The City of Austin through the Health and Human Services Department funds a broad array of health and social services for eligible individuals with human immunodeficiency syndrome (HIV/AIDS), in order to maintain or improve overall health, safety, and quality of life. The City continues to provide local funding for HIV services as part of the Maintenance of Effort requirement of the Ryan White HIV/AIDS Treatment Extension Act of 2009 (Public Law 111-87, October 30, 2009). The City General fund support for these contracts helps secure over \$4.5 million in annual Federal Ryan White grant funding.

This council item is time sensitive to ensure that the services are provided to the community. A delay will negatively affect service provision to vulnerable populations of persons affected by HIV/AIDS.

A funding summary by agency and HIV service area, along with associated performance measures are included in Attachment A.
