SECOND READING SUMMARY SHEET

ZONING CASE NUMBER: C14-2015-0160 – Champions Tract #3

DISTRICT: 10

REQUEST: Approve second reading of an ordinance amending City Code Chapter 25-2 by zoning the property locally known as 6409 City Park Road (West Bull Creek Watershed) general office-conditional overlay (GO-CO) combining district zoning to multifamily residence-moderate-high density-conditional overlay (MF-4-CO) combining district zoning.

The conditional overlay is for:
1. Height is restricted to no more than 53 feet
2. Daily vehicular trips are limited to 2,100
3. Dwelling units are limited to no more than 325
4. Development is prohibited within 100 feet of the southern property line

The Ordinance reflects those conditions imposed by Council on 1st reading.

PROPERTY OWNER: Champion Assets LTD & Champion-Meier & Champion Legacy Partners LP

AGENT: Armbrust & Brown, PLLC (Richard Suttle)

ISSUES: The Settlement Agreement and ordinance adopting the Settlement Agreement shall be amended prior to 3rd Reading of this rezoning case.

The Applicant is in agreement with the Commission’s recommendation. Local residents have expressed concerns regarding the impact that traffic generated by the proposed development will have on existing conditions on City Park Road, FM 2222 and Loop 350 at West Courtyard Drive. The Scope of the TIA did not identify the intersection of Loop 360 and West Courtyard Drive as an intersection to be studied. However, the Applicant agreed to look into the issues at this intersection and agreed to put forth up to $5,000 towards analysis of and adjusting of the signal at that location. The Neighborhood requested that a new TIA be produced citing that the traffic count data was inaccurate due to being collected in 2014 and during the summer months, when school was out for summer vacation.

DATE OF FIRST READING/VOTE: June 23, 2016 - Approved 1st reading for MF-4-CO zoning with the following conditions:
1. Height is restricted to no more than 53 feet
2. Daily vehicular trips are limited to 2100
3. Dwelling units are limited to no more than 325
4. Development is prohibited within 100 feet of the southern property line
5. Endorsement of the Staff recommendation for signal improvements as identified in the TIA memo with the additional improvements to signal timing at the intersection of West Courtyard and Loop 360, not to exceed $5k, and adding a turn lane on City Park Road approaching RM 2222 intersection as agreed upon by the Applicant.

Additionally, the public hearing is to remain open for 2nd & 3rd readings on August 11, 2016 [S. Gallo / D. Garza-2nd] (11-0).

ZONING CHANGE REVIEW SHEET

CASE: C14-2015-0160 – Champions Tract #3

ADDRESS: 6409 C.ty Park Road

DISTRICT AREA: 10

OWNER/APPLICANT: Champion Assets LTD & Champion-Meier & Champion Legacy Partners LP

AGENT: Armbrust & Brown, PLLC (Richard Suttle)

ZONING FROM: GO-CO TO: GO-CO-MU* AREA: 45.35 acres

*The request was amended to maintain the conditions imposed by the current CO with the exception of the trip limitation set at 6,500 trips per day (see Exhibit I).

SUMMARY STAFF RECOMMENDATION:

Staff recommends general office-mixed use-conditional overlay (GO-CO-MU) combined district zoning. The existing conditional overlay will be modified to remove the 6,500 daily trip limit which will be replaced by the conditions of the new Traffic Impact Analysis. All other items in the existing conditional overlay will remain, unchanged.

ZONING & PLATTING COMMISSION RECOMMENDATION:

May 17, 2016; Approved MF-4-CO zoning with the following conditions:
1. Height is restricted to no more than 53 feet
2. Daily vehicular trips are limited to 2100
3. Dwelling units are limited to no more than 325
4. Development is prohibited within 100 feet of the southern property line
5. Endorsement of the Staff recommendation for signal improvements as identified in the TIA memo with the additional improvements to signal timing at the intersection of West Courtyard and Loop 360, not to exceed $5k, and adding a turn lane on City Park Road approaching RM 2222 intersection as agreed upon by the Applicant.

ISSUES: The Settlement Agreement and ordinance adopting the Settlement Agreement shall be amended prior to 3rd Reading of this rezoning case.
The Applicant is in agreement with the Commission’s recommendation. Local residents have expressed concerns regarding the impact that traffic generated by the proposed development will have on existing conditions on City Park Road, FM 2222 and Loop 360 at West Courtyard Drive. The Scope of the TIA did not identify the intersection of Loop 360 and West Courtyard Drive as an intersection to be studied. However, the Applicant agreed to look into the issues at this intersection and agreed to put forth up to $5,000 towards analysis of and adjusting of the signal at that location. The Neighborhood requested that a new TIA be produced citing that the traffic count data was inaccurate due to being collected in 2014 and during the summer months, when school was out for summer vacation.

DEPARTMENT COMMENTS:

The subject property is approximately 45 acres of undeveloped land on the south side of FM 2222 and between City Park Road to the west and Loop 360 to the east (see Exhibits A & B). There are single family homes and condominiums to the south. The property is heavily wooded and has high degree of topographical changes with a difference of 250 feet in elevation between the highest elevation and the lowest elevation (see Exhibit C). In general, the property slopes downward toward FM 2222. There is driveway access at two locations along east bound FM 2222.

A rezoning to GO-MU-CO has been requested to allow the development of 325 apartment dwelling units. Additionally, a request has been made to remove an existing condition that establishes a 6,500 daily trip limit for this property, considered cumulatively and collectively with the properties that make up Champion Tracts 1 and 2, established by ordinance No. 000309-78 (Exhibit D).

Background/History - The subject Tract, Champions Tract 3, is 45 acres out of over 250 once owned by the Champions Family in the area of FM2222 and Loop 360. In the 1970’s the State obtained right-of-way from the acreage to construct FM 2222 and Loop 360, therefore, dividing the land into 5 pieces that were, from that point on, referred to as Champions Tracts 1-5 (see Exhibit E).

In 1986, the City Council adopted the Comprehensive Watershed Ordinance (CWO) that would impose more restrictive environmental regulations on future development than that of the Lake Austin Watershed Ordinance that was previously adopted in 1980. The CWO was amended in 1993 to add additional protections some of which were specific to land within the Bull Creek and West Bull Creek Watersheds. This amendment became known as the “Bull Creek” ordinance.

