

ZONING CHANGE REVIEW SHEET**CASE:** C14-2016-0069 / Ben White Zoning**P.C. DATE:** September 27, 2016**ADDRESS:** 5016 1/2 E Ben White Boulevard WB**AREA:** 12.82 acres**OWNER:** Azur Property Investment**APPLICANT:** Brown and Gay Engineering (Steven Buffum)**ZONING FROM:**

Tract 1: General Commercial Services Conditional Overlay Neighborhood Plan (CS-CO-NP) (approximately 12.08 acres): and

Tract 2: Community Commercial – Conditional Overlay- Neighborhood Plan (GR-CO-NP) approximately (.74 acres)

ZONING REQUEST TO:

Tract 1: General Commercial Services – Mixed Use- Conditional Overlay (CS-MU-CO-NP); and

Tract 2: Community Commercial – Mixed Use - Conditional Overlay - Neighborhood Plan (GR-MU-CO-NP)

NEIGHBORHOOD PLAN AREA: East Riverside/Oltorf Combined Neighborhood Plan Area - Parker Lane

SUMMARY STAFF RECOMMENDATION

This property received its current zoning in 2013. The current request is to add mixed use and keep the existing conditions from the 2013 case. Staff's recommendation includes all the previous conditions (listed below), geographic restriction on residential use, right-of-way/road extension requirements, trip limitation removal and adding Vehicle Storage as a prohibited use.

For Tract 1, to grant General Commercial Services – Conditional Overlay – Neighborhood Plan (CS-CO-NP) zoning with conditions.

For Tract 2, General Commercial Services–Conditional Overlay– Mixed Use-Neighborhood-Plan (CS-MU-CO-NP) with conditions.

For Tract 3, to grant Community Commercial–Mixed Use-Conditional Overlay – Neighborhood Plan (GR-MU-CO-NP) zoning with conditions.

The following uses are prohibited uses of Tract 1:

Agricultural Sales and Services
Alternative Financial Services
Bail Bond Services
Campground
Commercial Blood Plasma Center

Kennels
Outdoor Entertainment
Outdoor Sports and Recreation
Pawn Shop Services
Pedicab Storage and Dispatch

Residential Treatment
Transitional Housing
Transportation Terminal
Vehicle Storage

Additional conditions for Tract 2 include:

- Development shall be prohibited except as may be required for repair of existing utility infrastructure in the 40' easement adjacent to the northern property line; and
- Within the 35' wide area, a vegetative buffer shall be provided and maintained. Improvements permitted within the buffer are limited to drainage, underground utility improvements or those improvements that may be otherwise required by the City of Austin (please refer to Exhibit A-3 for a depiction of Tract 2)

PLANNING COMMISSION RECOMMENDATION:

To be considered September 27, 2016

DEPARTMENT COMMENTS:

This tract is located on the north side of Ben White Boulevard midway between Alvin Devane Boulevard to the east and Burleson Road to the west. More specifically, it is west of the Spansion campus, between a convenience storage facility and an office building for a local union. The tract fronts on Ben White to the south, church property to the west, and the Sunridge Park neighborhood and Spansion property to the north.

The tract is undeveloped, with a gas line easement encumbering the northern 40 feet of the property, along with a 200' by 200' square easement area in the northeast corner. The easement is not considered hazardous and is not part of the Hazardous Pipelines Conditional Overlay. The southern half of the property is relatively sparse while the northern half, except for the easement area, is treed, mostly with cedar, cedar elm, mesquite, and the occasional cottonwood.

The request to rezone the property is driven by the applicant's stated desire to develop it with a mixed use project. The front portion will be commercial/retail with multifamily behind it toward the single family neighborhood. The neighborhood and applicant have discussed the creation of a public trail easement along the northern border within a buffer created when this property was rezoned in 2013. Staff supports keeping the existing conditions of the zoning ordinance and to allow a residential use for a portion of the property and other conditions as mentioned above. This corridor is experiencing an increase in the number of multifamily developments because of its central location and highway access. Although the proximity to the Spansion site causes some concern, the distance between the Spansion facility, buffers provided in the previous zoning case and because it backs to existing single family development and its central location forms the basis for our support for a mix of uses.

