

## Late Backup

CM Morrison

November 6, 2014

Agenda Item No. 22 (Events on City Parkland)

Motion

Amend Part 1 of the ordinance in backup to replace Section 8-1-41(B) with the following:

(B) If the director determines that an event to be held on city parkland is likely to be attended by 7,500 or more people on any day, the use of sound equipment is governed by Chapter 9-2 (*Noise and Amplified Sound*). This requirement does not apply if, in the judgment of the Music Office, the event is not primarily geared towards music and that any music included will be incidental to the main purpose of the event.