In 1994, as a result of the “Bull Creek” amendments to the CWO, the Champion Family filed a lawsuit against the City. The premise of the lawsuit was that projects had been initiated on the properties prior to the adoption of the CWO. Therefore, development on the properties would not be subject to the CWO and instead would follow the regulations of the Lake Austin Watershed Ordinance. In effect, the purpose of the lawsuit was to seek grandfathering rights before the State of Texas and the City of Austin had such policy. The lawsuit resulted in a Compromise Settlement Agreement between the City of Austin and the Champions Family that was signed in July of 1996 (see Exhibit F).

Per the 1996 Settlement Agreement, Council approved a Special Exception Ordinance (see Exhibit G). Later, in 1998 and 1999, a series of zoning cases were filed with the City for the properties of the 5 Champions Tracts (see Case Histories table below). The properties were rezoned by Council in March of 2000. The rezoning of Tracts 1, 2, and 3 included a condition that the properties would share a 6,500 daily trip limit.
In addition to the shared trip limit, additional conditions were imposed on Tract 3 which included limiting office development to no more than 30,000 square feet and prohibiting development of a building or structure within 100 feet of the southern property line (Exhibit D).

Later, in 2002 and 2003, the Champion Family sought to remove the 6,500 daily trip limit from Tracts 1 and 3 with the filing of two more re-zoning cases (C14-02-0181 and C14-03-0140). Both cases were recommended by the Zoning and Platting Commission. While the re-zoning cases were awaiting public hearing with City Council, the Champion Family filed another lawsuit against the City in February, 2004, alleging that the application of City zoning ordinances most recently approved in March of 2000 were in violation of the 1996 Compromised Settlement Agreement because the 6,500 limitation did not allow for the actualization of development that would have been allowed under the Lake Austin Watershed Ordinance. Amidst the pending lawsuit, on March 25, 2004, City Council approved first reading of the rezoning request for Tract 3 with instructions to Staff to return on second and third readings with a proposal for an alternative trip limitation to the existing 6,500 limit. While Staff was conducting the analysis requested by City Council, the Applicant amended the zoning request from GO-CO to GO-MU in July, 2004. The amended request was reviewed by Commission on October 19, 2004 and then heard by City Council for 2nd and 3rd readings on December 2, 2004. The request was ultimately denied.

The pending lawsuit filed in February of 2004 moved forward and resulted in another mediated settlement agreement that was executed in September of 2005. Per the new settlement agreement, the City agreed to re-zone Champions Tracts 1, 2 and 3 to remove the 6,500 trip limit by December 1, 2005. In doing so, The Champions Family would dismiss the lawsuit against the City with each party bearing their own costs and attorney fees. However, should the City not fulfill the agreement, the Champion Family would pursue the lawsuit.

As a result, the City initiated re-zoning cases for Champions Tracts 1, 2, and 3 with the filing of cases C14-05-0159, C14-05-0158, and C14-05-0157. The re-zonings included a new daily trip limit of 11,000, to be shared among Tracts 1, 2, and 3, and were approved by Council at 2nd reading. However, the three cases expired before the third reading occurred, voiding the proposed 2005 Mediated Settlement Agreement. After several years, the courts dismissed the 2004 lawsuit due to lack of prosecution. Today, the 6,500 trip limit remains for the properties that make up Champion Tracts 1, 2, and 3.

**Staff Review:** This current request for rezoning is similar to the previous request in 2005 (C14-05-0157), but different in that the applicant does not wish to remove the 30,000 sq. foot office use restriction and has submitted a new TIA which will replace the 6,500 trip limit.

The subject Tract is a legal, platted lot (Exhibit H) fronting FM 2222, a Hill Country Roadway. Development on the property would typically be reviewed against the provisions of the Hill Country Roadway Overlay. However, the Special Exceptions Ordinance (Exhibit G) may modify certain requirements. Currently, the plat for the property (Exhibit H) prohibits residential uses. If zoning is granted, the Applicant will need to seek an amended plat to remove the prohibition in order to proceed with the proposed multi-family project. A rezoning to add the mixed-use overlay (-MU) is required before the plat can be amended. Due to an established 100 foot, no build buffer along the southern property line, per Ordinance No. 000309-78 (Exhibit D) and a high degree of topographic changes on the property, the proposed location of the development within the 45 acres will be in the northwest corner of the 45 acres where the topography is least varied.

Staff recommends GO-MU-CO zoning for the subject Tract because the request would allow, at the very least, land uses that are supported by the Imagine Austin Comprehensive plan at a location of an
arterial (FM 2222) and major highway (Loop 360) where greater intensity of land uses are typically encouraged. The proposed multi-family project will contribute to the mix of office, commercial and residential uses in the general area and the addition of 325 apartment dwelling units will help to alleviate the existing housing shortage. Further, a new traffic impact analysis submitted for the proposed project indicates that traffic generated by the proposed development will be accommodated.

**CASE HISTORIES SPECIFIC TO THIS PROPERTY:**

**C14-98-0162** (1998) - a rezoning from SF-2 to GO-CO; the conditional overlay did the following:
1. Limit office uses to no more than 30,000 square feet,
2. Prohibit development of a building or structure within 100 feet of the southern property line,
3. Impose a 6,500 daily trip limit, to be considered cumulatively with Champions Tracts 1 and 2.

**C8-02-0083.09** (2002) – a subdivision case of 45.357 acres, platted as Lot 1 Block A of the Champion Park East Subdivision, approved May 12, 2003.

**C14-03-0140** (2003) – request to rezone from GO-CO to GO-MU-CO; the CO was to be modified to remove the 6,500 trip limit and the condition that limits office development to no more than 30,000 sq. ft. The request was denied.

**C14-05-0157** (2005) – request to rezone from GO-CO to GO-MU-CO; the existing CO was to be replaced with a new CO that would impose a new daily trip limit of 11,000, to be shared with Tracts 1 and 2 among other items. The request was approved by Council at 2nd reading and expired before 3rd reading.

**C14-2015-0160 – CC – September 22, 2016**
C14-2015-0057 (2015) – a rezoning from GO-CO to GO-MU-CO; the CO was to be modified to remove the 6,500 trip limit and the condition that limits office development to no more than 30,000 sq. ft. The zoning application expired after 181 days without being scheduled for a public hearing with Zoning and Platting Commission.

EXISTING CONDITIONS

Site Characteristics
The property is undeveloped and is heavily wooded with a high degree of topographical changes. There is a difference of 250 feet in elevation between the highest elevation at approximately 790 feet along a portion of the southern property line, and the lowest elevation of 540 feet closer to the northern property line. In general, the property slopes downward toward FM 2222. There is driveway access at two locations along east bound FM 2222.

