Additional Backup Information

Chapter 26 of the Texas Parks and Wildlife Code provides that the use of parkland for non-park purposes may be approved upon a finding that there is no feasible and prudent alternative to the use of this land.

The Austin Water Utility Department is proposing to replace an existing 30-inch diameter wastewater line with a proposed 36-inch diameter wastewater line to handle growth in the area. This line will be installed across Balcones District Park.

Approval of the use of parkland is made on the condition that all restoration is completed in accordance with the Standard Specifications and Construction Standards of the City of Austin and the Parks and Recreation Department's "Construction in Parks Specifications". The Austin Water Utility Department is required to pay all costs associated with the restoration and tree mitigation as part of the site restoration process.

There is no feasible and prudent alternative to the use of the dedicated parkland which includes all reasonable planning to minimize harm to such lands. The dates of public notification in the *Austin American-Statesman* are September 6, 13 and 20, 2015.
