Additional Backup Information

The Cameron Road Improvements project improves approximately 2.1 miles of existing Cameron Road from Gregg Lane to SH 130. The existing 2-lane road is to be widened to a 4-lane roadway including bike lanes, sidewalks, and curb and gutters.

Per the Interlocal Agreement with the County, the City will utilize Jacobs Engineering Group Inc. to design approximately 4,400 Linear Feet of 16-inch and 4,400 Linear Feet of 12-inch Waterline from Gregg Lane to a proposed school site (Manor Independent School District); and to supply water service in the area.

All dates are dependent upon County design of the waterlines which is tentatively scheduled to begin in January 2015.

This project is located within zip code 78660.
