<b>Boards and Commission Action:</b>	To be reviewed by Water and Wastewater Commission on September 9, 2015.
<b>MBE/WBE:</b>	This contract will be awarded in compliance with Chapter 2-9A of the City Code (Minority Owned and Women Owned Business Enterprise Procurement Program) by meeting the goals with 5.84% MBE and 1.82% WBE participation.

The Nelray Boulevard and Evans Avenue project is part of the Renewing Austin Program. Renewing Austin is an ongoing program to replace and upgrade deteriorated aging water lines with multiple break history. In addition, the program coordinates and includes wastewater lines in need of replacement within the project area.

The work consists of the installation of approximately 4,640 linear feet of wastewater mains and installation of 4,977 linear feet of water lines. Also included is the abandonment of 730 linear feet of existing 2-inch water line parallel to an existing 12-inch water line on North Loop Boulevard. This will remove redundant pipe within the water system.

Due to the potential for unknown subsurface conditions and utility conflicts, a 5% contingency in funding has been included to allow for the expeditious processing of any change orders.

The construction contract dictates how long the bid prices are valid. If the contract is not signed within this period, the contractor has the option to increase any or all bid item prices, thus increasing the total project cost.

The contract allows 245 calendar days for completion of this project. This project is located within zip code 78751 (District 9) and is managed by the Public Works Department.

M.A. Smith Contracting Co., Inc. is located in Austin, TX.
