fuel Rate will be multiplied by the following voltage level adjustment factors:

Secondary Multiplier:	1.004854
Primary Multiplier:	0.974939
Transmission Multiplier:	0.964826

At least once each year, the City Manager will publicly present a report to the City Council that provides the underlying calculations for the Fuel Rate by customer class. These calculations will break out fuel costs, ERCOT charges and credits, including ancillary service sales, and purchased power costs and revenues, including bilateral sales. They will also show the extent of over- or under-recovery of Fuel Rate costs for the previous twelve months.

Within 30 days of any adjustment of the Fuel Rate to eliminate over- or under-recovery of costs, the City Manager will publicly present a report to the City Council that provides the underlying calculations for the Fuel Rate both pre- and post-adjustment by customer class.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

TRANSMISSION SERVICE ADJUSTMENT RIDER (CLOSED)

Application:

This clause applies to customers receiving service under the Large Primary Service – Special Contract Rider II or Large Primary Special Service – Industrial Rider.

Monthly Rate:

The customer's transmission service adjustment charge will be determined by multiplying the customer's billed kilowatt hours (kWh) or, in the case of a customer subject to a billing demand charge, the customer's billed kilowatt demand (kW), by the Transmission Service Adjustment Factor (TSAF) applicable to the customer's rate classification. The TSAF shall be calculated for each rate class using the following formula:

$$\text{TSAF} = \frac{((\text{PSR}_{\text{cym}} - \text{PSR}_{08\text{m}}) \times 4\text{CP}_{\text{cym}} \times \text{CLS}_{\text{cym}}) + \text{OU}}{\text{B}}$$

Where:

PSR_{cym} is the transmission postage stamp rate published in the Electric Reliability Council of Texas (ERCOT) wholesale transmission service charge matrix most recently approved by the Public Utility Commission of Texas pursuant to PUCT Substantive Rule 25.192.

$\text{PSR}_{08\text{m}}$ is the 2008 matrix-year ERCOT postage stamp rate of \$22.72772 per kW.

4CP_{cym} is Austin Energy's average kilowatt share of the ERCOT average coincident peak demand for the months of June through September used in the calculation of the PSR_{cym} .

CLS_{cym} is the rate class's percentage load share of the 4CP_{cym} , determined using Austin Energy's metering data.

B is the total billed kWh for the rate class, or the total billed kW for the rate class if the class is subject to a billing demand charge, for the time period used in the calculation of the PSR_{cym} .

OU is the amount of Austin Energy's over-collection or under-collection of ERCOT transmission service charges with respect to the prior wholesale transmission service charge matrix, calculated as follows:

$$\text{OU} = (\text{TSC}_{\text{pym}} - (\text{PSR}_{08\text{m}} \times 4\text{CP}_{\text{pym}}) - \text{TSR}_{\text{pym}}) \times \text{CLS}_{\text{pym}}$$

Where:

TSC_{pym} is the amount of actual ERCOT transmission service charges incurred by Austin Energy since the last adjustment to the TSAF.

CITY OF AUSTIN ELECTRIC RATE SCHEDULES

$4CP_{pym}$ is Austin Energy's average kilowatt share of the ERCOT average coincident peak demand for the months of June through September used in the calculation of the postage stamp rate for the prior wholesale transmission service charge matrix.

TSR_{pym} is the amount billed by Austin Energy to all rate classes under this rider since the last adjustment to the TSAF.

CLS_{pym} is the rate class's percentage load share of the $4CP_{pym}$, determined using Austin Energy's metering data.

Until the first adjustment of the TSAF after the effective date of this rider, OU shall equal zero. The TSAF applicable to each rate class may be administratively adjusted to reflect any changes made to the annual ERCOT wholesale transmission service charge matrix.

