Additional Backup Information

The City of Austin Department of Aviation (DOA) entered into a license agreement with Texas Gas Service Company on October 29, 1997 (License Agreement) for natural gas utility service at Austin-Bergstrom International Airport (ABIA). Under the License Agreement, Texas Gas Service is responsible for completing the necessary capital repairs and replacements to the natural gas utility infrastructure located at ABIA while DOA is responsible for the actual costs associated with the capital repairs and replacements. During an inspection, Texas Gas identified leaks and antiquated infrastructure. Upon authorization of this agreement to complete the capital replacement and relocation project, Texas Gas Service will renew one service line to address leaks and relocate another service line to remove it from under a building.