Comprehensive Planning – Kathleen Fox, 512-974-7877
This zoning case is located on the south side of City Park Road and FM 2222 Road, and to the west of Hwy 360. The property is a vacant tract of land, which is approximately 45.35 acres in size. The property is not located within the boundaries of an area with an adopted neighborhood plan. Surrounding land uses includes Champion City Park, an office building, and apartment complex to the north; single family subdivisions and a large apartment complex to the south; Hwy 360 to the east; and single family housing and vacant land to the west. The proposed use is mixed use project and the removal of the conditional overlay, which limits the trips per day. More specifically, the developer wants to construct a 325 unit apartment complex, 50,000 sq. ft. of office uses, and 42,000 square feet of hospital services limited use, which replaces the specialty retail use.

Imagine Austin
The overall goal of the Imagine Austin Comprehensive Plan (IACP) is to achieve ‘complete communities’ across Austin, where housing, services, retail, jobs, entertainment, health care, schools, parks, and other daily needs are within a convenient walk or bicycle ride of one another. On page 107 in Chapter 4 of the IACP it states, “While most new development will be absorbed by centers and corridors, development will happen in other areas within the city limits to serve neighborhood needs and create complete communities. Infill development can occur as redevelopment of obsolete office, retail, or residential sites or as new development on vacant land within largely developed areas. New commercial, office, larger apartments, and institutional uses such as schools and churches, may also be located in areas outside of centers and corridors. The design of new development should be sensitive to and complement its context. It should also be connected by sidewalks, bicycle lanes, and transit to the surrounding area and the rest of the city.”

The following IACP policies are also applicable to this case:

- **LUT P3.** Promote development in compact centers, communities, or along corridors that are connected by roads and transit that are designed to encourage walking and bicycling, and reduce health care, housing and transportation costs.

- **LUT P7.** Encourage infill and redevelopment opportunities that place residential, work, and retail land uses in proximity to each other to maximize walking, bicycling, and transit opportunities.

Analysis and Conclusions
Analyzing the land uses within a mile of radius of this subject property, there appears to be both benefits and challenges to this location. Most importantly, this area of Austin is currently lacking a variety of goods and service options for nearby residents and office workers, a variety of retail and
commercial uses, and especially safe routes for pedestrian (sidewalks and hike and bike trails) or public transportation stops available within several miles of this location.

Although this project is not located along an Activity Corridor or within an Activity Center, which the Imagine Austin Growth Concept Map targets for growth, FM 2222 is a heavily traveled arterial road, which contains myriad of office parks, residential subdivisions and multi-family apartment complexes. The proposed project could contribute to making this area a more 'complete community' (where people can live, work and play) by adding a much needed retail component and making this area more connected to adjoining land uses. To add connectivity to the area, the developer should consider installing sidewalks, hike and bike trails, and negotiating public transportation options for the users of the residential and offices uses located both within and around this site, thus reducing dependency on privately owned automobile. Based on this project contributing various land uses (medical, offices and multifamily housing), this proposal appears to be partially supported by the Imagine Austin Comprehensive Plan.

Impervious Cover
The site is subject to the regulations established by the Lake Austin Watershed Ordinance per the 1996 Settlement Agreement between the Champions and the City of Austin.

Environmental – Mike McDougal, 512-974-6380

***Development is subject to Ordinance No. 96-0613-J, which may amend portions of the comments below:

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is in the West Bull Creek Watershed of the Colorado River Basin, which is classified as a Water Supply Suburban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Drinking Water Protection Zone.

2. Under the current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

Development within a Water Quality Transition Zone is limited to 18%.

3. According to floodplain maps there is a floodplain within the project location. Based upon the location of the floodplain, offsite drainage should be calculated to determine whether a Water Quality Transition Zone / Critical Water Quality Zone exist within the project location. Development within the Water Quality Transition Zone and Critical Water Quality Zone are limited per LDC 25-8.

4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

5. Numerous trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development’s requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

6. Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

7. At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

DSD Transportation – Ivan Naranjo, 512-974-7649
See attached TIA memo at the back of this report.

Water and Wastewater – Neal Kepple
FYI: Currently only City water is in the area. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, water or wastewater easements, utility relocations and or abandonments required by the proposed land use. Depending on the development plans submitted, water and or wastewater service extension requests may be required. Water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria and suitability for operation and maintenance. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

Storm Water Detention
At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in storm water runoff will be mitigated through on-site storm water detention ponds, or participation in the City of Austin Regional Storm water Management Program if available.

Site Plan and Compatibility Standards – Nikki Hoelter, 512-974-2863

SP1. Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

SP2. The site is subject to compatibility standards. Along the SOUTH and WEST property lines, the following standards apply:
• No structure may be built within 25 feet of the property line.
• No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
• No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
• No parking or driveways are allowed within 25 feet of the property line.
• In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection. Additional design regulations will be enforced at the time a site plan is submitted.

SP3. The site is located within 1,000 feet of RM 2222 and within a Hill Country Roadway Corridor. The site is located within the low intensity zone of the Hill Country Roadway. The site may be developed with the following maximum floor-to-area ratio (FAR):

<table>
<thead>
<tr>
<th>Slope</th>
<th>Maximum FAR</th>

</thead>
<tbody>
<tr>
<td>0-15%</td>
<td>.20:1</td>

Except for clearing necessary to provide utilities or site access, a 100 foot vegetative buffer will be required along RM 2222. At least 40% of the site (excluding dedicated right-of-way) must be left in a natural state. The allowable height is as follows: Within 200 feet of RM 2222 the maximum height is 28 feet.

Development is subject to Ordinance No. 96-0613-J, which may amend portions of the above referenced comments.

Prior to the issuance of a building permit for the proposed use, a site plan must be approved by the Planning Commission.
Hi Tori,

This email is confirm the proposed modification to zoning application C14-2015-0160. It is our clients desire to amend the application to remove the proposed office use and clinic use. As a result, my client no longer wishes to remove the office limitation of 30,000 square feet from the conditional overlay. In addition, I provide clarification that Part 2. Subsection 3. of Ordinance 000309-78 shall also remain in effect.

Please let me know if you have any questions.

