DF 2-2 For each purchase transaction Identified in DF 2-1, please state the amount and price of the cable.

ANSWER:

Please refer to pages labeled "Cable Transactions," columns labeled "Unit Cost," "Length," and "Total Cost" in Attachment 1 to AE's Response to DF's RFI No. 2-1.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-3 For each purchase transaction Identified in DF 2-1, please provide the vendor, manufacturer, and part number for the cable.

ANSWER:

Please refer to pages labeled "Cable Transactions," columns labeled "Vendor Name" and "Manufacturer" in Attachment 1 to AE's Response to DF's RFI No. 2-1. Austin Energy does not maintain separate, searchable records indicating the part number for the transactions identified in the response to DF's RFI No. 2-1.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-4 For each purchase transaction Identified in DF 2-1, please describe the process by which competitive bids were solicited, tendered, considered and provide an explanation of the reasons supporting selection of the successful bid.

ANSWER:

Austin Energy issued a Request for Qualifications Statement (RFQS), a competitive bidding procurement. Seven responses were received and all seven companies who submitted qualifications statements were recommended for award. Vendor qualifications included local representation, local stock, 24-hour availability/delivery, and emergency responsiveness. AE developed supply agreements with all of the seven recommended firms.

The contracts provide for the purchase of a plethora of electric utility materials and supplies. Over 650 line items — such as single-phase transformers, power cable, copper wire, pole-line hardware and fuses — were included in the RFQS. The materials are used to replenish stock at Austin Energy's warehouses. The materials and supplies are issued to work crews for routine utility maintenance and construction on an as-needed basis. Items within this arrangement are also used for equipment repairs during outages.

Selected vendors are required to provide monthly bid pricing for the materials supply arrangement items. Purchases are made on an as-needed basis from the lowest cost and best responsible offers. Amounts spent with each company vary depending upon availability and pricing.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-5 For each purchase transaction Identified in DF 2-1, please provide the prices offered by competitors whose bids were not selected. For purposes of this request you need not identify the bidder name for bids that were not selected.

ANSWER:

Vendors are required to submit monthly price sheets for the more than 650 line items identified in the RFQS. Austin Energy does not maintain a separate, searchable record of each monthly bid placed by vendors who were not selected to provide materials or supplies in that month.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-6 If AE did not use competitive bidding for the purchase transactions Identified in DF 2-1 please explain the means used by AE to ensure that the price paid was reflective of the competitive market price at the time of the purchase.

ANSWER:

Not applicable.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-7 Please identify each instance where 15 kV 500 and 1000 kcmil URD cable was installed since 1/1/2011.

ANSWER:

Please refer to pages labeled "Cable Installations" in Attachment 1 to AE's Response to DF's RFI No. 2-1.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-8 For each cable installation Identified in DF 2-7, further Identify the party performing the installation, for example if the work was performed by Austin Energy employees or by a subcontractor.

ANSWER:

Austin Energy does not maintain separate, searchable records which indicate the installing party for installations identified in AE's Response to DF's RFI No. 2-7.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-9 For each cable installation Identified in DF 2-7, provide the total cable length that was installed.

ANSWER:

Please refer to pages labeled "Cable Installations," column labeled "Total Installed" in Attachment 1 to AE's Response to DF's RFI No. 2-1. Note that the installation lengths are totaled for each work order and cannot be broken out into lengths for each individual installation date.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-10 For each cable installation Identified in DF 2-7, provide the total labor hours attributed to the cable installation and termination, and indicate whether the hours are actuals, estimated, budgeted, negotiated, or "book" hours.

ANSWER:

Austin Energy does not possess the requested information because Austin Energy does not maintain separate, searchable records which indicate the total labor hours for installations identified in AE's Response to DF's RFI No. 2-7.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-11 For each cable installation Identified in DF 2-7, provide the fully burdened labor cost attributed to the cable installation and termination.

ANSWER:

Austin Energy does not possess the requested information because Austin Energy does not maintain separate, searchable records which indicate the fully burdened labor cost for installations identified in AE's Response to DF's RFI No. 2-7.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-12 If the labor hours and labor costs are not available for a cable installation Identified in DF 2-7, provide the most detailed job effort and cost information that is available.

