Petition in Support of New Signage Plan at Lincoln Village

Petition by Eduardo Garcia

To be delivered to Leanne Heldenfels, Staff Liaison, City of Austin Sign Review Board, Mikella Meade, and Alex Schreitz, HNA President

We, the undersigned residents and businesses of the Highland, Skyview, and St. John area support the sign plan proposed for the Lincoln Village property and the variances for sign height, sign size, and iconic signs.

There are currently 59 signatures. NEW goal - We need 100 signatures!

PETITION BACKGROUND

Lincoln Village is one of the major development parcels in our community, and it is set to return to being one of our most important activity and amenity centers. We have seen the center decline over the years, in part because of the changed landscape of highway infrastructure surrounding it. It has become buried in the adjacent highway. For this reason, many tenants have either failed at the center or have chosen to or had to relocate to other properties. Updated, visible signage will help tenants like the ones we have lost be seen on the site so that patrons can find them and utilize their businesses.

Although we know the Board has been very cautious in the past about allowing increased sign heights on any property, we believe that in this location taller, larger, and more unique signs will not create any blemish whatsoever on the surrounding landscape while greatly benefiting the ability of Lincoln Village's tenants to thrive. In fact, we think that attractive signage at this site will actually serve to enhance the landscape and improve it.

CURRENT PETITION SIGNERS

- 59. **Nicholas Pellicciotto** from Austin, TX signed this petition on Aug 21, 2014.
- 58. **Ricardo Trevino** from Austin, TX signed this petition on Aug 17, 2014.
