

NEIGHBORHOOD PLAN AMENDMENT REVIEW SHEET

NEIGHBORHOOD PLAN: East Riverside/Oltorf Combined

CASE#: NPA-2016-0021.01 **DATE FILED:** July 1, 2016 (In-cycle)

PROJECT NAME: Ben White FLUM Change

PC DATE: September 27, 2016

ADDRESS: 5016 ½ E. Ben White Blvd.

DISTRICT AREA: 3

SITE AREA: 12.821 acres

OWNER/APPLICANT: Ashley Gibson

AGENT: Brown & Gay Engineers (Steven Buffum, P.E.)

TYPE OF AMENDMENT:

Change in Future Land Use Designation

From: Commercial

To: Mixed Use

Base District Zoning Change

Related Zoning Case: C14-2016-0069

From: GR-CO-NP and CS-CO-NP **To:** GR-MU-CO-NP and CS-MU-CO-NP

NEIGHBORHOOD PLAN ADOPTION DATE: November 16, 2006

PLANNING COMMISSION RECOMMENDATION:

October 11, 2016 -

September 27, 2016- Postponed to October 11, 2016 on the consent agenda. [J. Schissler – 1st; P. Seeger-2nd] Vote: 12-0 [Commissioner F. Kazi absent; Ex-Officio members R. Hinojosa and J. Mathias absent].

STAFF RECOMMENDATION: Commercial and Mixed Use land use (see map below).

BASIS FOR STAFF'S RECOMMENDATION: Staff does not support the applicant's request for Mixed Use land use on the entire tract. Staff recommends Commercial land use

on the road frontage of E. Ben White Boulevard and Mixed Use on the north part. See map below.

It must be noted that Obj. 1.2, R15 of the East Riverside/Oltorf Combined Neighborhood Plan, which is highlighted below in red, does not support the extension of Sundridge Drive to Hwy 71; however, since this plan was adopted, the Imagine Austin Comprehensive Plan was approved by City Council which supports a compact and connected city.

GROW AS A COMPACT, CONNECTED CITY
(page 10 of Imagine Austin Comprehensive Plan)

Austin's long-term sustainability requires a fresh focus on redevelopment and infill within the city's developed areas. Favoring compact growth presents an alternative direction to earlier decades of sprawling, low-density development. More compact growth contains costs by capitalizing on the land and infrastructure already in place. It also enhances human connections, innovation, and urban vibrancy. Creating a more compact and efficient city is critical to our ability to connect people of all ages, backgrounds, and abilities to homes, jobs, schools, arts and cultural amenities, and other destinations with a more complete transportation system that is affordable to build, operate, and maintain.

Goals and Recommendations from the plan document related to the applicant's request:

Preserve and enhance the character of existing residential neighborhoods.

R1 Retain single family uses in established single family neighborhoods (NPZD; Neighborhood).

R2 Consider existing residential densities and current housing stock in future land use and zoning decisions to promote compatibility (NPZD; Neighborhood).

Obj. 1.1 Minimize the negative effects between differing intensities of uses by:

R5 Requiring strict adherence to Compatibility Standards (NPZD).

R6 Encouraging City Council to modify the Land Development Code to require compatibility standards between residential uses (including multifamily) and all office and commercial uses, (Neighborhood).

Obj. 1.2 Discourage additional through-streets within established residential neighborhoods. If through-streets are not constructed, bicycle and pedestrian connectivity should be encouraged.

R15 Ensure that Sunridge Drive does not connect to Highway 71 (PW).

Goal 2

Increase home ownership opportunities that are compatible with surrounding properties.

Obj 2.1 Apply zoning tools or options in specified areas that promote housing types which are traditionally owner-occupied.

Goal 3

Improve the appearance, vitality and safety of existing commercial corridors and community amenities and encourage quality urban design and form that ensures adequate transition between commercial properties and adjacent residential neighborhoods.

Obj. 3.1 Promote the redevelopment of underutilized properties.

R26 Support the development of buildings with both a commercial and residential component along the south side of Riverside Drive west of Pleasant Valley Road and along the west side of Pleasant Valley Road north of Riverside Drive (NPZD; Neighborhood).

Goal 4

Encourage a balanced mix of residential, civic, commercial, office and other land uses without adversely affecting adjacent residential neighborhoods.