SUBJECT: Revisions to Traffic Impact Analysis for Champion's Tract 3 Development
         Zoning Case No. C14-2015-0160

Section 25-6-114 of the Land Development Code requires that a traffic impact analysis (TIA) be
conducted for a project proposed with a zoning application if the project is anticipated to generate more than
2,000 daily trips.

The project site is located south of RM 2222 and west of Loop 360 in north Austin. The project site is
currently vacant and is currently zoned GO – CO. The proposed zoning is GO-CO-MU to allow for multi-family
mixed use development. The projected build out year for this development is 2018.

Roadways

RM 2222 is identified in the Austin Metropolitan Area Transportation Plan as a four lane divided major arterial
roadway (MAD – 4), with a center two way left turn lane (CTWLTL) in the vicinity of the site. The roadway offers
connection from points west to Loop 360 and central Austin. According to the Texas Department of
Transportation (TxDOT), the daily traffic volumes along RM 2222 were approximately 42,000 vehicles per day
(vpd) east of City Park Road and approximately 34,300 vpd west of the site. The posted speed limit is sixty
miles per hour (60 MPH) west of City Park Road and fifty-five miles per hour (55 MPH) east of City Park Road.

Loop 360 is a four lane divided grade separated highway traveling in a north-south direction with a posted speed
limit of fifty-five miles per hour (55 MPH). The connection with RM 2222 is via diamond interchange. According
to the Texas Department of Transportation (TxDOT), the daily traffic volumes along Loop 360 were 46,100 vpd
north of the interchange with RM 2222 and approximately 44,800 vpd south of this interchange.

City Park Road is a minor arterial roadway (per the CAMPO 2010 volume map) and primary roadway serving
Emma Long Park and several residential communities. The posted speed limit is forty miles per hour (40 MPH).
Morning peak hour traffic counts indicate approximately 5,000 vehicles per day use this roadway.

Jester Boulevard is a minor arterial roadway (per the CAMPO 2010 volume map) and has a posted speed limit
of thirty miles per hour (30 MPH). Morning peak hour traffic counts indicate approximately 3,000 vehicles per
day use this roadway.
Trip Generation and Traffic Analysis

Based on the ITE publication *Trip Generation, 9th Edition*, the proposed 325 apartment dwelling units would generate an estimated 2,094 additional vehicle trips per day (vpd). Table 1 below summarizes the site trip generation rates used in the traffic analysis:

Site traffic is expected to use City Park Road and one driveway on RM 2222 for access to the site. The driveway on RM 2222 is restricted to "right in/right out" operation only. Table 2 presents the percentage distribution to the surrounding roadways:

For this study, traffic counts were conducted on July 29, 2014 at the identified study intersections. Since data collection occurred during the summer break, the raw counts were adjusted by means of a 10% growth factor to account for school related traffic. In addition, one identified background project, located at the northeast corner of RM 2222/Champion Grandview View, was used to increase expected daily peak hour volumes.

Study intersections were evaluated using the Highway Capacity Manual (HCM) method for capacity analysis. When the estimated additional trips were added to the identified intersections, the traffic analysis showed increased congestion and delay at some intersections. Table 3 (presented on the following pages) provides a summary of the calculated average delay(s) for each of the study intersections:

* Traffic analysis based on 2000 Highway Capacity Manual methodology
** This is a free movement at this intersection

The results of the analysis conducted within the TIA identify several locations operating at LOS E or F under current conditions as well as in future scenarios. The additional peak hour traffic related to this development is shown (under mitigated conditions) to slightly increase the average delays. The following mitigation measures were included in the study:

- Adjusted signal timing was adjusted for the signalized intersection of RM 2222/Jester Blvd
- Adjusted signal timing and phasing for the signalized intersection of RM 2222/City Park Road
- Adjusted signal timing and phasing for the signalized intersection of RM 2222/Loop 360
- Assumed installation of right in/right out channelizing concrete medians for RM 2222/Champions Grandview Way and proposed Driveway #1/RM 2222 connection.

In addition to the above recommended measures, transportation review staff identified a need to evaluate the queuing demand along City Park Road approaching the intersection of RM 2222. Additional capacity for left turn movements (both in/out of the site) may be required at the time of site plan, when specific site design information is available.
RECOMMENDATIONS

1) Prior to the 3rd reading of the zoning case, transportation review staff requests the applicant post fiscal for the following improvements:

<table>
<thead>
<tr>
<th>Location</th>
<th>Improvements</th>
<th>Total Cost</th>
<th>Pro Rata Share %</th>
<th>Pro Rata Share $</th>
</tr>
</thead>
<tbody>
<tr>
<td>City Park Road at RM 2222</td>
<td>Signal equipment upgrade</td>
<td>$38,102</td>
<td>100%</td>
<td>$38,102</td>
</tr>
<tr>
<td>City Park Road approaching RM 2222 intersection*</td>
<td>Lengthening turn lane storage</td>
<td>TBD</td>
<td>TBD</td>
<td>TBD</td>
</tr>
<tr>
<td>Driveway #1 at RM 2222*</td>
<td>Construction of diverter island</td>
<td>$25,000</td>
<td>100%</td>
<td>$25,000</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td></td>
<td><strong>$63,102</strong></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

* Fiscal will not be collected for these improvements as they would be required at the time of site plan review.

2) City Park Road and RM 2222 – The applicant proposes to contribute to necessary traffic signal improvements to permit timing and phasing changes at this intersection. Staff from the Austin Transportation Department, in coordination with TxDOT, have identified additional equipment necessary to improve traffic signal operations as a result of the additional traffic due to this site development:
   a) Traffic Signal detection equipment and installation;
   b) Modifications to pavement markings and roadway signage;
   c) Implementation of new signal timing plans to optimize traffic operations

3) Prior to site plan approval, a revised TIA may be required by staff to identify the need for additional capacity and/or channelization on City Park Road to serve the anticipated volumes of entering and exiting vehicles. Specifically, the widening of the approach to Driveway #2 on City Park Road in order to provide for left turning vehicles accessing the site.

4) In addition, applicant agrees to participate (up to $5,000) in the costs for signal timing changes at the intersection of Loop 360/West Courtyard Drive, if warranted as determined by additional traffic study and analysis during the time of site plan review.

5) Per TxDOT, direct driveway access onto RM 2222 shall be restricted to ‘right in/right out’ operation only. Applicant has agreed and proposes to construct diverter island to reinforce ‘right in/right out only’ access restrictions.