ANSWER:

Austin Energy does not possess the requested information because Austin Energy does not maintain separate, searchable records which detail the labor hours or labor costs for work specifically associated with installation of cable.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-13 If the cable installation work Identified in DF 2-7 was performed by a subcontractor, provide all of the additional costs that the subcontractor billed on top of work (for example, fee, insurance, general conditions, construction requirements).

ANSWER:

Austin Energy does not maintain separate, searchable records which indicate the installing party for installations identified in AE's Response to DF's RFI No. 2-7. Therefore, AE has no information for all of the additional costs billed by a subcontractor for the installations identified in AE's Response to DF's RFI No. 2-7.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-14 For each cable installation Identified in DF 2-7, provide an itemized list of any and all additional costs incurred, beyond the material and fully burdened labor.

ANSWER:

Austin Energy has no responsive information to this request.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-15 If the cable installation work Identified in DF 2-7 was performed by a subcontractor, describe the process by which competitive bids were solicited, tendered, considered, and ultimately the basis of selection of the successful bidder.

ANSWER:

Austin Energy does not maintain separate, searchable records which indicate the installing party for installations identified in AE's Response to DF's RFI No. 2-7. Therefore, AE has no information regarding the solicitation process used to select a subcontractor for the installations identified in AE's Response to DF's RFI No. 2-7.

Generally, in the event that AE utilized contract labor to support the installation of these items, the City of Austin would select vendors within the guidelines established by State of Texas statutes, City of Austin charter provisions, City of Austin Administrative Bulletins and any requirements set by the funding source or agency. Typically, these processes require the City to issue a competitive solicitation.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-16 If the cable installation work Identified in DF 2-7 was performed by a subcontractor, please provide the prices offered by competitors whose bids were not selected. For purposes of this request you need not Identify the bidder name for bids that were not selected.

ANSWER:

Austin Energy does not maintain separate, searchable records which indicate the installing party for installations identified in AE's Response to DF's RFI No. 2-7. Therefore, AE has no information regarding the bids of vendors not selected for the installations identified in AE's Response to DF's RFI No. 2-7.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-17 If AE did not use competitive bidding for the selecting the subcontractor to install the cable in any instance Identified in DF 2-7, please explain the means used by AE to ensure that the price paid was reflective of the competitive market price at the time of the purchase.

ANSWER:

Austin Energy does not maintain separate, searchable records which indicate the installing party for installations identified in AE's Response to DF's RFI No. 2-7. Therefore, AE has no information regarding the solicitation process used to select a subcontractor for the installations identified in AE's Response to DF's RFI No. 2-7.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-18 If a third party (e.g. an AE customer) paid AE to install cable in any of the instances Identified in DF 2-7, provide the amounts paid by that third party. For purposes of this request you need not Identify the third party if the third party was an AE customer.

ANSWER:

Please refer to pages labeled "Cable Installations," column labeled "CIAC" in Attachment 1 to AE's Response to DF's RFI No. 2-1.

Prepared by: CW
Sponsored by: Mark Dombroski/Elaina Ball

DF 2-19 Please discuss whether the affordability goal of limiting rate adjustments to no more than 2 percent annually refers only to base rate changes or to total revenue changes, including fuel and pass through charges.

ANSWER:

On February 17, 2011, the City Council approved a two-part affordability goal for Austin Energy. One of the components of that goal calls for Austin Energy to operate so as to control rate increases to 2 percent or less per year following the implementation of revised rates in 2012. Austin Energy understands the 2 percent goal to include total revenue, including base rates and all pass-through charges.

Prepared by: MKD
Sponsored by: Mark Dreyfus

DF 2-20 Please discuss whether Austin Energy's proposed revenue distribution was based on limiting impacts only from base rate changes.

ANSWER:

Please refer to the discussion of this issue in the Tariff Package beginning at page 5-25 (Bates stamp 128).

Prepared by: BE
Sponsored by: Mark Dreyfus

DF 2-21 Please state whether Austin Energy's proposed revenue distribution was based on a consideration of limiting total bill impacts. If so, please provide a complete discussion of how total bill impacts were considered in the proposed revenue distribution.

ANSWER:

Please refer to the discussion of this issue in the Tariff Package beginning at page 5-25 (Bates stamp 128).