Obj. 4.1 Apply land use and zoning tools or options in specified areas to promote a mixture of uses.

Obj. 4.2 Offer diverse commercial and office types to serve the retail and professional service needs in the community.

R32 Maintain opportunities for office uses on major corridors (NPZD; Neighborhood).

Goal 5

Enhance the transportation network to allow residents and visitors to travel around safely and efficiently by foot, bicycle, automobile and public transit.

LAND USE DESCRIPTION***EXISTING LAND USE ON THE PROPERTY*****Commercial**

Lots or parcels containing retail sales, services, hotel/motels and all recreational services that are predominantly privately owned and operated for profit (for example, theaters and bowling alleys). Included are private institutional uses (convalescent homes and rest homes in which medical or surgical services are not a main function of the institution), but not hospitals.

Purpose

1. Encourage employment centers, commercial activities, and other non- residential development to locate along major thoroughfares; and
2. Reserve limited areas for intense, auto-oriented commercial uses that are generally not compatible with residential or mixed use environments.

Application

1. Focus the highest intensity commercial and industrial activities along freeways and major highways; and
2. Should be used in areas with good transportation access such as frontage roads and arterial roadways, which are generally not suitable for residential development.

PROPOSED LAND USE ON THE PROPERTY

Mixed Use – An area that is appropriate for a mix of residential and non-residential uses.

Purpose

1. Encourage more retail and commercial services within walking distance of residents;
2. Allow live-work/flex space on existing commercially zoned land in the neighborhood;
3. Allow a mixture of complementary land use types, which may include housing, retail, offices, commercial services, and civic uses (with the exception of government offices) to encourage linking of trips;
4. Create viable development opportunities for underused center city sites;

5. Encourage the transition from non-residential to residential uses;
6. Provide flexibility in land use standards to anticipate changes in the marketplace;
7. Create additional opportunities for the development of residential uses and affordable housing; and
8. Provide on-street activity in commercial areas after 5 p.m. and built-in customers for local businesses.