6) Development of this property should not vary from the approved uses, nor exceed the approved intensities and estimated traffic generation assumptions within the TIA document (dated April 20, 2016), including land uses, trip generation, trip distribution, traffic controls and other identified conditions.

# MF UNITS: 325 STUDENTS PER UNIT ASSUMPTION

IMPACT ON SCHOOLS

The district-wide student yield factor (across all grade levels) is 0.23 per apartment. Using the district-wide average, the 325 multifamily development is projected to add approximately 75 students across all grade levels to the projected student population. It is estimated that of the 75 students, 40 will be assigned to Highland Park Elementary School, 12 to Lamar Middle School, and 23 at McCallum High School.

The percent of permanent capacity by enrollment for SY 2019-20, including the additional students projected with this development, would be within the target range of 75-115% for Lamar MS (96%), assuming the mobility rates remain the same.

The projected increase in enrollment by SY 2019-20 coupled with the additional students from the proposed development would increase the percent of permanent capacity to 119% at Highland Park ES and 125% at McCallum HS, assuming the mobility rates remain the same. The school community and administration would need to monitor enrollment at these schools and possibly discuss intervention strategies to address overcrowding.

TRANSPORTATION IMPACT

All students residing within the planned multifamily development attending Highland Park ES, Lamar MS, or McCallum HS would qualify for transportation.

SAFETY IMPACT

A circle or drive located off the main road of the planned multifamily development to accommodate a bus would provide a safe place for students waiting to be picked up or dropped off by the bus.

*The 5-Year Projected Enrollment (with and without the proposed development) is an estimate calculated with the assumption that the stated mobility rates (transfers in and out of the school) remain the same over the 5-year period. These estimates are for the sole purpose of the Educational Impact Statement and should not be used for any other purposes.
AN ORDINANCE REZONING AND CHANGING THE ZONING MAP
ACCOMPANYING CHAPTER 25-2 OF THE CITY CODE AS FOLLOWS:

A 45.208 ACRE TRACT OF LAND OUT OF THE JAMES JETT SURVEY NO. 1,
FROM SINGLE FAMILY RESIDENCE STANDARD LOT (SF-2) DISTRICT TO
GENERAL OFFICE-CONDITIONAL OVERLAY (GO-CO) COMBINING DISTRICT,
LOCALLY KNOWN AS 6011-6411 CITY PARK ROAD AND 5801-6507 F.M. 2222
ROAD, IN THE CITY OF AUSTIN, TRAVIS COUNTY, TEXAS.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The zoning map established by Section 25-2-191 of the City Code is amended to
change the base district from Single Family Residence Standard Lot (SF-2) district to General
Office-Conditional Overlay (GO-CO) combining district on the property described in File
C14-98-0162, as follows:

A 45.208 acre tract of land out of the James Jett Survey No. 1, in Travis County,
Texas, the tract of land being more particularly described by metes and bounds in
Exhibit “A” incorporated into this ordinance, (the “Property”)

commonly known as Tract 3, locally known as 6011-6411 City Park Road and 5801-6507
F.M. 2222 Road, in the City of Austin, Travis County, Texas, and as more particularly
identified in the map attached as Exhibit “B”.

PART 2. The Property within the boundaries of the conditional overlay combining district
established by this ordinance is subject to the following conditions:

1. A site plan or building permit for the Property may not be approved, released, or issued, if
the completed development or uses of the Property and the property described in Exhibits
C, D, E, F, and G, considered cumulatively with all existing or previously authorized
development and uses, generate traffic that exceeds 6,500 adjusted trips per day.

2. Office development may not exceed 30,000 square feet of gross floor area.

3. A building or structure may not be constructed or maintained within 100 feet of the
southern property line.
Except as specifically restricted under this ordinance, the Property may be developed and used in accordance with the regulations established for the General Office (GO) base district and other applicable requirements.

PART 3. The Council waives the requirements of Section 2-2-3, 2-2-5, and 2-2-7 of the City Code for this ordinance.

PART 4. This ordinance takes effect on March 20, 2000.

corner thereof;

THENCE, leaving the northerly line of said 1.906 acres, over and
across said 260 acres, along a portion of the westerly line
hereof, the following two (2) courses and distances:

1)  N29°24′45″E, a distance of 644.36 feet to an angle point;

2)  N58°34′40″W, a distance of 94.59 feet to a point in the
    easterly line of said remainder of 12.51 acres, being an
    angle point hereof;

THENCE, N30°25′20″E, along the easterly line of said remainder
of 12.51 acre tract, being a portion of the westerly line of
said 260 acres and the westernmost line hereof, a distance of
349.46 feet to a point in the southerly right-of-way line of
R.M. 2222 (R.O.W. varies), being the most northeasterly corner
of said remainder of 12.51 acre tract for the northwesterly
corner hereof;

THENCE, leaving the easterly line of said remainder of 12.51
acres, along the southerly line of R.M. 2222, being the
northerly line hereof, the following three (3) courses and
distances:

1) Along a curve to the left having a radius of 1757.02 feet,
a central angle of 02°56′53″, an arc distance of 90.41 feet
and a chord which bears S55°07′08″E, a distance of 90.40
feet to the end of said curve;
2) S56°35’35"E, a distance of 518.83 feet to the point of curvature of a curve to the right;

3) Along said curve to the right having a radius of 1407.89 feet, a central angle of 10°40’27"", an arc distance of 262.29 feet and a chord which bears S51°15’21"E, a distance of 261.91 feet to the most northwesterly corner of that certain remainder of 0.27 acres of land conveyed to George Randall Baird by deed of record in Volume 5959, Page 1987 of said Deed Records, being the northermost northeasterly corner hereof;

THEREFORE, leaving the southerly line of R.M. 2222, along the westerly and southerly lines of said remainder of 0.27 acre tract, being the irregular easterly line hereof, the following two (2) courses and distances:

1) S35°09’03"W, a distance of 52.60 feet to the southwesterly corner of said remainder of 0.27 acre tract for an angle point;

2) S33°31’40"E, a distance of 85.48 feet to a point in the southerly line of said remainder of 0.27 acre tract for an angle point hereof;

THEREFORE, leaving the southerly line of said remainder of 0.27 acres and continuing along the irregular easterly line hereof, the following seven (7) courses and distances:

1) S73°57’57"W, a distance of 151.64 feet to the point of curvature of a curve to the right;

2) Along said curve to the right having a radius of 950.00 feet, a central angle of 07°19’47"", an arc distance of 121.53 feet and a chord which bears S77°37’51"W, a distance of 121.45 feet to the point of tangency of said curve;

OF TRAVIS COUNTY, TEXAS

COMPROMISE SETTLEMENT AGREEMENT

This Compromise Settlement Agreement (Agreement) is made effective on the 13th day of June, 1996, by and between Josie Ellen Champion, Juanita Champion Meier and, Mary Margaret Champion Roberson (the Champions) and the City of Austin (the City).

