MEMORANDUM

To: Parks and Recreation Board

From: Jesus M. Olivares, Director
Parks and Recreation Department

Date: September 23, 2003

Subject: Site Plan Correction at 3002 Scenic Drive
File No. SP-01-0251DS

A site plan correction has been received from Bruce Aupperle on the behalf of Jerry and Johnstone Bell to change the dimensions and position of a boat dock that has been constructed and red tagged at 3002 Scenic Drive. The dock was built not in accordance to the approved site plan.

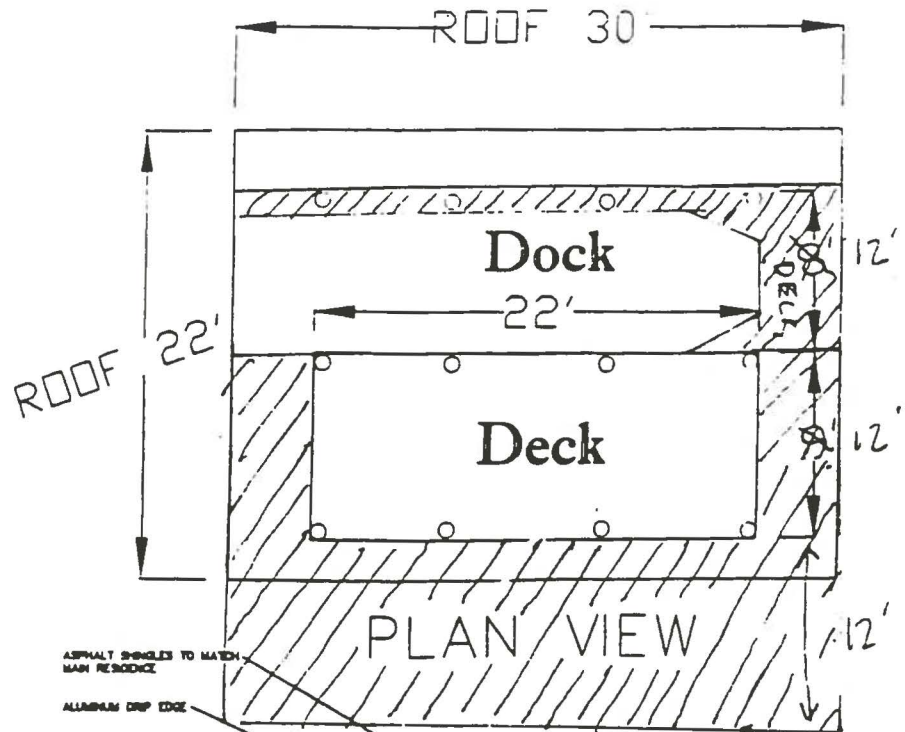

The Parks and Recreation Department (PARC) staff has reviewed the site plan correction and finds they do not meet the requirements of Article XIII, Section 25-2-1176, Parts B and D, (Requirements for the Construction of Boat Docks) of the Land Development Code. Parks and Recreation Board approved an 8'X22' boat dock placed parallel to the shore. Parks and Recreation Board gave variances for this dock to be constructed. The dock that was built is 12'X30'. The 30' measured parallel to the shoreline is 39% of the shoreline frontage. The approved 22' was 29% of the shoreline frontage. The approved dock was to be dug into the shore 3' and extend 5' from the original shore. If the dock were dug into the shore, the dock would have extended into the slough 20% of the slough width. The dock was not dug into shore and extends 12' from shore. The dock is now 43% of the slough width.

The Parks and Recreation Board shall make a recommendation on the distance a dock may extend into the slough and approval by the Parks and Recreation Board is required for a structure to be greater than 20% of the shoreline width.

