# Austin Energy Current Debt Levels

Austin Energy currently has \$1.252 Billion of principal in long-term debt and \$66 Million in short-term Commercial Paper debt.

As of July 31, 2016

## Revenue Bond Advanced Refunding

- Austin Energy can reduce its debt service requirements by taking advantage of lower interest rates and advance refund its 2008A Revenue Refund Bonds of **\$100.43** million in principal
- City of Austin's *General Financial Policy 16 Debt Refinancing*, requires that an "advance refunding of outstanding debt shall only be considered when present value savings of at least **4.25%** of the principal amount of the refunded bonds are produced"
- Current savings estimates from a potential refunding of the 2008A bonds would produce a **14.62%** present value savings of the principal amount (par)

# Potential Savings in Debt Service
