MEMORANDUM

To: Parks and Recreation Board

From: Jesus M. Olivares, Director
Parks and Recreation Department

Date: January 8, 2002

Subject: Recommendation to Council on license agreement for Thomas Boat dock
at 2315 Island Wood Road

A request was received from Edward Thomas to construct a screened porch above an existing boat dock on Lot 10 of the Wood Island Subdivision on January 6, 1999. The Parks and Recreation Board approved his request on January 12, 1999. The development is not a "screened in porch" rather a recreation room with a fireplace and removable windows with screens. A red tag was issued for development not in accordance with approved site plan on March 8, 2000. Edward Thomas is requesting favorable recommendation be made to Council for living quarters above Lake Austin.

A license agreement approved by Council is required to construct living quarters above Lake Austin. The Parks and Recreation Board shall make a recommendation to Council on each license agreement.

The Parks and Recreation Department (PARD) staff has reviewed plans for the proposed project and finds they do not meet the requirements of Article VI, Part E, (Requirements for the Construction of Boat Docks) of the Land Development Code. We believe that allowing living quarters to be erected above water on Lake Austin would set a precedence that would degrade the scenic and recreational values of the lake.

RECOMMENDATION:

I do not recommend the approval of the above request.

Jesus M. Olivares, Director
Parks and Recreation Department

SUMMARY LETTER

December 11, 2001

To: City of Austin
Parks and Recreation Department
Department of Planning and Development

From: Ed Thomas

Re. Project: SP-98-0407DS
Remodel of Boathouse
2315 Island Wood Road, 78733

I would like to request that the Department of Planning and Development and the PARD approve my plans to remodel my boathouse which is located in the Eanes Creek Drainage Easement leading into Lake Austin.

The referenced project is to specifically add a second-story recreation room above the existing boat slip located on Lot 10 of the Wood Island Subdivision.

- boat slip is contained within the existing shoreline and does not protrude into the Eanes Creek waterway. Thus no danger to navigation.
- the footprint of the existing boat slip will not be changed. Thus no change or alteration to the shoreline.
- no plumbing or sewage will be installed. Thus no potential pollution of the water or the environment.
- No dry land will be gained.
- No acreage to be developed.

Thank you for your consideration.

January 3, 2002

To: PARD and Navigation Board

The purpose of this memo is to request a License Agreement from the City of Austin.

In addition, I would like to inform the Navigation Board members of the background circumstances and the agreements reached with the City departments over the past two months as well as *enlist your support as this License Agreement request comes before the Board on January 8, 2002.*

Background:

This past October, the City of Austin raised an issue regarding the *enclosed room* we constructed above our existing boat slip located in the Eanes Drainage Easement leading into Lake Austin.

During subsequent discussions with Mike Heitz of Watershed Protection, Patrick Murphy of Environmental staff, Shaw Hamilton of DRID and Randy Scott of PARD, it was determined that we had not been given a copy nor were we ever informed that the Site Plan, submitted in December 1998, had been changed to a *screens-only room*. It was also determined that our construction had been undertaken with a proper building permit, timely inspections completed by all appropriate City staffs and a Certificate of Occupancy issued as required by City guidelines.

As a result, these combined Staffs have recommended that the correct way to mutually resolve the situation is for us to obtain a License Agreement from City Council so as not to be in violation of the land development code.

In summary, we have lived in Austin nearly all our lives and have had the privilege of living on Lake Austin for the past 12 years. During this time, we have diligently worked to improve the external beauty of our lake property which, we believe, is consistent with the objectives of the Parks and Recreation Department. We would have never considered building this second story, recreation room if we had known there was any question of its approval or that we were building something that was, even remotely, in violation of City Code.

If you would like additional information, or clarification, please let us know. Our phone number is 263-5543 and e*mail: ethomas@austin.rr.com

Thanks for your understanding and consideration in helping to resolve this matter.

Sincerely,

Ed and Gail Thomas
2315 Island Wood Road, 78733

SUMMARY LETTER

CITY OF AUSTIN SITE PLAN DEVELOPMENT PERMIT

Permit No.: SP-98-0407DS

Expiration Date: 1-28-2002

Project Name: Remodel of Boathouse

Address or Location Description: 2315 Island Wood Road

Watershed: Lake Austin

Owner of Property: Edward Thomas

Address: 2315 Island Wood Road, Austin, TX 78733

Owner's Representative:

Address:

Subdivision: Wood Island

Section:

Block: A

Lot: 10

PERMIT IS HEREBY ISSUED FOR:

Construction of a screened porch above an existing boat dock on Lot 10 Block A of the Wood Island Subdivision.

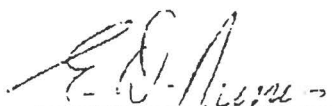

CONDITIONS OF PERMIT

It is agreed that the proposed development shall be performed and completed in accordance with the plans and specifications approved by the City of Austin Standard Specifications and Code requirements, and State of Texas construction safety statutes. All development approved by this permit is subject to the inspection and control of the City of Austin.

It is the responsibility of the permit holder to identify all utilities in the work area and to notify each utility of the scope of work in the immediate area of the utilities.

ENGINEER'S CERTIFICATION: Inspection and a "Certification of Completion" by a Texas Licensed Engineer is required for the development approved by this permit. No Certificate of Occupancy may be approved until the Engineer's Certification is filed. The engineer is responsible for the adequacy of the plans submitted with this application.