Effective October 1, 2012, TSAR rates are:

2014-15 Fee Schedule

	Amended 2013-14	Approved 2014-15	Change
Austin Water Utility			
Addition to System Fee			
Water tap fees for all second connections, increases to the existing installed meter, and/or water meters larger than two inches (2") are calculated on the total labor costs, transportation and equipment costs, materials and supply costs, plus indirect and overhead costs for the connection.			
Wastewater tap fees for all second connections and/or wastewater connections larger than six inches (6") are calculated on the total labor costs, transportation and equipment costs, materials and supplies costs, plus indirect and overhead costs for the connection.			
If the facility requiring wastewater service consist of more than fifteen living units (including, but not limited to apartments, motels, hotels, nursing homes, hospitals, etc.) or is of a commercial and/or industrial nature in excess of 4,000 square feet, a review by the Utility will be conducted to determine the need for a manhole in the sewer line. In the event that a manhole is required, the charge shall be calculated on a cost basis.			
Auxiliary Water Fee for Lake or Natural Auxiliary Water Sources Only	\$0.00	\$60.00	New
Annual fee charged to AWU customers with an active lake or other natural water auxiliary water source. Fee will be used to recoup some of the costs incurred to implement, manage, and enforce this program that is designed to ensure that the public water supply is adequately protected and, if applicable, alternate wastewater billing is applied according to approved standards. The fee is per AWU customer site with an active lake or other natural auxiliary water source. This fee does not apply to AWU customer sites where the only auxiliary water source is from a rainwater harvesting system or AWU-provided reclaim water. This fee is charged on a monthly basis at 1/12 of the annual fee during the month(s) the customer's account is active.			
Backflow Prevention Compliance Fee	\$30.00	\$30.60	\$0.60
Annual fee the Austin Water Utility (AWU) charges to its potable and reclaimed water high hazard customers or fire sprinkler systems that have backflow prevention assemblies on their plumbing systems that are required by the State of Texas or by City of Austin regulations to be tested and the results of the tests reported back to the AWU on at least an annual basis to help the utility ensure that its customers are protected from possible contamination or pollution due to a backflow event. Fee is per backflow assembly and is charged on a monthly basis at 1/12 of the annual fee during the month(s) the customer's account is active.

Fire Hydrant Meter Fees			
<p>Water meters are installed on fire hydrants for construction purposes on a temporary basis. Costs associated with fire hydrant meters include an initiation fee, an installation fee, a non-compliance removal fee, and a refundable equipment deposit for the meter and equipment. The initiation fee covers administrative costs in setting up the account on the billing system. The installation fee covers the field costs for installing the meter on the fire hydrant or on a vehicle for use in withdrawing water from a fire hydrant. Backflow prevention assemblies are required to be installed by the contractor and tested by a certified backflow technician and the test report faxed or delivered to Special Services within 48 hours of the meter installation. The non-compliance removal fee is charged when a fire hydrant meter is removed by the City of Austin due to either an ordinance violation or the contractor failing to have a backflow prevention assembly tested and the test report faxed or delivered to Special Services within the required time period. The meter and equipment deposits are to help insure the return of the meter and equipment upon completion of use by the contractor. The equipment deposit does not earn interest, and will be refunded to the customer upon return of the meter and equipment to the Utility, after verification that the meter and equipment is in good working condition, and verification that the utility billing charges have been paid in full. Charges for damages to the meter or equipment will be deducted from the deposit, if applicable. Refer to City Ordinance No. 20051020-005.</p>

Annual fee the Austin Water Utility (AWU) charges to its customers with private fire hydrants (PFHs) for the tracking of locations, testing, inspections, and maintenance of PFHs, as well as the tester's certifications and credentials. The requirement to inspect, test and maintain private hydrants is in Chapter 25-12 of the Austin City Code as described in § 25-12-172 (Local Amendments to International Fire Code - 508.5.3 Private Fire Service mains and water tanks). This annual inspection, testing and maintenance of PFHs must be done in accordance with the National Fire Protection Association (NFPA) 25 and American Water Works Association (AWWA) Manual M-17, Installation, Field Testing and Maintenance of Fire Hydrants. This annual inspection, testing and maintenance ensures PFHs will operate properly in emergency situations, identifies and helps quantify the amount of water lost due to leaking systems and misuse, and improves the City of Austin's mapping systems, assisting both the AWU and the Austin Fire Department (AFD). Fee is per private hydrant and is charged on a monthly basis at 1/12 of the annual fee during the month(s) the customer's account is active.