ISSUES:

Transportation review staff recommends the extension of Sunridge Drive to E. Ben White Blvd for connectivity. Adjacent neighbors and the East Riverside/Oltorf Combined Neighborhood Contact Team oppose the connection as does the applicant. Sunridge currently dead ends at the northern border of the subject tract. Zoning staff recommend the removal of Vehicle Storage as a permitted use because of the proximity to multifamily

residences as proposed by the applicant. The applicant does not support the removal of this use.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	CS-NP & GR-NP	Undeveloped; Gas-line easement on north edge and northeast corner
<i>West</i>	GR-CO-NP; GO-CO-NP; CS-CO-NP	Office; Church Campus ; Undeveloped

In addition, C14-05-0111, the Parker Lane Neighborhood Plan combining district was adopted on November 16, 2006, appending the NP designation to the zoning string for properties in the neighborhood plan area. Parker Lane was part of the East Riverside/Oltorf Combined Neighborhood (case NPA-05-0021) Plan adopted at the same time. Although a couple of tracts along Ben White Boulevard were contested at the time of neighborhood plan

adoption (and subsequently included in the Neighborhood Plan future land use map, rezoned, or action postponed), this tract was not contested.

DSD Transportation Review - Leo Xu - (512) 974-2881

- TR1. The Austin Metropolitan Area Transportation Plan calls for 400 feet of right-of-way for E. Ben White Boulevard. If the requested zoning is granted for this site, then 200 feet of right-of-way from the existing centerline may be required by TxDOT for E. Ben White Boulevard according to the Transportation Plan. [LDC, Sec. 25-6-51 and 25-6-55].
- TR2. FYI, additional right-of-way maybe required at the time of subdivision and/or site plan.
- TR3. A Traffic Impact Analysis shall be required at the time of site plan if triggered per LDC 25-6-113. LDC, Sec. 25-6-113.
- TR4. FYI, Chad Crager, Urban Trails, Public Works Department and Nathan Wilkes, Bicycle Program, Austin Transportation Department may provide additional comments regarding bicycle and pedestrian connectivity per the Council Resolution No. 20130620-056.
- TR5. According to the Austin 2014 Bicycle Plan approved by Austin City Council in November, 2014, a wide curb bicycle facility is recommended for E. Ben White Boulevard.
- TR6. FYI, according to Term Part 3.A in Land Use Ordinance No. 20131212-110, a site plan or building permit for this property may not be approved, released, or issued, if the completed development or uses of this property, considered cumulatively with all existing or previously authorized development and uses, generate traffic that exceeds 2,000 trips per day.

TR7. Existing Street Characteristics:

Name	ROW	Pavement	Classification	Sidewalks	Bike Route	Capital Metro (within ¼ mile)
E Ben White Blvd	360'	325'	Freeway 6 Lanes	Yes	Yes	No
Sunridge Drive	70'	42'	Collector	Yes	No	No

NPZ Environmental Review - Mike Mcdougal 512-974-6380

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Carson Creek Watershed and the Country Club West Watershed, both of the Colorado River Basin, and are classified as Suburban Watersheds by Chapter 25-8 of the City's Land Development Code. The site is in the Desired Development Zone.
2. Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Gross Site Area</i>	<i>% of Gross Site Area with Transfers</i>
Single-Family (minimum lot size 5750 sq. ft.)	50%	60%
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%
Commercial	80%	90%

3. According to floodplain maps there is a floodplain adjacent to the project location. Based upon the location of the floodplain, offsite drainage should be calculated to determine whether a Critical Water Quality Zone exists within the project location.
4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
5. Numerous trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 512-974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.
6. Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

7. At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

NPZ Site Plan Review - Elsa Garza 512-974-2308

SP1) Site plans will be required for any new development other than single-family or duplex residential.

SP2) Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

SP 3) Compatibility Standards

The site is subject to compatibility standards. Along the North SF-2 triggering property line, the following standards apply:

- No structure may be built within 25 feet of the property line. Or triggering Property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the triggering property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the triggering property line.
- No parking or driveways are allowed within 25 feet of the property line.
- *for a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property zoned SF-5 or more restrictive.*
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
- A landscape area at least 15 feet in width is required along the property line if tract is zoned MF-3, MF-4, MF-5, MH, NO, or LO.
A landscape area at least 25 feet in with is required along the property line if the tract is zoned LR, GO, GR, L, CS, CS-1, or CH.

SP 4) Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

NPZ Austin Water Utility Review - Neil Kepple 512-972-0077

FYI: The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, water or wastewater easements, utility relocations and or abandonments required by the proposed land use. A water Service Extension Request will be required and possibly a wastewater service extension request depending on the development plans submitted. Water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria and suitability for operation and maintenance. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the

utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

Andy,

Please see the attached map of the area. Based on LDC, 25-4-151, the directive from ImagineAustin to build a well-connected city, and the limited connections of the existing street network in this part of town, the extension of Sunridge Drive will be required and it would require a Planning Commission variance to not extend it. From my experience with other cases and similar conditions, it will be very difficult for city transportation staff to recommend the granting of the variance. I hope this serves of assistance but please let me know if you need any additional information.