Application

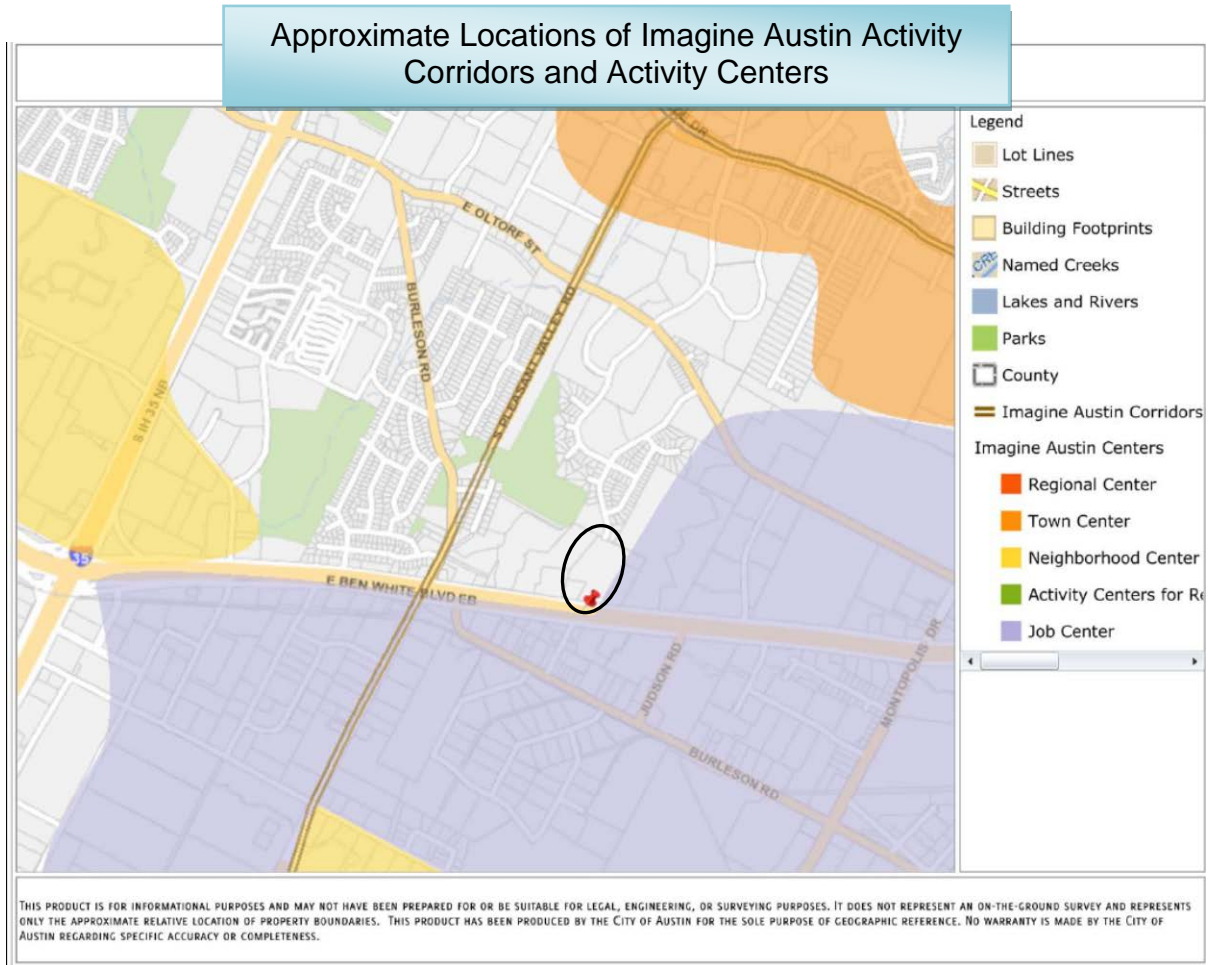

1. Allow mixed use development along major corridors and intersections;
2. Establish compatible mixed-use corridors along the neighborhood's edge
3. The neighborhood plan may further specify either the desired intensity of commercial uses (i.e. LR, GR, CS) or specific types of mixed use (i.e. Neighborhood Mixed Use Building, Neighborhood Urban Center, Mixed Use Combining District);
4. Mixed Use is generally not compatible with industrial development, however it may be combined with these uses to encourage an area to transition to a more complementary mix of development types;
5. The Mixed Use (MU) Combining District should be applied to existing residential uses to avoid creating or maintaining a non-conforming use; and
6. Apply to areas where vertical mixed use development is encouraged such as Core Transit Corridors (CTC) and Future Core Transit Corridors.