Utility Meter Re-testing Fee			
	\$300.00	\$306.00	\$6.00
Fee assessed to customer requesting a meter accuracy test on meters when the Utility has performed a meter accuracy test on the same meter during the preceding 36-month period.			
Fee will only be assessed if the meter passes the additional requested accuracy tests.			
Utility Piping Permit			
	\$646.00	\$646.00	
Annual fee used to recoup the costs incurred in performing the tasks associated with regulating the chemical providing companies performing temporary utility piping activities in the City of Austin's water service area (e.g., analyzing and documenting plans, specifications, applications and reports, monitoring and inspecting sites where temporary utility piping activities have been authorized, enforcing regulations when violations occur, etc.). All of these activities are conducted to ensure compliance with pretreatment program and other health and safety requirements. This annual Utility Piping Permit fee is prorated by quarter if the chemical provider company is in its first year of operation. Subsequent years of operation are charged at the full annual rate.

This monthly Category I Permit Base Fee is only charged during the month(s) the General Industrial User's account is active. For all other Industrial Users (e.g. significant industrial users, categorical industrial users, major industrial users, other political subdivision industrial users, etc.) Permit Base Fees are charged on an annual basis at one of the rates shown above for Categories II through IV. This annual Permit Base Fee is prorated by quarter if the Industrial user is in its first year of operation. Subsequent years of operation are charged at the full annual rate. Analytical costs will be determined by the amount of Water Laboratory cost associated with each Industrial User.			
Wastewater Service Rates			
For all bills and charges rendered on or after November 1, 2014 these rates are applicable to all service for wastewater treatment to retail customers served by the City of Austin. In the absence of measured sewage volume by a means acceptable to the City, the volume service charge for retail customers will be based on their wastewater average.			
<u>Wastewater Service Rates for Retail Customers:</u>			
Retail Monthly Customer Charges:	\$10.00	\$10.30	\$0.30

Austin Water Utility			

Wastewater Service Rates (continued)

Existing Customers:

(A) Retail Customers with Water Service. These rates are applicable to all retail customers who have metered water connections. Wastewater billing is based on the average water usage during the designated three (3) month wastewater averaging period; or monthly water consumption, whichever is lower. If there is zero usage during one of the three months in the averaging period, the month with zero usage is eliminated, and the remaining two months are used in the wastewater averaging calculation. If there is zero usage for two or all three months of the averaging period, a default wastewater average of 5,000 gallons will be assigned for residential customers until the next wastewater averaging period. For all other retail customers if there is zero usage for two or all three months of the averaging period, the monthly wastewater volume will be based on actual metered water usage monthly until the next wastewater averaging period.

(B) Customers with approved Water and Wastewater Measuring Devices or Alternative Water Supply. The City will base wastewater billings on the measured sewage volume, or an alternate method using an approved water and/or wastewater measuring device or method approved by the Director of the Austin Water Utility or designee.

(C) Non-Residential Customers with associated Irrigation Meters. For those non-residential customers that have a separate City of Austin water meter for irrigation other than a water meter solely for a City Supported Community Garden or Urban Farm as defined in Chapter 14-7 of the City Code, the City will base wastewater billing for domestic usage on actual monthly water consumption.

New Customers:

(A) Residential. The City will impute a wastewater average of 5,000 gallons to new residential accounts until they have established a wastewater average. The Director of the Austin Water Utility or the Director's designee has the discretion to adjust the 5,000 gallon average when the customer has had an established wastewater average at another City of Austin service address.

(B) Non-Residential Customers without irrigation meter(s). (Multifamily, Commercial, Large Volume and Wholesale)

(1) Except as provided by subsection (2), if a non-residential customer establishes a new account at a service location where an earlier account established a wastewater average, the City will use the earlier wastewater average for wastewater service billing purposes until the new account establishes its own wastewater average.