Best regards,
Ivan

Subject: Case # NPA-2016-0021.01 and a request to open Sunridge Drive to Ben White Boulevard
Date: Tuesday, August 16, 2016 3:04:42 PM

RE: Case # NPA-2016-0021.01

Dear Maureen and Andrew,

I live at the southern part of the Sunridge Park subdivision and know about the request for a zoning change to include MU for the wilderness lot between Ben White and our subdivision. I am OK with the MU change. It is preferable to the previous land-use proposal for that lot.

I am in favor of opening Sunridge Drive to Ben White Boulevard, if development occurs in this area. With increased population in the area, continuing to restrict access contributes to unnecessarily long driving routes from one place to another.

For example, I live 1/4th mile from my church on Ben White Boulevard. I generally I walk there through the woods, but if I need to haul something there in the car, I must drive all the way to Oltorf and loop around. Google shows this to be a 2-mile drive there and more than 3 miles to return home. It is necessary to drive too far in every direction, because of the limited roads available today.

From the meeting at Ruiz last week, I am aware that vocal Sunridge residents (particularly in the northern part of our subdivision) would like to restrict access to Ben White Boulevard from Sunridge Drive. For those of us at the southern end of Sunridge Drive, it seems that the benefits would outweigh the cost of increased traffic. Besides, I believe that most nonresidents would continue to prefer the shorter Alvin Devane route than meandering between Ben White and Oltorf on Sunridge Drive.

So, my vote is to expand the zoning for the lot in question to multi-use and open Sunridge Drive to access Ben White Boulevard.

Thank you.

Subject: FW: SUNRIDGE DR WILL BE CUT THROUGH TO BEN WHITE... UNLESS...

Dear Mr. Moore & Ms. Meredith;

I'm a resident of Sunridge Subdivision and I am unable to attend the meeting on Thursday, due to prior commitments, but I want to voice my opinion on the issue addressed here. I am **totally & strongly objecting** to the idea of Sunridge Drive being cut to allow through traffic to Ben White.

Please make a note of my strong objection as this will affect my home directly and the safety of our neighborhood. My neighborhood is strictly residential homes and we like the traffic flow the way it is.

As it is, we have cars zooming through Sunridge Drive and this will definitely attract more of these irresponsible drivers. There is never police present when this happens and if we call 311 they take forever to send someone over since it is not considered an emergency. And I understand this, but please protect us from attracting more of these drivers by not allowing Sunridge Drive to be a through traffic street to Ben White.

The fact that it is a neighborhood with no through traffic is what makes it attractive, safe for our kids, our elderly and our pets. It also helps with break-ins.

Again, please voice my concern since I won't be able to attend the meeting on Thursday.

If you must cut a street to Ben White why don't you cut Pleasant Valley? It's already running very close to Ben White and is highly populated with the apartment complex.

Thanking you in advance.

Dear Ms. Meredith,

I understand that other neighbors have contacted you about this issue. I'm also a resident of Sunridge and I will be attending the meeting tonight at the library, but I wanted to share my deep concerns with you about the city's plan to extend Sunridge Drive through to Ben White.

My primary concern is safety. Cars and trucks already speed down Sunridge southbound, until they come to a screeching halt at the dead-end; they turn around and speed back down Sunridge.

Sunridge Drive is not a straight or level street. It has a blind curve, a steep hill, and 3 intersections, one at Wickersham Lane (whose stop signs generally mean nothing, not even a mere suggestion...). Sunridge Drive has heavy pedestrian traffic, joggers and walkers in the mornings when people would likely be cutting through the neighborhood rushing to work, and the same in the evenings, when people would likely be rushing home from work. Pedestrian traffic is not able stay on sidewalks exclusively because there are properties that have not been developed, and some homeowners have elected to opt out of installing sidewalks.

Keep in mind that if Sunridge Drive is cut through to Ben White, the only destination for that northbound traffic off Ben White is East Oltorf. Alvin Devane already provides access to Oltorf from the Ben White frontage road, and it runs, appropriately, through a commercial development.

A more thoughtful solution to building a well-connected city in this south/southeast corridor would be to cut Pleasant Valley through to Ben White, because Pleasant Valley is already a MAJOR existing north/south corridor that carries a lot of traffic across the river, along with Montopolis Drive and IH-35. Cutting Pleasant Valley through to Ben White is clearly a better choice than extending Sunridge Drive, which runs through a residential neighborhood.

