¡Tech**Comunidad**!™

# What is TechComunidad?

- TechComunidad delivers the power of technology to the doorsteps of the people in a community™

- TechComunidad families gain 3 things:
  **1. The Confidence**
  **2. Basic Technology Skills**
  **3. A Device to immediately improve**
  **their lives and their community.**

- A key goal is to increase P-16 educational attainment and the quality of life in Austin's most underserved community

- Majority of parents served are Spanish language dominant and have no technology access in the home. Majority of youth served are first generation –will be the first in their family to graduate high school and/or complete college

**Since the launch in 2012, have conducted TECHCOM SERIES #1, 2, 3, 4**

**¡TechComunidad!**™

# TechComunidad Impact

- **250+ family households with 600 youth** have received technology training and a device–– the least-connected families in Dove Springs with no technology or access in the home

- A Catalyst for Dove Springs – has inspired other programs

- A Catalyst for communities statewide

- Volunteers and Partners

  across Austin and statewide

- BUILD YOUR FUTURE CLUB (BYF) formed  from TechCom youth