IMAGINE AUSTIN PLANNING PRINCIPLES

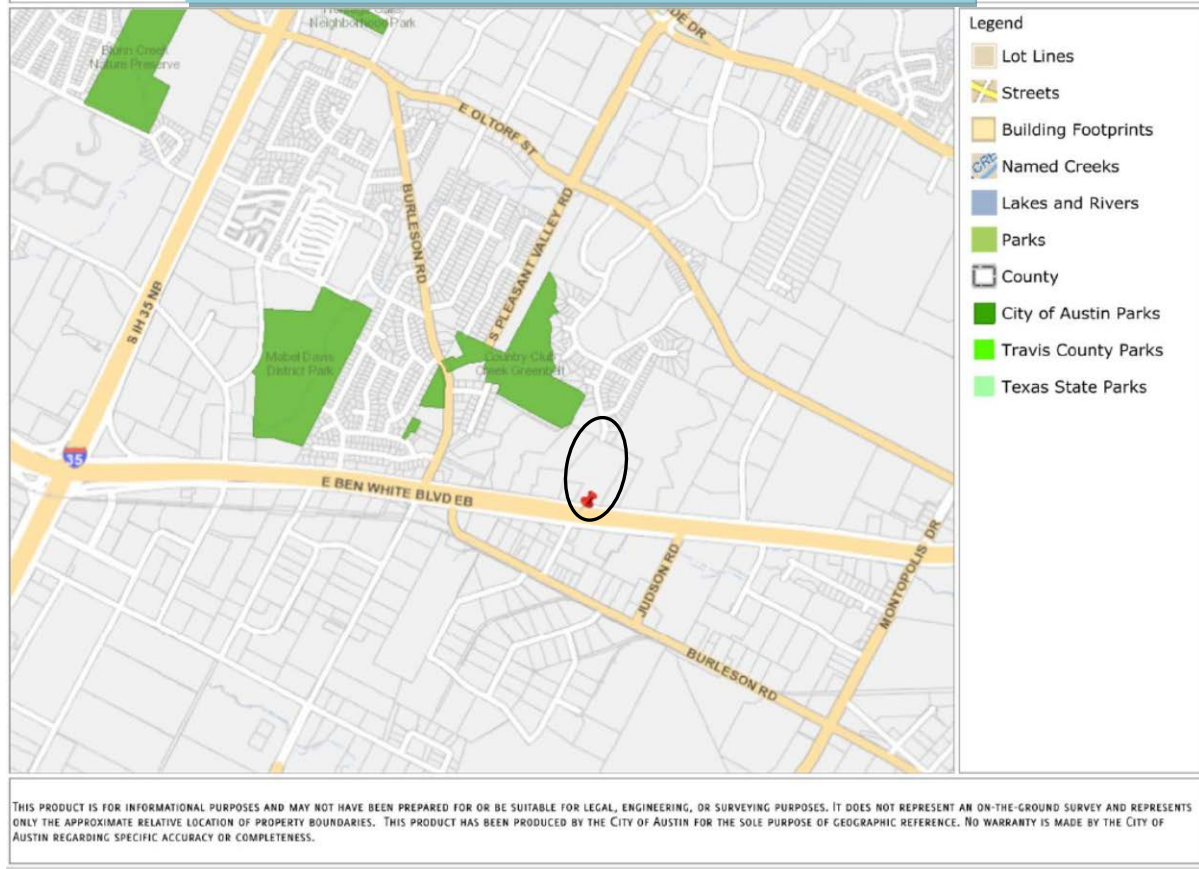

- Create complete neighborhoods across Austin that provide a mix of housing types to suit a variety of household needs and incomes, offer a variety of transportation options, and have easy access to daily needs such as schools, retail, employment, community services, and parks and other recreation options.
 - *The proposed development will have a mix of commercial, multifamily, and detached condos. The property is near commercial uses located along E. Oltorf Street and E. Ben White Blvd. The property is near Country Club Creek Greenbelt Park.*
- Support the development of compact and connected activity centers and corridors that are well-served by public transit and designed to promote walking and bicycling as a way of reducing household expenditures for housing and transportation.
 - *The property is located on the edge of an Imagine Austin Job Center and is located to the east of South Pleasant Valley Road and the southern portion Burleson Road which are identified as an Imagine Austin Activity Corridor.*

- Protect neighborhood character by ensuring context-sensitive development and directing more intensive development to activity centers and corridors, redevelopment, and infill sites.
 - *The proposed development is located along a highway where the proposed commercial uses would be located. The proposed residential part of the development would be located to the north near the existing single family zoning and land uses.*
- Expand the number and variety of housing choices throughout Austin to meet the financial and lifestyle needs of our diverse population.
 - *The proposed development would include apartments and detached single family homes, which would provide additional housing options for the community and for Austin.*
- Ensure harmonious transitions between adjacent land uses and development intensities.
 - *Staff's recommendation of Commercial land use along the E. Ben White Boulevard and Mixed Use to the north, is compatible with the single family land use to the north, Industry land use to the east and Civic land use to the west.*
- Protect Austin's natural resources and environmental systems by limiting land use and transportation development over environmentally sensitive areas and preserve open space and protect the function of the resource.
 - *The property is not located in an environmentally sensitive area.*
- Integrate and expand green infrastructure—preserves and parks, community gardens, trails, stream corridors, green streets, greenways, and the trails system—into the urban environment and transportation network.
 - *The applicant said he would work with the neighborhood to create a pedestrian and bicycle access to the property from Sundridge Drive, which could add to the trail system in the city.*
- Protect, preserve and promote historically and culturally significant areas.
 - *Not applicable.*
- Encourage active and healthy lifestyles by promoting walking and biking, healthy food choices, access to affordable healthcare, and to recreational opportunities.
 - *The applicant said he would work with the neighborhood to create a pedestrian and bicycle access to the property from Sundridge Drive, which could create recreational opportunities for the community.*
- Expand the economic base, create job opportunities, and promote education to support a strong and adaptable workforce.
 - *Not directly applicable.*