In consideration of the mutual promises and obligations set forth herein and for other good and valuable consideration, the sufficiency of which is acknowledged by the Champions and the City, the parties agree as follows:

1. For purposes of this Agreement, "the Subject Property" will be the real estate contained in Tracts 1, 2, 3, 4 and 5, such tracts being the following:

Tract 1: 153.75 acres, more or less, out of the James Jett Survey No. 1, Travis County, Texas, Travis County Plat No. 1 4218 08 18, referred to in the Application for Land Status Determination bearing City of Austin filing No. C81-87-020, the legal description of such tract contained in such application being adopted herein as if fully restated.
Tract 2: 20.59 acres, more or less, out of the James Jett Survey No. 1, Travis County, Texas, Travis County Tax Plat No. 1 4218 08 18, referred to in Application for Land Status Determination No. C81-87-021, the legal description of such tract contained in such application being adopted herein as if fully restated.

Tract 3: 49.70 acres, more or less, out of the James Jett Survey No. 1, Travis County, Texas, Travis County Tax Plat No. 1 4218 08 18, referred to in Application for Land Status Determination bearing City of Austin filing No. C81-87-022, the legal description of such tract contained in such application being adopted herein as if fully restated.

Tract 4: 9 acres, more or less, out of the T. J. Chambers Survey, Travis County, Travis County Tax Plat No. 1 3912 06 01, referred to in Application for Land Status Determination bearing City of Austin filing No. C81-87-023, the legal description of such tract contained in such application being adopted herein as if fully restated.

Tract 5: 26 acres, more or less, out of the James Jett Survey No. 1 and the Thomas Jefferson Chambers Grant, Travis County, Texas, Travis County Tax Plat No. 1 4211 04 08 (pieces being located on 13418, 14218, 14312) referred to in Application for Land Status Determination bearing City of Austin filing No. C81-87-024, the legal description of such tract contained in such application being adopted herein as if fully restated.

2. Future development of the Subject Property, insofar as such development is within the regulatory and permitting authority of the City, will be governed by the following:
a. Unless otherwise specifically provided in this Agreement, during the term of this agreement all applications relating to development of the Subject Property will be governed solely by the applicable ordinances, rules or other regulations in effect for the subject property on December 8, 1993 immediately prior to the enactment of City of Austin Ordinance No. 931209-H, (the "Bull Creek Ordinance"), including the Lake Austin Watershed Ordinances by virtue of the fact that the tracts were "legal tracts." Such development applications shall include, but not be limited to, all applications for subdivision preliminary plans and final plats, resubdivision or replats, site plans, site development permits, zoning and rezoning (only to the extent that zoning and rezoning ordinances affect lot size, lot dimensions, lot coverage or building size), and all other permits and approvals required for the development of the Subject Property, and all revisions and amendments thereto (other than applications for building or construction permits for structures intended for human occupancy or habitation, which applications will be governed by the laws, ordinances, rules or regulations adopting solely the provisions of uniform building, fire, plumbing or mechanical codes promulgated by a nationally recognized code organization or local amendments to such codes enacted solely to address imminent threats of destruction of property or injury to persons in effect as of the date of the application for the applicable building or construction permit).

b. During the term of this Agreement, it is expressly agreed that the Subject Property may be subdivided and resubdivided so that each Tract may be comprised of one or more separate tracts or lots, under the requirements of the Lake Austin Watershed Ordinance without compliance with any ordinance, rule, regulation or other permitting or approval
requirement adopted after December 8, 1993, including specifically, but without limitation, the Comprehensive Watersheds Ordinance (Ordinance No. 860508-V) as the same has been codified and amended, which ordinance was not applicable by exemption to the Subject Property on December 8, 1993, and that further resubdivisions or replatting of the Subject Property will not trigger the necessity of compliance with the Comprehensive Watersheds Ordinance or any other ordinance, regulation or rule not in effect on December 8, 1993, (except with respect to all applications for building or construction permits for structures intended for human occupancy or habitation, which applications will be governed by the laws, ordinances, rules or regulations adopting solely the provisions of uniform building, fire, plumbing or mechanical codes promulgated by a nationally recognized code organization or local amendments to such codes enacted solely to address imminent threats of destruction of property or injury to persons in effect as of the date of the application for the applicable building or construction permit).

c. During the term of this Agreement, the total amount of impervious cover that may be constructed within Tracts 1, 2 and 3, and that portion of Tract 5 not made subject to Ordinance No. 930513-R will be the maximum impervious cover permitted by the Lake Austin Watershed Ordinance and other ordinances governing such tracts prior to the enactment of the Bull Creek Ordinance, and the amount of impervious cover will not be restricted to an amount less than that permitted by those ordinances.

d. The City will not require a new boundary survey as a condition for rezoning of Tracts 1, 2 and 3.
e. During the term of this Agreement, Tracts 4 and 5 will be permitted to be developed to the maximum extent of impervious cover and building square footage permitted by the Lake Austin Watershed Ordinance and other ordinances in effect on December 8, 1993, and by zoning ordinance No. 920507-B relating to such Tract 4 and zoning ordinance No. 930513-R relating to Tract 5. The restrictive covenant entered into in connection with the enactment of Ordinance 920507-B will be and is hereby amended to delete the following provisions thereof:

"12. Owners shall construct and maintain a detention pond with a minimum volume of two acre feet on the Property. The detention pond will be lined with grasses such as Switchgrass and Bushy Bluestem and other appropriate native vegetation for the purpose of reducing the rate of stormwater discharge to the rate of discharge without improvements constructed on the Property"; and

"5. Disturbance of the native vegetation on hillrock and rock outcropping in and along the southern portion of the Property shall be prohibited."

The Champions or their successors in interest shall be permitted to grade the said "hill rock and rock outcropping" to the surrounding natural level.