Thank you for your time, and I look forward to the meeting tonight.

Sincerely,

Julia Diggs

Subject: Zoning Change Case number: Case C14-2016-0021.01
Date: Tuesday, August 23, 2016 11:30:16 PM

Hello Mr. Moore,

I was in attendance at the meeting at Ruiz Library regarding the zoning changes for the property at the end of Sunridge.

I just wanted to make sure the importance of our message is heard and know by all parties involved. We are not opposed to the changes in zoning. We are opposed to the possibility of Sunridge Drive being extended to Ben White.

It would be detrimental to our neighborhood if they wanted to extended Sunridge drive to Ben White opening up our community to such traffic. Sunridge runs through a small residential neighborhood. which only has access to Oltorf.

The roads are narrow and cannot support high traffic and It is not suited as a short cut between major arterial roads.

Alvin DeVane is a wide, straight flat street that runs through an industrial area from Oltorf to Ben White. There is also already access to Ben White down Alvin Devane.

My concern is safety of our neighborhood kids , families and dog walkers. As Sunridge Drive has heavy pedestrian traffic and sidewalks are not always available. We frequently see cars unfamiliar with the area who are speeding through in search for an outlet only to reach a dead end.

I /we are greatly opposed to the idea of Sunridge Drive being extended to Ben White and think that Pleasant Valley seems like a more appropriate option as it extends closer to Ben White, does not travel through a neighborhood and already continues South on the south side of Ben White.

Thank you for your time.

Zoning Change Case number: Case C14-2016-0021.01 I am an elderly, 87 year old widow.

I have lived in this neighborhood for 11 years and I walk around the neighborhood for exercise. I already have to be very careful on Sunridge as once the apartments were built the traffic increased, speeding increased and the number of cars parked on Sunridge really increased. Visibility is poor around the cars as it is a small street and often one car has to wait for another to get thru if cars are parked on both sides. Also large semi trucks have started parking at night on the street sides making transit more difficult. I strongly oppose placing more traffic on this tiny, already overburdened neighborhood, residential street. Cars can already cross at Burleson, Alvan Devane and Montopolis. Why do they need to burden this tiny street?

I don't feel safe in neighborhood due to crime, so why are you considering increasing our danger to robbery and aggressive road rage? This would make it extremely dangerous for our seniors, children and bikers who currently use the street

Please do not ruin our safety. Do not make Sunridge go thru to Ben White. This would endanger automobiles on Ben White as people driving out of Sunridge would try to cross 2 or 3 lanes of traffic to enter the Ben White entrance to the expressway. How many horrific accidents would that cause?

Please don't do this.

Darlene Ripper
Very concerned resident

Zoning Change Case number: Case C14-2016-0021.01

I have lived in this neighborhood for 24 years and watched the crime escalate in our Henry sector, seen monies given to other areas for parks while ours is ignored and now feel we will be punished further if Sunridge becomes a cut thru street to Ben White. This is a small neighborhood where the elderly walk and children play in the street as there are no nice parks like Violet Crown, veloway, shoal creek, etc. Making this a thru street would endanger the children and elderly, be dangerous to all drivers as it is not wide enough for the cars that park on both sides of the street plus increased traffic and this would increase the number of robberies and break ins and currently the majority of the streets feed into dead ends. I am not

totally opposed to the change in zoning, We are only opposed to the requirement that Sunridge Drive be extended to Ben White.

Sunridge Drive has steep grades, curves, and runs through a small residential neighborhood. We recently had to appeal to Ott, City Manager, to get multiple street lights repaired after several months of request and lack of action. It is a short street that only serves the Sunridge residential neighborhood and apartments, and does not connect to any other arterial street other than Oltorf. It is not suited as short cut between major arterial roads.

Alvin DeVane is a wide, straight flat street that runs through an industrial area from Oltorf to Ben White. The intersection of Alvin Devane and Oltorf is only about 1,900 feet from the intersection with Sunridge. Traffic to Ben White currently takes this route, and should continue to take this route. Alvane Devane does not cut through a residential area, it is a current known cut through as well as Montopolis which is a bit further east on Oltorf. The entrance from Oltorf to the large City View apartment complex is 100 feet from the intersection of Sunridge and Oltorf. This arrangement has already created a traffic hazard, because east bound cars turning left into the apartment complex and west bound cars turning left into Sunridge Drive quite often are in head on conflict. This situation will become worse with more cars trying to use Sunridge Drive as a cut through.

Please do penalize our neighborhood and make our residential streets more dangerous . Do not make Sunridge a cut thru street