(2) If in the judgment of the Director of the Austin Water Utility or the Director's designee, the new customer will place a substantially different demand on the wastewater collection and treatment system, the City will bill the new non-residential customer for wastewater service based on actual metered water consumption until the new non-residential customer has established a wastewater average.

(C) Customers with Wastewater Measuring Devices or Alternative Water Supply. The City will base wastewater billings on the measured sewage volume, or an alternate method using an approved water and/or wastewater measuring device or method approved by the Director of the Austin Water Utility or designee.

(D) Non-residential Customers with Irrigation Meters. If a new non-residential customer has installed a separate City water meter for irrigation other than a water meter solely for a City Supported Community Garden or Urban Farm as defined in Chapter 14-7 of the City Code, the City will base the new customer's wastewater billing for domestic usage on actual monthly water consumption.

The criteria and procedures for an existing commercial customer or a new large volume customer to qualify as a large volume customer are as follows:

Existing Commercial Customers:

(A) Criteria. An existing commercial customer of the Austin Water Utility must purchase more than 85.0 million gallons of water during a fiscal year that is between October 1 and September 30 at a single service address or campus. The Austin Water Utility will annually monitor water consumption to determine if any existing customers have exceeded the 85.0 million gallon level.

(B) Procedures. On verification of the 85.0 million gallon purchase or consumption requirement in fiscal year one, the Austin Water Utility will include this customer as a large volume customer in its next rate setting cycle. The next rate setting cycle is during fiscal year two, and will set rates that are to be effective November 1 of fiscal year three. The Austin Water Utility will verify the water consumption in fiscal year two, before the rate change on November 1 of fiscal year three, to determine if the commercial customer has maintained the 85.0 million gallon water consumption level for the second consecutive fiscal year. If the commercial customer maintains the 85.0 million level, the City will change the rates for the commercial customer to the large volume customer rates on November 1 of fiscal year three. The City will bill the commercial customer for water consumption after the November 1 rate change at the new large volume rate. The City will give no credit for water consumption in the qualifying fiscal years before the November 1 rate change. If the customer does not maintain the 85.0 million gallon level in the second fiscal year, the customer will remain at commercial class rates.

2014-15 Fee Schedule

	Amended 2013-14	Approved 2014-15	Change
Austin Water Utility			
Wastewater Service Rates (continued)			
The criteria and procedures for an existing large volume customer to continue to qualify as a large volume customer are as follows:			
<u>Existing Large Volume Customers with Reduced Volume:</u>			
(A) Criteria: Existing large volume customers of the Austin Water Utility must purchase 85.0 million gallons of water during a fiscal year that is between October 1 and September 30 at a single service address or campus. The Austin Water Utility will annually monitor water consumption for all existing large volume customers to determine whether the minimum 85.0 million gallon level has been met.			
(B) Procedures: On verification of fiscal year water use below the 85.0 million gallon consumption requirement the Strategic Resource Services Division of the Austin Water Utility will notify the customer in writing of the shortfall. If the customer falls below the 85.0 million gallon level for a second consecutive year, a second notice will be sent notifying the customer that they will be converted to the commercial class during the November billing cycle of that same year. Once a customer has lost industrial status, the criteria and procedures for an existing commercial customer to qualify as a large volume/industrial customer will be followed.			
(C) Procedures: Large volume customers that have implemented an Austin Water Utility approved conservation initiative that causes the water consumption to fall below the 85 million gallons threshold may continue to receive the large volume rate provided that the annual water consumption remains above 65 million gallons and the reduced usage does not create a peaking factor that would be greater than the commercial class peaking factor.			
<u>Existing Large Volume Customers with Major Process Changes:</u>			
(A) Criteria: An existing large volume customer of the Austin Water Utility who has major process changes (e.g. sells off parts of the company, business changes with lower use projections, etc) and the original business plans to purchase less than 85.0 million gallons of the water during a fiscal year that is between October 1 and September 30 at a single service address or campus.			
(B) Procedures: Upon notification of a major process change that reduces water use projections below the 85.0 million gallon consumption requirement to maintain large volume customer status, the Strategic Resources Services Division of the Austin Water Utility will notify the customer in writing that they will be converted to the commercial class on the billing cycle following the verification of the actual process change in which water use is reduced.			
<u>New Large Volume Customers:</u>			
(A) Criteria: New large volume customers that have requested connection to the water and wastewater system must submit water use projections to the Austin Water Utility as part of the service extension process. The Austin Water Utility will review the water use projections to verify that the customer would consume more than 85.0 million gallons within a fiscal year at a single service address or campus.			
(B) Procedures: After the customer has provided the Austin Water Utility with water use projections, the Austin Water Utility will verify and approve the projections. On approval, the City will classify the customer as a large volume customer and charge the appropriate rate on connection to the City's water and wastewater system. If the Austin Water Utility does not approve the customer's water use projections as being above the 85.0 million gallon level, the City will classify the customer appropriately.			
<u>Wastewater Service Rates for Wholesale Customers:</u>			
Wholesale Monthly Customer Charge:	\$10.00	\$10.30	\$0.30
Customers will be assessed a wholesale monthly charge for each meter when water consumption has registered, or for service of at least 10 days of the monthly billing period.