The aforementioned restrictive covenants will be removed in exchange for the following Agreements as set forth in the Special Exceptions Ordinance, to-wit:

A. For any development on the Property, applicant shall construct properly engineered water-quality controls, including at minimum, water quality filtration ponds with full sedimentation chambers as described in the City of Austin Environmental Criteria Manual. The ponds shall be sized to capture the first one-half (.50) inch of stormwater plus one-tenth (.10) of an inch for each additional 10% of impervious cover above 20% from the contributing drainage areas of the project which include impervious
cover. In the event that any cut and fill variances necessary for the construction of these ponds are not granted, the Applicant shall not be required to comply with this subparagraph 2. e. A. Detention of the 2-year storm will not be required.

B. Any agreements, restrictions, covenants, or other legal documentation necessary to construct and maintain the water quality controls required hereby shall be reviewed by the City Law Department prior to execution, and shall include a provision requiring written City approval prior to termination or assignment.

C. Prior to the issuance of a certificate of occupancy or return of fiscal security for development on all or part of the Property, construction of the water-quality controls required hereby shall be completed, as determined by City of Austin inspection, for the portion of the subject property for which a Certificate of Occupancy or return of fiscal is requested.

f. During the term of this Agreement approvals of site plans for the Subject Property will be approved with necessary variances or other provisions reducing the set backs from Loop 360 and RR 2222 required by the Hill Country Roadways Ordinance (No. 860116-J) to twenty-five feet.

3. The provisions of this Agreement will not be affected by any transfer or ownership of all or any part of the Subject Property. The rights and duties expressed herein will run with the land, and shall be binding upon, will be for the benefit of, will be assigned by, and will be enforceable by, the Champions and the subsequent owner(s) of the Subject Property, or any part thereof, and their respective successors and assigns.

4. In consideration for the dismissal of the claims in the lawsuit described below, during the term of this Agreement the City will not impose or require any filing, review, inspection, construction or notification fees with respect to any application for the processing or
approval of any subdivision preliminary plans and final plats, resubdivisions or replats, site plans or site development permits, zoning or rezoning for the development of the Subject Property, and all such fees are hereby expressly waived by the City.

5. During the term of this Agreement, the City will follow established regulations and procedures for any legislative actions (including, but not limited to, zoning or rezoning) related to the Subject Property to the extent that such regulations are not inconsistent with the Lake Austin Watershed Ordinance and this Agreement; provided, however, in the event any such legislative action results in requirements or conditions that are contrary to, in addition to, or in any manner inconsistent with, the provisions hereof, the owner(s) of the Subject Property, or any part thereof, may elect any one or more of the following with respect to any such ordinances, rules, regulations or other requirements sought to be imposed on the development or use of the Subject Property: (i) enforcement of any state law applicable to the development of the subject property, including without limitation, Sections 481.142, et seq., TEX. GOV’T CODE; (ii) assertion of all claims for attorneys’ fees, court costs, temporary taking damages, permanent taking damages or other damages that were asserted or could have been asserted in the lawsuit described below and any such claims that may arise hereafter; and (iii) assertion of any other legal or equitable rights or claims that might exist with respect to the City’s actions regarding the Subject Property.

6. Tracts 4 and 5 (excluding that portion of Tract 5 not made subject to zoning ordinance No. 930513-R). The exception granted herein shall apply to any "project" as that term is defined in Section 481.142, Texas Government Code, commenced on Tracts 4 and 5
within ten years by the filing of an application for preliminary subdivision (if applicable) and by the filing and approval of a site plan. In the event that said subdivision and site plan approval are not obtained within the ten year period, all subsequent permits for a "project" shall be governed by the Austin City Code in effect at the time of the filing of the development application.

Tracts 1, 2 and 3 and the portion of Tract 5 not made subject to zoning ordinance No. 930513-R. The exceptions granted herein shall apply to any "project" as that term is defined in Section 481.142, Texas Government Code, commenced on Tracts 1, 2 3, or that portion of Tract 5 not made subject to zoning ordinance No. 930513-R, within six years by the filing of an application for preliminary subdivision plan or any other development permit. Provided, however, that any application filed within six years will be subject to expirations contained in the Austin City Code in effect as of December 8, 1993. In the event that said development permit is not filed within the six year period, all subsequent permits for a "project" shall be governed by the Austin City Code in effect at the time of the filing of the development application.

Notwithstanding the foregoing, should the owners elect, applications filed during the first six years from the effective date of this Ordinance may be governed by the provisions of state law and the Austin City Code in effect at the time of the filing of said applications.

7. Nothing in this Agreement will prevent the City and the owner(s) of the Subject Property, or any part thereof, from making agreements regarding the development or use of the Subject Property, or any part thereof owned by such party, in addition or contrary to the
provisions hereof by agreement; provided, any such agreement must be in writing and executed by the City and the owners of the portions of theSubject Property affected thereby, and further provided that any such agreement shall expressly reference this Agreement.

8. The Champions and the City agree to submit to the Court in Cause No. 94-07160, in the 353rd District Court of Travis County, Texas, a proposed Agreed Order in the form attached hereto as Exhibit A and to request the Court to enter the Agreed Order in accordance with the settlement set forth in this Agreement.

9. Notwithstanding anything herein to the contrary, in the event of any conflict between any provision of this Compromise Settlement Agreement and the Special Exceptions Ordinance, the parties hereto agree that the Special Exceptions Ordinance shall control.

10. The City and the Champions warrant that the parties executing this Agreement have the all requisite authority to bind the parties and are executing the Agreement within the scope of and in accordance with such authority.

11. Unless expressly stated otherwise in this Agreement, the provisions hereof are binding on all successors, agents, employees, representatives and assigns of the City and the Champions.

12. This Agreement is made in settlement of disputed claims and causes of action, and the provisions hereof are not to be construed as an admission of liability by any party, which liability is hereby denied; nor is this Agreement or any proceeding in the lawsuit between the parties to be considered as res judicata, collateral estoppel or binding in any manner on persons or entities not parties hereto or otherwise entitled to the benefits by the express provisions
hereof.

EXECUTED to be effective the 11th day of July, 1996.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

**PART 1.** That a special exception from the Austin City Code of 1992, as amended, is granted for development on the Champion property, (the "Property") more particularly described in Exhibit "A" attached hereto and incorporated herein for all purposes; provided that the following conditions are met:

1. The development of the Property must comply with the provisions of the Austin City Code in effect on December 8, 1993 including (the Lake Austin Watershed Ordinance) with the exception that development of the Property shall provide additional water quality control as set forth in (2) below.