Jesus M. Olivares, Director
Parks and Recreation Department

MEMORANDUM

#2

TO: Parks and Recreation Board Members
City of Austin

FROM: Paulinda Mackie, Project Manager
Public Works Department

DATE: September 17, 2003

SUBJECT: Lamar Street Reconstruction and Utility Adjustments Project (Town Lake Bridge to W. 24th Street) – Sidewalk Improvements from MLK to 29th Street

This memo is to ask for your permission to use Parks land at the Caswell Tennis Center and at the Senior Center to install a 5-foot sidewalk. As you know, City Council adopted Resolution No. 020418-40 in April 2002 that states that street reconstruction projects must add sidewalk and bicycle facilities to the roadway during construction, provided they would add less than 20% to the cost of the entire roadway project. As a result of this ordinance, sidewalk is being installed on the east side of Lamar from MLK to 29th Street. The sidewalk will provide benefits to Parks patrons by giving them a safe place to walk. The sidewalk alignment meanders onto Parks land because of the desire to save the trees in the area.

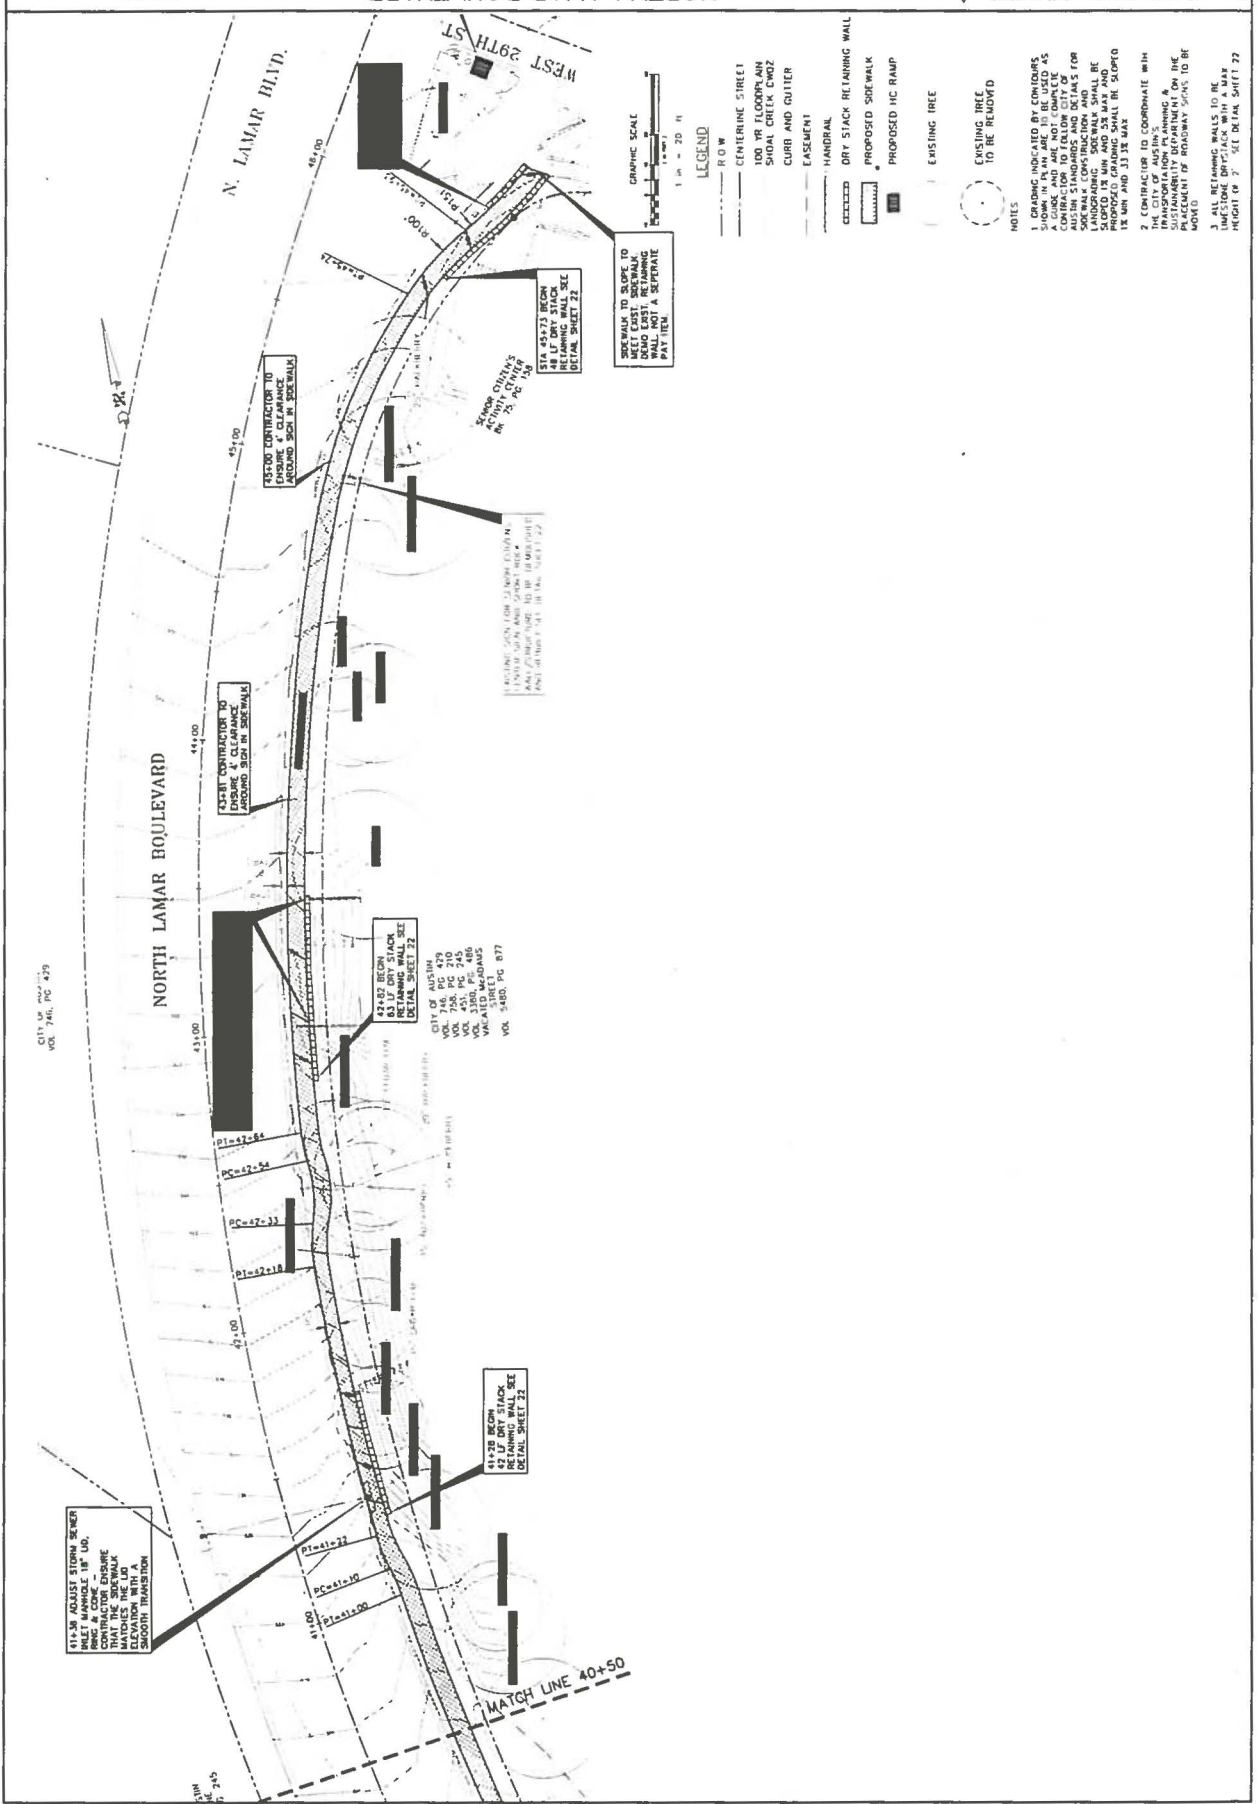

The adjacent Parks land will be restored to equal or better condition than before start of construction. We will follow Construction and Park guidelines, and ensure that the contractor takes every precaution to safeguard trees.

It is my recommendation that the use of the Parks land for sidewalks be approved.