2014-15 Fee Schedule

	Amended 2013-14	Approved 2014-15	Change
Austin Water Utility			
Wastewater Service Rates (continued)			
(A) Application. For all bills and charges rendered on or after November 1, 2014, the City will charge the above rates for wholesale customers. These charges are applicable to wholesale wastewater service customers of the City of Austin who are water districts, municipal utility districts, or other utilities which have metered water connections. In the absence of measured sewage volume by a means acceptable to the City, the volume service charge will be based on the average water usage during the designated three (3) month wastewater averaging period, or monthly water consumption, whichever is lower. If there is zero usage during one of the three months in the averaging period, the month with zero usage is eliminated, and the remaining two months are used in the wastewater averaging calculation. For new customers who have not established an average water usage during the December, January, and February billing period, the City will use the actual water consumption figure or the measured sewage volume to establish the wastewater billing.			
(B) New Customers. The volume rate for any wholesale customer that is not listed above will be based on the arithmetic average of all wholesale volume rates. That rate will remain in effect until the new customer establishes a full 12 month's consumption history. After that time, the Austin Water Utility will establish an individual rate and seek approval of that rate by the City Council.			
Watercraft and Marinas Program Fees			
Watercraft with Marine Sanitation Device	\$0.00	\$24.00	New
Annual fee the Austin Water Utility (AWU) charges customers with a marine sanitation device on a watercraft operated or intended for operation on the surface waters of the City's water supply.			
Boat Pump-Out Facility	\$0.00	\$60.00	New
Annual fee the Austin Water Utility (AWU) charges customers with a boat pump-out facility operated on or adjacent to the surface waters of the City's water supply.			
Water Service Rates			
For all bills and charges rendered on or after November 1, 2014, these rates are applicable to all sales or service of water to customers served by the City of Austin.			
<u>Water Service Rates for Retail Customers:</u>			
Retail Monthly Meter Equivalent Minimum Charge:			
Certain residential customers may qualify for a waiver of the monthly meter equivalent charge.			
Customers will be assessed a monthly meter equivalent minimum charge for each meter when water consumption has registered, or for service of at least 10 days of the monthly billing period.

