<b>Boards and Commission Action:</b>	█			
<b>Related Items:</b>	█			
<b>MBE / WBE:</b>	This contract is exempt from the City Code Chapter 2-9D Minority Owned and Women Owned Business Enterprise Procurement Program; therefore, no subcontracting goals were established.			

Additional Backup Information

The contract will provide continued maintenance and support for the SirsiDynix Symphony Integrated Management System (System) used by the Austin Public Library (APL). This System is used to support acquisitions of books, cataloging, circulation, reporting, billing, reserves, and interlibrary loan.

This System will provide APL customers the familiar catalog and tools that allow customers to access their APL account, use online databases, social features, access to e-books, reserve catalog materials, and request materials through interlibrary loan. The System is used by 23,000 library systems in over 70 countries worldwide. Altogether more than 160 million library members access the System interfaces around the globe. The System is core to APL business functions. APL staff use the System to include, but not limited to: collection development and management, cataloging, database and service connections, documentation, applications, workflow, contracts, training, search, web presentation, archiving, social collaboration, and reporting.

Sirsi Corporation is the owner of SirsiDynix Symphony Integrated Management System and is the sole provider for the maintenance and support services for its proprietary software. The system cannot be replaced without significant impact on the services, processes, and products that are integrated with the current databases and applications.
