ICA 4-7 With respect to Austin Energy Generation and Climate Protection Plan through 2025, provide the expected or estimated cost per kw-year acquisition or construction cost for the following options discussed in the plan:

- (i.) highly efficient combined cycle gas units;
- (ii.) storage connected to distribution;
- (iii.) large scale storage;
- (iv.) demand response programs;
- (v.) wind generation;
- (vi.) solar generation.

If AE does not have internal estimates for these options, this answer can refer to representative costs incurred by other entities or published reference material.

ANSWER:

By agreement of the parties, Austin Energy is providing the links below for the requested expected or estimated costs per kw-year acquisition or construction costs discussed in the Austin Energy Generation and Climate Protection Plan. Austin Energy does not have an estimated cost for storage connected to distribution.
