(from #7: Experience)

(from #8: Why do you want to serve on PAC?)

I hope to learn more about the best practices and technical possibilities for increased pedestrian connectivity, and to participate by helping to promote equitable pedestrian access within our city's policies and land use codes.

I also want to learn more about how public projects and private developments are determined and funded, to help include quality pedestrian facilities in new constructions whenever possible, and to help make improvements to or complete existing ped facilities, such as the sidewalk network.
