A. DISCUSSION AND ACTION ON APPLICATIONS FOR HISTORIC ZONING, DISCUSSION AND POSSIBLE ACTION ON APPLICATIONS FOR HISTORIC DISTRICT ZONING APPLICATIONS, and REQUESTS TO CONSIDER THE INITIATION OF A HISTORIC ZONING CASE

1. C14H-2015-0002 – Pine Street Station / Humble Oil Depot
414 Waller Street and 1101 E. 5th Street

Consider the additional building at the Pine Street Station site for historic zoning.

Council District 3

Applicant: Historic Landmark Commission, upon a request by Liz Purcell.

City Staff: Steve Sadowsky, Historic Preservation Office, 974-6454

Staff Recommendation: Staff cannot recommend designation of the additional building as a historic landmark. The front (eastern-most) section of the building, which was part of the original Humble Oil depot, has been designated as a historic landmark and has been approved for relocation to another railroad-related site in East Austin. The second building proposed for historic designation is probably contemporary to the original depot compound, but there is no definitive proof of its date of construction, and it is built on a slab rather than pier-and-beam, making its relocation impossible and also putting into question its actual date of construction. Further, the **building is in the city right-of-way, and is therefore an illegal encroachment**. Staff continues to recommend archival documentation of the entire complex and the erection of an interpretive marker and display detailing the history of the site and its place in railroad history, as well as its later history as the center of the arts and music renaissance in East Austin in its incarnation as Pine Street Station.

2. **C14H-1980-0027; C14-2015-0111 – The applicant requests an indefinite postponement of this case.**

Gilfillan House

603 W. 8th Street

Council District 9

Proposal: Zoning change from GO-H to DMU-H

Applicant: 2015 Austin Gilfillan LP (John Donisi, Drenner Group, agent)

City Staff: Victoria Haase, Planning and Zoning Department, 974-7691

Staff Recommendation: Staff recommends downtown mixed-use – Historic Landmark – Conditional overlay (DMU-H-CO) combining district zoning. The conditional overlay will restrict building height to 60 feet and will limit vehicular trips to less than 2,000 per day.

3. **C14H-2015-0004 – Postpone to November 16, 2015 at the staff's request to resolve issues.**

Swearingen-Gray House

1606 Watchhill Road

Council District 9

Applicants: Andy and Rebekah Thomas, owners

City Staff: Steve Sadowsky, Historic Preservation Office, 974-6454

Staff Recommendation: Postpone to November 16, 2015 at staff's request.

B. DISCUSSION AND ACTION ON APPLICATIONS FOR CERTIFICATES OF APPROPRIATENESS

1. **C14H-1989-0002 – WITHDRAWN BY APPLICANT**

Willie Wells House

1705 Newton Street

Council District 9

Proposal: Demolish the house.

Applicant: Lori Bauserman Trammell

City Staff: Steve Sadowsky, Historic Preservation Office, 974-6454

Committee Recommendation: Not reviewed.
Staff Recommendation:

2. C14H-2003-0001

George Peterson House
1012 E 8th Street
Council District 1

Proposal: Construct a two story guest house and garage at the rear of the property. Demolish existing non-contributing and historic garage.

Applicant: EM Peavler

City Staff: Beth Johnson, Historic Preservation Office, 974-7801

Committee Reviewed and supports the proposal with changes that the applicant has incorporated into the submitted plans.

Staff Recommendation: Staff recommends approval of the Certificate of Appropriateness as all of the changes to the property are in keeping with the architecture of the property. The garage and guest house addition, while taller than the historic/principal structure, cannot be seen from the street when standing in front of the house and will be minimally visible while at the corner of the lot. The new building takes its cues from the historic building, but with a different roof line and the addition of board and batten at the second level distinguishes itself from the principal structure.

3. LHD-2015-0016

Castle Hill Local Historic District
1115 W 11th Street
Council District 9

Proposal: Construct a two and three story multi-family building.

Applicant: Mark Vornberg

City Staff: Beth Johnson, Historic Preservation Office, 974-7801

Committee Reviewed the façade with changed and while they appreciate the changes that were made, they do not feel that the overall design is in keeping with the spirit of the Castle Hill Historic District Design Guidelines and do not recommend this project for approval.

Staff Recommendation: Staff supports the Committee Recommendation and insight. Staff also does not think that the window to wall ratio meets the standards and this should be looked at again and adjusted.

4. LHD-2015-0020

Hyde Park Local Historic District
4404 Speedway
Council District 9

Proposal: Construct a two story addition on the rear of the structure and a one story garage.

Applicant: William R. Vansickle

City Staff: Beth Johnson, Historic Preservation Office, 974-7801

Committee Reviewed and supports the proposal as submitted.

Staff Recommendation: Staff recommends approval of the proposal as submitted as the design meets all of the standards of the Hyde Park Design Standard that relate to additions

5. C14H-1977-0011 – Sebron Sneed House

1801 Nelms Drive

Council District 2

Proposal: Repair and stabilization of the remaining stone walls; clear vegetation and debris from the site.

Applicant: Tracy Chen

City Staff: Steve Sadowsky, Historic Preservation Office, 974-6454

Committee Recommendation: Not reviewed.

Staff Recommendation: Approve the application for stabilization and sealing the tops of the limestone walls to prevent further deterioration, but reserve the right to determine any further stabilization measures necessary for long-term preservation; retain any fallen rock on the site for re-use to the greatest extent possible; follow the directives (listed in the staff report) from a preservation professional regarding the materials and processes for stabilization of the walls.

C. REVIEW OF PERMITS IN NATIONAL REGISTER HISTORIC DISTRICTS

1. NRD-2015-0049

1705 W 29th Street

Council District 9

Proposal: Construct new two-three story single family residence

Applicant: UnBox Studio

City Staff: Beth Johnson, Historic Preservation Office, 974-7801

Staff Recommendation: Staff recommends release of the permit and encourages the applicant to incorporate staff's recommendations into their design to make the building more compatible with the neighborhood. While the new construction is very modern in style, it has created a gable type form with two slanted roofs and gable roof forms are common in the neighborhood. The original design of the house that was submitted used two different sizes of lap siding, however the applicants have decided to go with stucco siding as the primary siding material. Staff recommends going back to the wood siding as a main siding choice as stucco is not a common material found on the street or within the neighborhood however lap siding is very common.

2. NRD-2015-0092

2606 Harris Blvd

Council District 9

Proposal: Construct a new two story single family residence

Applicant: Michael Stouse

City Staff: Beth Johnson, Historic Preservation Office, 974-7801

1410 Woodlawn Boulevard

Council District 9

Proposal: Construct two new three story multi-family units

Applicant: Stuart Sampley

City Staff: Beth Johnson, Historic Preservation Office, 974-7801

Staff Recommendation: Release the application and encourage the application to consider alternatives to the roof access shape as it provides an awkward shape and form to the overall building. Other than the roof

shape the building had a similar shape, fenestration pattern, and materials of other buildings in the district.

1404 Northwood Road
Council District 9
Proposal: Construct a new 2 story single family residence.
Applicant: Hector Avila
City Staff: Beth Johnson, Historic Preservation Office, 974-7801
Staff Recommendation: Release the application with the following recommendations. The front windows that currently have a diamond pattern should be a multi-pane window to match the pattern in the French doors on the first floor and to either remove the square transoms above the windows or have a transom that matches the design over the French doors. Otherwise the design is a new traditional design that is compatible and sensitive to the architecture in the neighborhood.