Use of the ballrooms for exhibits require prior approval by the Department and must be contracted as such. Charge for such use is at the daily rental and does not include equipment, utility or technical service fees.			
<u>General Session, Exam or Other Event Use</u>			
Charged at the Daily Rental per show day and includes one single head table for four (4) people plus tables and chairs for the initial set only, based on available inventory. Move-in/move-out days are charged at one-half (1/2) the daily rate, not to exceed the number of show days.			
<u>Ticketed Stage, Performance Use</u>			
Charged at the Maximum Daily Rental per show versus fifteen percent (15%) of the gross box office receipts per performance to the Maximum Stage Performance Rental, whichever is greater plus one-half (1/2) the maximum equipment cost for the required set-up. Box office settlement must be reconciled and paid the night of the event. The Department will require, in advance, a certified ticket manifest, approval of all ticket sales procedures, and control of ticket sales receipts by a licensed/bonded ticketing company for purposes of determining rental fees due to the Department.

General Information

Daily use is considered to be no earlier than 6AM and terminating no later than 11:59PM on the same day. Overtime charges may be assessed at \$600.00 per hour after 12 midnight and before 6AM. A non-refundable application fee of \$100.00 may be required to process the application. Rental includes HVAC at 72° F, normal housekeeping services excluding the exhibit areas and property of others, i.e. aisle carpet, interior booth space and display areas. Additional fees will be assessed for the disposal of excess refuse or display materials left in rental areas. Damages or costs associated with excessive cleanup will be billed to the contractor along with a thirty percent (30%) administrative fee. The Department reserves the right to use a reasonable amount of space (a 30' by 30' area not including seating) in each Exhibit Hall to provide food and beverage services to client and patrons. Definitions of terms herein shall be consistent with definitions attached to the Department Booking Policy.

The Director may negotiate special rates, charges, fees, credits and services for use of the Department facilities by events that represent significant local economic impact, hotel occupancy tax or substantial facility revenue; provided, however, that the direct dollar impact from all sources must not be below the operating cost of each area or facility used for an event. The Director may use the following formula to calculate the direct dollar impact of conventions:

Delegate Spending [# of Attendees: ___ x \$974 (amount per stay)] + Exhibit Company Spending [# of Exhibiting Companies ___ x \$7,004 (amount per stay)] = Direct Dollar Impact \$ _____

The source of the Direct Dollar Impact Formula is Destination Marketing Association International (DMAI). This formula is based on the DMAI ExPact Study. DMAI periodically updates the formula's amount per stay multiplier. The Director may update this multiplier so it reflects the current DMAI multiplier.

All shows will be assessed the appropriate rental fee. Contracts and contract amendments issued within thirty (30) days of the 1st contract day may be assessed unscheduled labor fees and equipment fees at the base rate. Changes made within five (5) days of the event are subject to reset fees.

At the Austin Convention Center, all food and beverage is exclusive to the in-house food and beverage management company.

The standard rate applies for show management orders when complete event requirement or specifications are received thirty (30) days or less from first completion day. An appropriate discount rate of 25% will apply for Show Management orders when complete event requirements or specifications are received thirty-one (31) or more days from the first contract day.

The Department rigging coordinator is required to approve onsite rigging. Labor charge will apply.

The Department Public Event Worker Supervisor is required when client sets outside equipment. Labor charge will apply.

General Information

Daily use is considered to be no earlier than 6AM and terminating no later than 11:59PM on the same day. Overtime charges may be assessed at \$600.00 per hour after 12 midnight and before 6AM. A non-refundable application fee of \$100.00 may be required to process the application. Rental includes HVAC at 72° F, normal housekeeping services excluding the exhibit areas and property of others, i.e. aisle carpet, interior booth space and display areas. Additional fees will be assessed for the disposal of excess refuse or display materials left in rental areas. Damages or costs associated with excessive cleanup will be billed to the contractor along with a thirty percent (30%) administrative fee. The Department reserves the right to use a reasonable amount of space (a 30' by 30' area not including seating) in each Exhibit Hall to provide food and beverage services to client and patrons. Definitions of terms herein shall be consistent with definitions attached to the Department Booking Policy.