Prepared by: BE
Sponsored by: Mark Dreyfus

DF 2-22 Please provide data similar to that contained in Figure 5.21 of the January 25, 2016 "2015 Cost of Service Study and Proposal to Change Base Electric Rates" that is based on "Rate-Year Pass-Through" rates rather than "Test-Year Pass-Through" rates.

ANSWER:

Please see Figure 6.28, page 6-45 (Bates stamp 176) in Austin Energy's Tariff Package.

Prepared by: CG
Sponsored by: Mark Dombroski

DF 2-23 Please discuss what level of class rate increase Austin Energy believes would constitute "rate shock" based on Austin Energy's proposed change in base rate revenue requirement.

ANSWER:

Austin Energy has not established a quantitative value of class rate increase that it believes constitutes "rate shock."

Prepared by: MKD
Sponsored by: Mark Dreyfus

DF 2-24 Please discuss how the level of class rate increase that would constitute "rate shock" would change if Austin Energy's proposed base rate revenue requirement was reduced by 5 percent.

ANSWER:

Please see AE's Response to DF's RFI No. 2-23.

Prepared by: MKD
Sponsored by: Mark Dreyfus

DF 2-25 Please discuss whether Austin Energy believes that it would be inappropriate for an individual rate class to receive a rate increase if there is an overall reduction in the utility's revenue requirement. Identify and discuss any situations in which Austin Energy believes it might be appropriate for a rate class to receive a rate increase when there is an overall reduction in the utility's revenue requirement.

ANSWER:

The cost of service of a particular customer class may deviate either above or below the projected revenues of that customer class. There is not a direct causal relationship between revenue requirement and class deviation from cost of service. Whether the rates for a particular class should be increased or decreased depends upon the outcome of the cost of service and the ratemaking policy objectives of the utility and its governing body, not solely the magnitude of the revenue requirement.

Prepared by: MKD
Sponsored by: Mark Dreyfus

DF 2-26 Please identify discuss any and all specific scenarios that Austin Energy has considered for class rate changes beyond year one, as discussed on page 2-12 of the January 25, 2016 "2015 Cost of Service Study and Proposal to Change Base Electric Rates." Provide any relevant documents addressing these scenarios.

ANSWER:

Austin Energy has not considered specific scenarios for class rate changes beyond year one.

Prepared by: MKD
Sponsored by: Mark Dreyfus

DF 2-27 Page 5-26 of the January 25, 2016 "2015 Cost of Service Study and Proposal to Change Base Electric Rates" states "The P2 rate class is set to receive a large change to the Regulatory Charge in order to restore a logical rate design for the class as it compares with the Regulatory Charge assessed on the P1 and P3 classes." Please provide a complete explanation, including workpapers, of the change to the P2 Class' Regulatory Charge, including whether it is a fully cost-based change.

ANSWER:

Please see WP H-5.6, line 123 in the RFP which shows current, cost based and proposed regulatory charge for P2 Class.

On a system basis, the Regulatory Charge is a fully cost-based charge. During the prior rate case, AE proposed and implemented separate Regulatory Rates by customer class. Experience has demonstrated that class-based pass-through rates are not efficient and may lead to significant year-to-year rate impacts for individual classes due to customers moving between rate classes.

The P2 class is an extreme example of what can happen. The FY2012 P2 regulatory charge was \$2.92 per kW. During 2012, a number of customers moved to the P2 class, resulting in a large over-recovery. Because of the over-recovery, the P2 regulatory charge was reduced to 38¢ per kW for FY2013. The continuing legacy of this over-recovery has resulted in the P2 rate being significantly below its cost to serve.

Prepared by: RM
Sponsored by: Mark Dombroski

DF 2-28 If the change to the P2 Class' Regulatory Charge is not fully cost-based, please provide a complete explanation, including workpapers, of the rationale for the amount of the change.

ANSWER:

Please see Section 6.7.2 starting on page 6-36 (Bates Stamp 167) for the discussion of regulatory charges. Regulatory charges are calculated in Schedule G-8 (cost based) and Schedule G-9 (proposed).

As discussed in AE's Response to DF RFI No. 2-27, the P2 Regulatory Charge is fully cost-based on a system basis. Austin Energy is proposing recovery of the regulatory costs on a system basis, similar to the logic of recovery of PSA costs. For demand customers, the regulatory charge is identical, after adjusting for voltage differentials.
