

Long Line Striping Contract

Long Line Striping Contract

Where is this being done?

- San Antonio
- TxDOT

Long Line Striping Contact

- One 1-year term with an optional 1-year extension
- \$1 million first year; \$1.4 million second year
- Indefinite Delivery/Indefinite Quantity contract
- Contractor to install lane striping only – short line work/ legends installed in-house
- Contract for pavement paint not thermoplastic striping

Long Line Striping Contact – Paint vs. Thermoplastic

Thermoplastic Concerns:

- Significantly more costly more than paint
- Ghosting through overlay making it difficult to see new striping
- Overlaid pavement can delaminate

Airport Blvd.

Paint Concerns:

- Shorter lifetime than thermoplastic
- ATD will monitor performance of paint for future use

Lake Austin Blvd.

Long Line Striping Contact

New timed-based striping maintenance plan

- Arterials restriped every other year
- Collectors restriped every 4 years.

Striping installed in FY 14-15:

- 63 centerline miles of striping for street maintenance
- 190 centerline miles of complaint-based striping

Striping planned for FY 15-16:

- 77 centerline miles of striping for street maintenance
- 278 centerline miles of time-based maintenance striping

Long Line Striping Contact

Outsourcing Benefits:

- Eliminates need or specialized striping equipment
- Outsources hazardous work
- Allows for reallocation of personnel to meet Department priorities (such as detection repair/maintenance, etc.)