The Director may negotiate special rates, charges, fees, credits and services for use of the Department facilities by events that represent significant local economic impact, hotel occupancy tax or substantial facility revenue; provided, however, that the direct dollar impact from all sources must not be below the operating cost of each area or facility used for an event. The Director may use the following formula to calculate the direct dollar impact of conventions:

Delegate Spending [# of Attendees: ____ x \$974 (amount per stay)] + Exhibit Company Spending [# of Exhibiting Companies ____ x \$7,004 (amount per stay)] = Direct Dollar Impact \$_____

The source of the Direct Dollar Impact Formula is Destination Marketing Association International (DMAI). This formula is based on the DMAI ExPact Study. DMAI periodically updates the formula's amount per stay multiplier. The Director may update this multiplier so it reflects the current DMAI multiplier.

When an outside entity is utilized for food and beverage at the Lester E. Palmer Events Center, equipment and services are charged accordingly. Facility rental does not include equipment. Food and beverage service is exclusive to the in-house food and beverage management company in the Palmer Events Center meeting rooms 1-5.

Short term rental of Palmer Events Center meeting rooms 1-5, without the rental of an exhibit hall, is available within a ninety (90) day window.

All shows will be assessed the appropriate rental fee. Contracts and contract amendments issued within thirty (30) days of the 1st contract day may be assessed unscheduled labor fees and equipment fees at the standard rate. Changes made within five (5) days of the event are subject to reset fees.

Requests received from Show Management thirty-one (31) days or more from the first contract day for labor services, security services, equipment, waste management services, audio recording services and utility services will be charged the listed rate (incentive rate). An appropriate discount rate of 25% will apply for Show Management orders when complete event requirements or specifications are received thirty-one (31) or more days from the first contract day.

The Department rigging coordinator is required to approve onsite rigging. Labor charge will apply.

The Department Public Event Worker Supervisor is required when client sets outside equipment. Labor charge will apply.

Pre-Function Space and Outside Area Rental

Pre-function space	\$100.00 minimum/day/booth	\$100.00 minimum/day/booth
	\$1.00 gross sq. ft. per day/booth	\$1.00 gross sq. ft. per day/booth
Outside Areas	\$350.00 minimum/day/booth	\$350.00 minimum/day/booth

Outside areas and pre-function space may not be used for exhibits unless the area is contracted as such and has prior approval by the Director. The Minimum Daily Rental is charged per booth versus \$2.00 per gross square foot per day, whichever is greater is charged. Pre-function space and lobbies are generally used for pedestrian traffic or registration; therefore, the Department may be unable to reserve on an exclusive basis.

Development Incentives in Smart Growth Zones

Fees for projects in areas where development is encouraged are discounted. The percentage of the applicable fee to be charged is described below:

1. In the portion of the Desired Development Zone that is located in the extraterritorial jurisdiction: 80%
2. Except as provided in number (3) below, in the portion of the Desired Development Zone that is located in the city limits: 70%
3. In the urban watersheds: 50%

Urban Water Quality Structure Control Fund

Payment in lieu of Structural Water Quality Controls

Payment = $\{ \$32,000 \times A_1 + \$18,000 \times A_2 + \$11,000 \times A_3 + \$8,000 \times A_4 + \$6,000 \times A_5 \} \times E + \$0.10 \times B + C \times D$

Where:

- A₁ = increment of impervious cover from 0 to 1.0 acres,
- A₂ = increment of impervious cover from 1.01 to 2.0 acres,
- A₃ = increment of impervious cover from 2.01 to 10.00 acres,
- A₄ = increment of impervious cover from 10.01 to 20.00 acres,
- A₅ = impervious cover greater than 20.0 acres,
- B = the gross square footage of the building excluding the first floor,
- C = the site area in acres,
- D = \$6,000 per acre for sites developed for commercial/multi-family use, or
\$4,000 per acre for sites developed for single family or duplex residences, and
- E = Construction cost adjustment factor. The construction cost adjustment factor must be calculated annually using the Engineering News Record (ENR) 20 city average Construction Cost index with the base index being the ENR construction cost index of October 2002 (6597). For each fiscal year, the construction cost adjustment factor shall be recalculated in October as the ratio of the then current September ENR Construction Cost index divided by the October 2002 Construction Cost index. This new construction cost adjustment factor shall be applied to all fees collected during that fiscal year.