Sincerely,

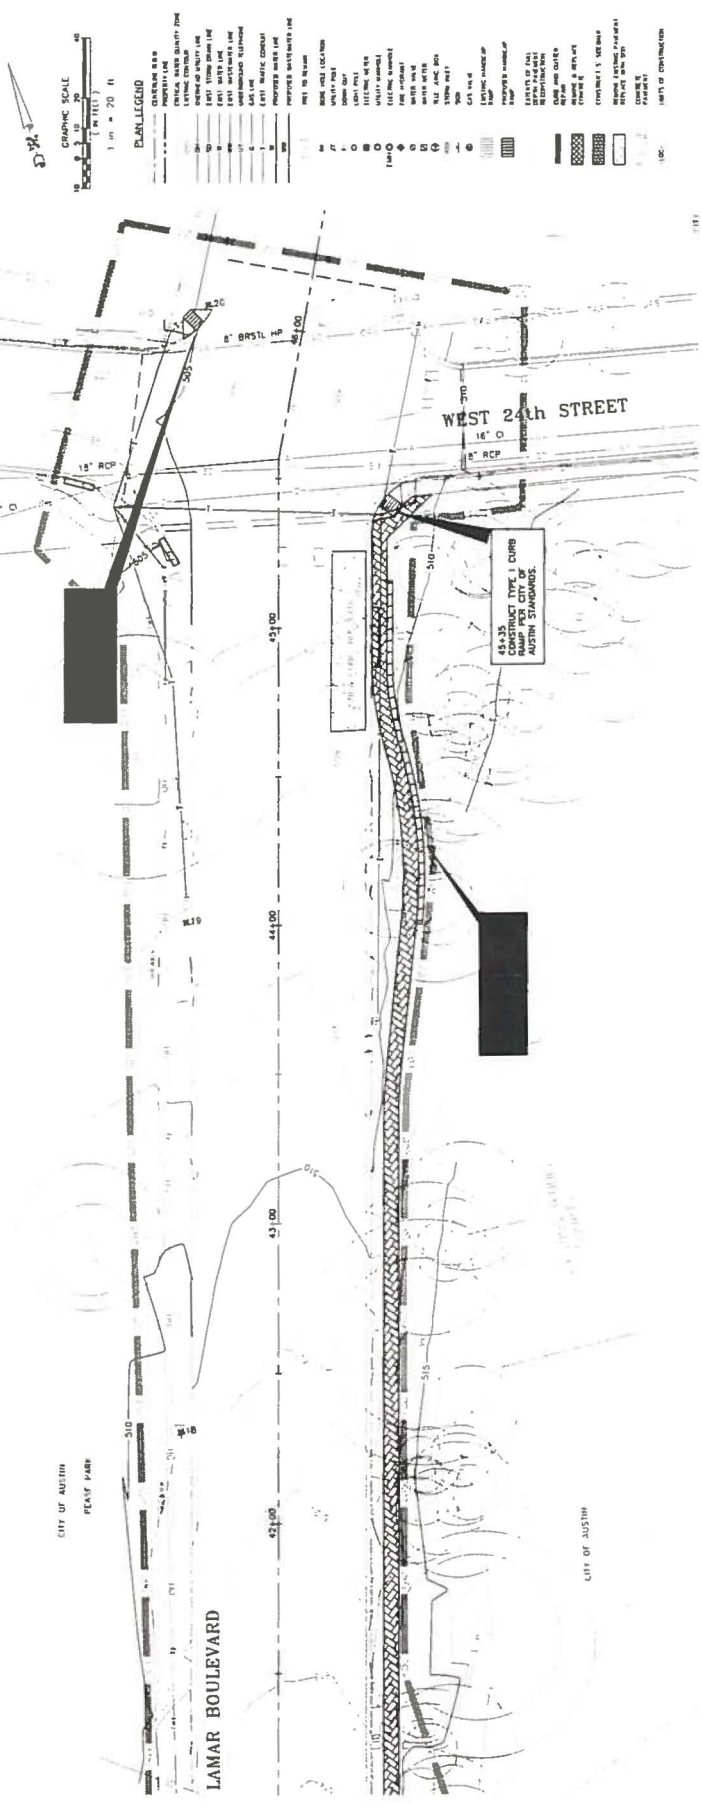

Paulinda Mackie