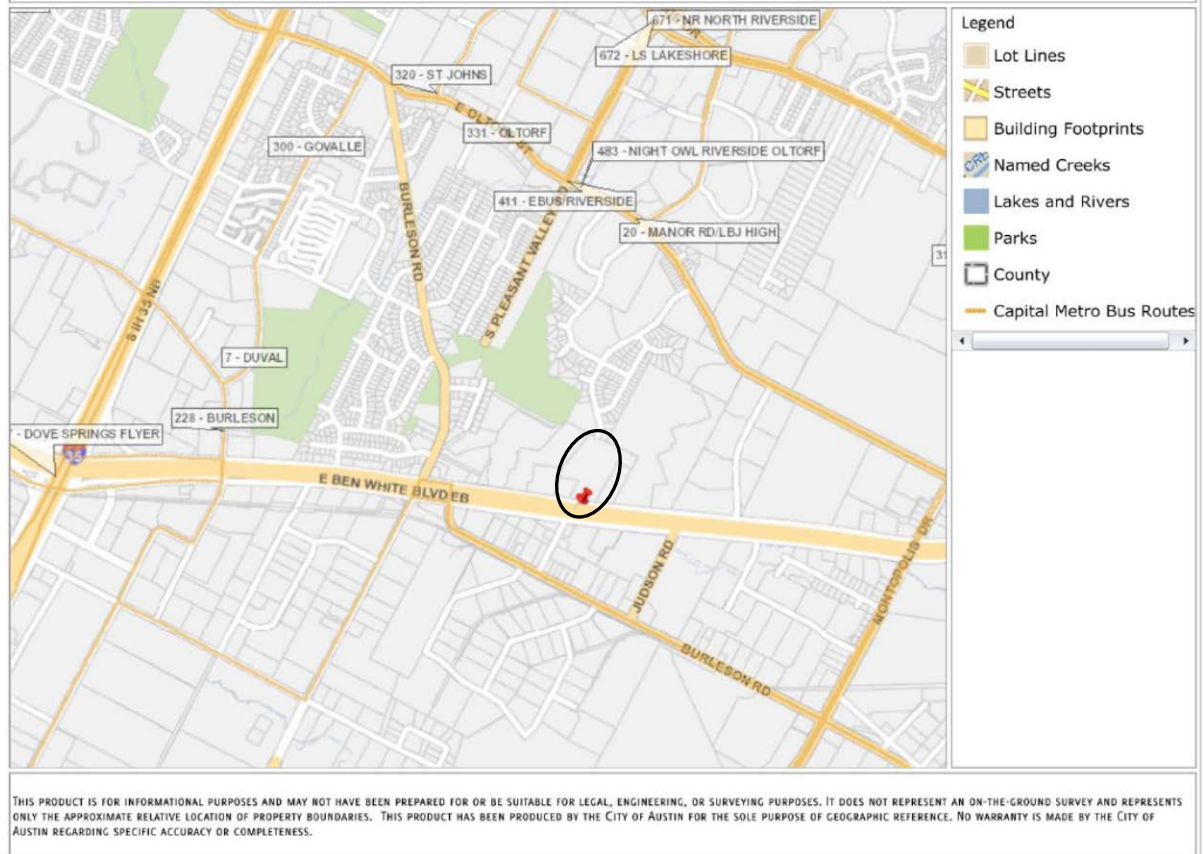

- Sustain and grow Austin's live music, festivals, theater, film, digital media, and new creative art forms.
 - *Not applicable.*
- Provide public facilities and services that reduce greenhouse gas emissions, decrease water and energy usage, increase waste diversion, ensure the health and safety of the public, and support compact, connected, and complete communities.
 - *Not applicable.*