2. For any development of the Property, applicant shall construct properly engineered water-quality controls, including at minimum, water-quality filtration ponds with full sedimentation chambers as described in the City of Austin Environmental Criteria Manual. The ponds shall be sized to capture the first one-half (.50) inch of stormwater plus one-tenth (.10) of an inch for each additional 10% of impervious cover above 20% from the contributing drainage areas of the project which include impervious cover. In the event that any cut and fill variances necessary for the construction of these ponds are not granted the applicant shall not be required to comply with this paragraph (2). Detention of the 2-year storm will not be required.
CITY OF AUSTIN, TEXAS

(3) Any agreements, restrictions, covenants, or other legal documentation necessary to construct and maintain the water quality controls required by conditions (1) and (2) above shall be reviewed by the City Law Department prior to execution, and shall include a provision requiring written City approval prior to termination or assignment.

(4) Prior to the issuance of a certificate of occupancy or return of fiscal security for development on all or part of the Property, construction of the water-quality controls required by conditions (1) and (2) above shall be completed, as determined by City of Austin inspection, for the portion of the Property for which a Certificate of Occupancy or return of fiscal security is requested.

(5) The set-backs from Loop 360 and RR 2222 required by the Hill Country Roadways Ordinance (No. 860116-J) shall be reduced from 100 feet to 25 feet.

PART 2. Tracts 4 and 5 (excluding that portion of Tract 5 not made subject to zoning ordinance No. 930513-R). The exception granted herein shall apply to any “project” as that term is defined in Section 481.142, Texas Government Code, commenced on Tracts 4 and 5 (excluding that portion of Tract 5 not made subject to zoning ordinance No. 930513-R) within ten years by the filing and approval of an application for preliminary subdivision (if applicable) and by the filing and approval of a site plan. In the event that said subdivision and site plan approval are not obtained within the ten year period, all subsequent permits for a “project” shall be governed by the Austin City Code in effect at the time of the filing of the development application.

Tracts 1, 2, 3, and that portion of Tract 5 not made subject to zoning ordinance 930513-R. The exceptions granted herein shall apply to any “project” as that term is defined in Section 481.142, Texas Government Code, commenced on Tracts 1, 2, and 3, and that portion of Tract 5 not made subject to zoning ordinance 930513-R within six years by the filing of an application for preliminary subdivision plan or any other development permit. Provided, however, that any application filed within six years will be subject to expirations contained in the Austin City Code in effect as of December 8, 1993. In the event that said development permit is not filed within the six year period, all subsequent permits for a “project” shall be governed by the Austin City Code in effect at the time of the filing of the development application.

Notwithstanding the foregoing, should the owners elect, applications filed during the first six years from the effective date of this Ordinance may be governed by the provisions of state law and the Austin City Code in effect at the time of the filing of said applications.

PART 3. Unless otherwise specifically provided in this Agreement, during the term of Part 2 above, all applications relating to development of the Property will be governed solely by the Lake Austin Watershed Ordinance and other applicable ordinances, rules or other regulations in effect on December 8, 1993 immediately prior to the enactment of City of Austin Ordinance No. 931209-H, (the “Bull Creek Ordinance”). Such development applications shall include, but not be limited to, all applications for subdivisions preliminary plans and final plats, resubdivisions or replats, site plans, site development permits, and zoning and rezoning (only to the extent that zoning and rezoning ordinances affect size, lot dimensions, lot coverage or building size), relating to the Subject Property, and all revisions and amendments thereto (other than applications for building or construction permits for structures intended for human occupancy or habitation, which applications will be governed by the laws, ordinances, rules or regulations adopting solely the
provisions of uniform building, fire, plumbing or mechanical codes promulgated by a nationally recognized code organization or local amendments to such codes enacted solely to address imminent threats of destruction of property or injury to persons in effect as of the date of the application for the applicable building or construction permit).

During the term of Part 2 above it is expressly agreed that the Property may be subdivided and resubdivided under the requirements of the Lake Austin Watershed Ordinance so that each Tract may be comprised of one or more separate tracts without compliance with any ordinance, rule, regulation or other permitting or approval requirement adopted after December 8, 1993, including specifically, but without limitation, the Comprehensive Watersheds Ordinance (Ordinance No. 860508-V) as the same has been codified and amended, which ordinance was not applicable by exemption to the Property on December 8, 1993, and that further resubdivisions or replatting of the Property during the term of Part 2 will not trigger the necessity of compliance with the Comprehensive Watersheds Ordinance or any other ordinance, regulation or rule in effect after December 8, 1993, except with respect to all applications for building or construction permits for structures intended for human occupancy or habitation, which applications will be governed by the laws, ordinances, rules or regulations adopting solely the provisions of uniform building, fire, plumbing or mechanical codes promulgated by a nationally recognized code organization or local amendments to such codes enacted solely to address imminent threats of destruction of property or injury to persons in effect as of the date of the application for the applicable building or construction permit.

During the term of Part 2 above, the total amount of impervious cover that may be constructed within Tracts 1, 2, and 3, and that portion of Tract 5 not made subject to Zoning Ordinance No. 930513-R will be the maximum impervious cover permitted by the Lake Austin Watershed Ordinance and other ordinances governing such tracts prior to the enactment of the Bull Creek Ordinance, and the amount of impervious cover will not be restricted to an amount less than that permitted by those ordinances.

PART 4. That the approval of this special exception does not constitute approval of any development permit nor does it constitute a commitment to any specified land use, intensity of land use, or utility services.

PART 5. That the requirements imposed by Sections 13-1-301 and 13-1-302 of the Austin City Code of 1992, as amended, (Land Development Code) regarding notice and hearing requirements and procedures for a Special Exception are hereby waived.

PART 6. That the requirement imposed by Sections 2-2-3, 2-2-5 and 2-2-7 of the Austin City Code of 1992, as amended, regarding the presentation and adoption of ordinances are hereby waived by the affirmative vote of at least five members of the Austin City Council.
PART 7. That this ordinance shall become effective upon the expiration of ten days following the date of its final passage, as provided by the City Charter of the City of Austin.

Hi Tori,

This email is confirm the proposed modification to zoning application C14-2015-0160. It is our clients desire to amend the application to remove the proposed office use and clinic use. As a result, my client no longer wishes to remove the office limitation of 30,000 square feet from the conditional overlay. In addition, I provide clarification that Part 2. Subsection 3. of Ordinance 000309-78 shall also remain in effect.

Please let me know if you have any questions.