Impervious cover is the area for which water quality treatment is required pursuant to Section 1.9.2 of the Environmental Criteria Manual. For the purpose of this calculation, impervious cover shall be measured to the nearest 0.01 acre.

Regional Stormwater Management Participation Fees (RSMP)

Each Regional Stormwater Management Program (RSMP) agreement is mutually exclusive. No credit will be given for impervious cover paid for in previous RSMP agreements for subsequent phases of development. However, applicants may combine all related phases of a development into one RSMP agreement and remit the associated total fee at the time the permit for the first phase is approved.

NOTE: Requirements for participation in the Regional Stormwater Management Program are located in Section 8.2.2.D. and Appendix D of the Drainage Criteria Manual.

The RSMP fee consists of two components; the construction cost component (CCC) and the land cost component (LCC). The two components are calculated independently for single-family developments and multi-family / commercial developments. Below are the details of how to calculate the fees.

1. RSMP Construction Cost Component (CCC)

The number of impervious acres is used to determine this part of the fee. The number of impervious acres is based on the maximum allowable impervious acreage as allowed by the more restrictive of zoning or watershed ordinance for subdivisions. Site plans may use the actual impervious cover for the site. The construction cost component will be adjusted annually by using the "Engineering News Record" construction cost index with the base construction cost index being referenced to October 2002.

Capped Land Cost per Acre

<u>Development Type</u>	<u>Capped Value</u>
Single-Family	\$ 40,000 per acre
Multi-Family / Commercial	\$120,000 per acre

Land Cost Area =

New Development = Gross Site Area – Deductible Areas

Redevelopment = Limits of construction – Deductible Areas

Deductible Areas = (Drainage Easements, Water Quality Easements, and Conservation Easements)

Note: Impervious cover areas within easements cannot be deducted from the land cost area.

Land costs will be based on the land valuation. This may be established by a certified appraiser or by Appraisal Districts. The RSMP applicant must provide the parcel identification number for each parcel within the proposed development prior to RSMP approval. Upon RSMP participation approval, the applicant must provide dated copies of either a certified appraisal or the appraisal district's valuation for each parcel within the proposed development. Properties that are not appraised by Appraisal Districts, such as property owned by a governmental entity, may choose to use the capped land cost per acre values for RSMP participation. The land cost will be determined by the appraised value at the time of payment of the RSMP fee, not when the site is approved for participation in the RSMP. The effective date for Appraisal District valuations is the first of October for the current City of Austin fiscal year.

If a development encompasses more than one tax parcel, the land cost per acre will be based on the arithmetic mean of the land valuation from all parcels.

Exceptions

All Developments

For sites that are in more than one watershed, the calculated RSMP fee will be apportioned by the percentage of the site in each watershed.

Single Family:

Single-family developments may restrict the allowable impervious cover by plat note or by a legally recorded separate instrument if the plat was previously approved.

Fee Reductions for Certain Single Family Developments:

Lot Size (from plat)		Percent Impervious Cover	Pay a Reduced Fee of
Greater than or equal to:	But less than:	Less Than:	
2 acres	5 acres	20-percent	50-percent of total cost
5 acres	Not Applicable	20-percent	25-percent of total cost

Tree Mitigation to Compensate Trees Removed for Development

Off-Site Tree Planting Fee

\$75.00 per caliper inch

\$75.00 per caliper inch

(!) Development incentives in Smart Growth zones:

Fees for projects in areas where development is encouraged are discounted. The percentage of the applicable fee to be charged is described below:

1. In the portion of the Desired Development Zone that is located in the extraterritorial jurisdiction: 80%
2. Except as provided in number (3) below, in the portion of the Desired Development Zone that is located in the city limits: 70%
3. In the urban watersheds: 50%

Note that development projects that have had fees determined by the Smart Growth Matrix are not eligible for the above reductions.