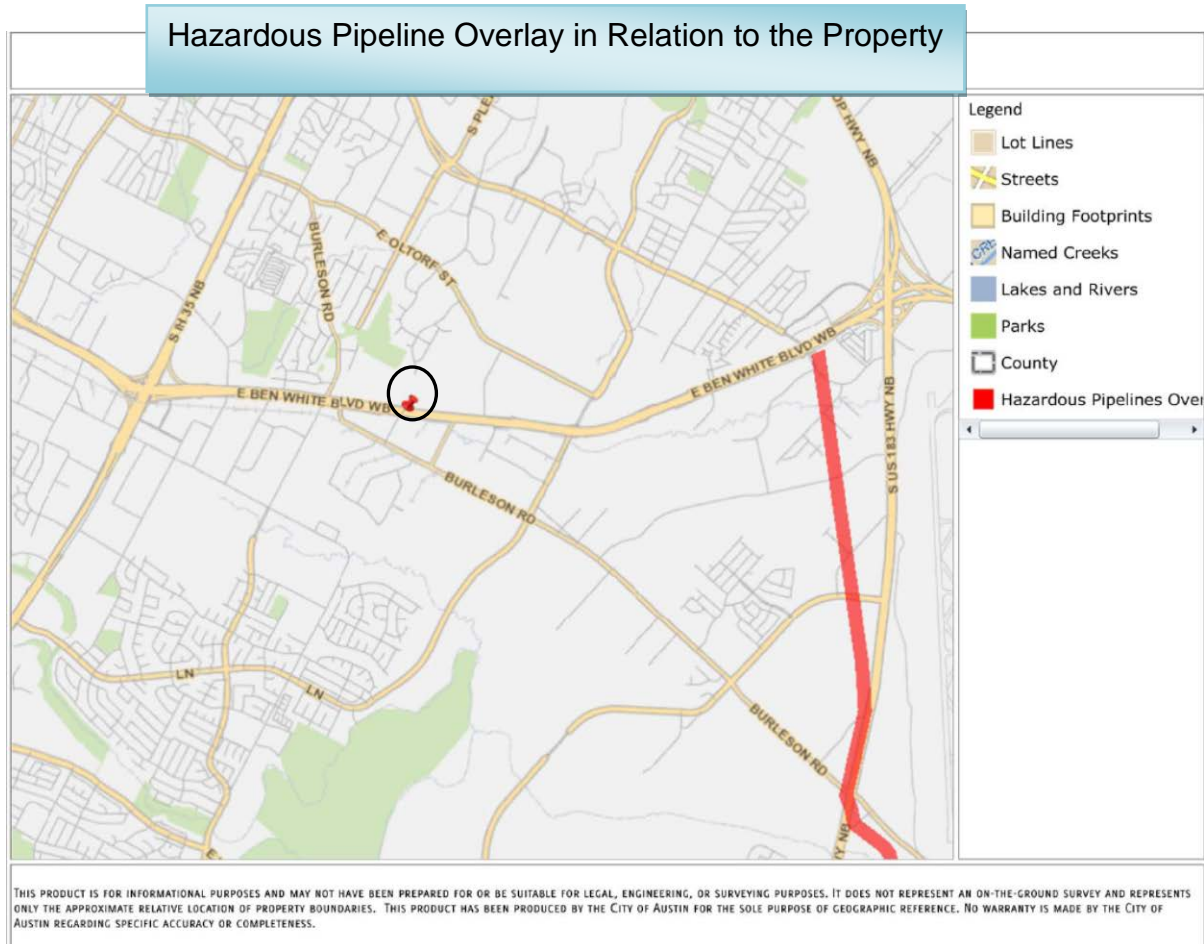

Location of Parks in the Vicinity of the Property

Capital Metro Bus Routes in the Vicinity of the Property

IMAGINE AUSTIN GROWTH CONCEPT MAP

Definitions

Neighborhood Centers - The smallest and least intense of the three mixed-use centers are neighborhood centers. As with the regional and town centers, neighborhood centers are walkable, bikable, and supported by transit. The greatest density of people and activities in neighborhood centers will likely be concentrated on several blocks or around one or two intersections. However, depending on localized conditions, different neighborhood centers can be very different places. If a neighborhood center is designated on an existing commercial area, such as a shopping center or mall, it could represent redevelopment or the addition of housing. A new neighborhood center may be focused on a dense, mixed-use core surrounded by a mix of housing. In other instances, new or redevelopment may occur incrementally and concentrate people and activities along several blocks or around one or two intersections. Neighborhood centers will be more locally focused than either a regional or a town center. Businesses and services—grocery and department stores, doctors and dentists, shops, branch libraries, dry cleaners, hair salons, schools, restaurants, and other small and local businesses—will generally serve the center and surrounding neighborhoods.

