Additional Backup Information

This contract is for the collection and disposal of industrial hazardous and non-hazardous waste services on an-as needed basis for Austin Energy (AE). AE operates several facilities and work sites which may generate hazardous and non-hazardous liquid and solid wastes during routine maintenance activities at power plant facilities, transformers spills or leaks, utility pole replacement and various special equipment cleaning projects.

Austin Energy requires disposal service from waste management contractors who are qualified and licensed to collect, transport, store and dispose of such waste products in accordance with applicable federal, state and local guidelines.

This solicitation was reviewed and approved by Austin Resource Recovery. The waste materials identified above are not suitable for recycling, composting or beneficial reuse. This identified waste is a specialized and highly-regulated waste stream, and is not under the purview of the Zero Waste Advisory Commission.