Town Centers - Although less intense than regional centers, town centers are also where many people will live and work. Town centers will have large and small employers, although fewer than in regional centers. These employers will have regional customer and employee bases, and provide goods and services for the center as well as the surrounding areas. The buildings found in a town center will range in size from one-to three-story houses, duplexes, townhouses, and rowhouses, to low-to midrise apartments, mixed use buildings, and office buildings. These centers will also be important hubs in the transit system.

Job Centers - Job centers accommodate those businesses not well-suited for residential or environmentally- sensitive areas. These centers take advantage of existing transportation infrastructure such as arterial roadways, freeways, or the Austin-Bergstrom International airport. Job centers will mostly contain office parks, manufacturing, warehouses, logistics, and other businesses with similar demands and operating characteristics. They should nevertheless become more pedestrian and bicycle friendly, in part by better accommodating services for the people who work in those centers. While many of these centers are currently best served by car, the growth Concept map offers transportation choices such as light rail and bus rapid transit to increase commuter options.

Corridors - Activity corridors have a dual nature. They are the connections that link activity centers and other key destinations to one another and allow people to travel throughout the city and region by bicycle, transit, or automobile. Corridors are also characterized by a variety of activities and types of buildings located along the roadway — shopping, restaurants and cafés, parks, schools, single-family houses, apartments, public buildings, houses of worship, mixed-use buildings, and offices. Along many corridors, there will be both large and small redevelopment sites. These redevelopment opportunities may be continuous along stretches of the corridor. There may also be a series of small neighborhood centers, connected by the roadway. Other corridors may have fewer redevelopment opportunities, but already have a mixture of uses, and could provide critical transportation connections. As a corridor evolves, sites that do not redevelop may transition from one use to another, such as a service station becoming a restaurant or a large retail space being divided into several storefronts. To improve mobility along an activity corridor, new and redevelopment should reduce per capita car use and increase walking, bicycling, and transit use. Intensity of land use should correspond to the availability of quality transit, public space, and walkable destinations. Site design should use building arrangement and open space to reduce walking distance to transit and destinations, achieve safety and comfort, and draw people outdoors.

BACKGROUND: The application was filed on July 1, 2016, which is in-cycle for applications filed in neighborhood planning areas located on the east side of I.H.-35.

The applicant proposes to change the land use on the future land use map from Commercial to Mixed Use.

The applicant submitted an associated zoning case on the property, case number C14-2016-0069, which proposes a zoning change from CS-CO-NP and GR-CO-NP to CS-MU-CO-NP

and GR-MU-CO-NP to allow for residential uses. Please see the zoning case report for more information on this request.

PUBLIC MEETINGS: The ordinance-required community meeting was held on August 11, 2016. Approximately 70 community meeting notices were mailed people who lived or owned property within 500 feet of the property in addition to neighborhood organizations and environmental groups who requested notification for the area.

After city staff gave a presentation outlining the applicant's request and the planning process in general, the applicant's agent gave the following presentation.

Seth Mearig, Director of Land Development from Brown and Gay Engineers, said the developer, Light Harvest Communities, does not have a site plan, but proposes to build multifamily uses, detached condos, and commercial uses. The applicant would be willing to have a conditional overlay outlining setbacks, buffering and restricting the location of the buildings. A TIA would be required if the development generates more than 2000 vehicle trips a day. On the frontage of Ben White would be some commercial uses. The apartments would be subject to compatibility standards and buffered from the industrial uses to the east of the site. On the northern part of the property would be the water quality and detention ponds.

Q. Are there restrictions regarding building near pipelines?

A. City code requires certain protections be provided for buildings constructed in close proximity to pipelines such as the one on the north end of the property. Within 200 feet of the pipeline, protective elements become increasingly more robust to protect occupants in the event of any pipeline-related disaster.

Q. Are there two tracts?

A. There are to zoning districts, not really two tracts of land. The land will need to be platted.

Q. Is your client under contract to purchase the property?

A. Yes. If the property is rezoned, he will purchase the property.

Q. What will happen if he doesn't get the zoning?

A. I can't answer that question.

Q. What about the Sunridge Drive extension?

A. The City is requiring us to extend the road, but neighborhoods usually don't want these road extensions.

Q. Why extend the road? Is it necessary?

A. Aaron from Light Harvest Communities, the prospective buyer, doesn't want or need the extension for his development. He would prefer a pedestrian and bike connection or only access for the Fire Department. Andrew Moore, the zoning planner, spoke about Sunridge Drive and traffic congestion in the area saying the more connections, the better. A variance

would be required to NOT have the extension. The City's Transportation Department would more than likely NOT support eliminating this extension.

Q. Are there drainage issues on the north part of the property?

A. All additional impervious cover would be handled with a detention pond.

Q. Would you have a recreational easement?

A. The developer understands the neighborhood wishes to have a recreational easement along the northern property edge to connect neighborhoods to adjacent parklands. The developer is amicable to this request, but desires the recreational easement to coincide with the existing pipeline easement and/or northern zoning buffer. Further verification may be required to confirm that the easements can coincide.

Q. Would the developer support the neighborhood's request to not extend Sunridge Drive?

A. If you write something up, we will get back to the neighborhood.

Q. What are you proposing to build on the site?

A. Retail in the frontage of Ben White and multifamily on the rest of the property.

Q. Would you have an entrance on Ben White? Are two required?

A. The LDC does not require two access points.

Comments:

- Sunridge Drive is used by families to walk with their children.
- This is a bad location for access to E. Ben White Blvd. It's dangerous.
- There are too many cars speeding on Sunridge Drive as it is now.

The recommendation letter from the East Riverside/Oltorf Neighborhood Plan Contact Team is on page 16.

Neighborhood Plan Amendment

SUMMARY LETTER

Brown & Gay Engineers have been contracted by Ashley Gibson of Light Harvest Communities, LLC for the purposes of coordinating a neighborhood plan amendment application. The application intends to amend the Future Land Use Map for the East Riverside/Oltorf Combined Neighborhood Plan, changing the site's designated future land use from "Commercial" to "Mixed Use-Office". The site is within the full purpose jurisdiction of the city and is called by conveyance deed (document #0893600289 O.P.R.T.C.T.) as 12.821 acres out of Santiago Del Valle Grant. The current owner, Azur Property Investment USA, Inc., intends to convey the property to Light Harvest Communities.

The proposed mixed use development will provide multi-family housing and retail/office opportunities, while maintaining a buffer with existing single-family communities in the area. BGE will work with city staff and the Neighborhood Planning Area contact team to ensure certain conditional overlays are provided that will adequately protect the character of the adjacent uses and the existing East Riverside/Oltorf Neighborhood Plan.

June 8, 2016

Director
City of Austin Planning and Development Review Department
One Texas Center, 505 Barton Springs Rd.
Austin, Texas 78704

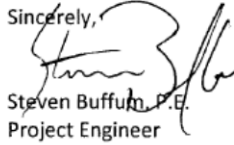

Re: Ben White Zoning
5016 ½ E Ben White
Austin, Texas

Brown & Gay Engineers have been contracted by Light Harvest Communities, LLC for the purposes of coordinating Zoning and Neighborhood Plan Amendment (NPA) applications to allow for the property located at 5016 ½ E Ben White. The purpose of the applications is to provide a mix of multi-family housing and retail/office opportunities to the E. Riverside/Oltorf area. The applications are internally referenced as the "Ben White Zoning" application. The property is within the full purpose jurisdiction of the City of Austin and is called by conveyance deed (document #0893600289 O.P.R.T.C.T.) as 12.821 acres out of Santiago Del Valle Grant. The property is currently divided into two zoning districts described Tracts 1 and 2, being 12.043 and 0.776 acres, respectively. Tract 1 is currently zoned CS-CO-NP and Tract 2 is currently zoned GR-CO-NP. The property is currently undeveloped and the current owner, Azur Property Investment USA, Inc., intends to convey the property to Light Harvest Communities.

The Ben White Zoning application intends to attach a Mixed Use Combining District (-MU) to Tracts 1 and 2 to the current base zoning designation to change the zoning from CS-CO-NP and GR-O-NP to CS-MU-CO-NP and GR-MU-CO-NP. The properties adjacent to the site are zoned GR-CO-NP, GO-CO-NP, LI-NP, and SF-2-NP, as evidenced in the zoning map provided with the application. The East Riverside / Oltorf Combined planning area Future Land Use Map (FLUM) designates the property for commercial use. Therefore, a NPA application is required to change the FLUM to allow mixed use on the property. The NPA application is being processed simultaneously with the zoning application.

The Ben White Zoning application team intends to coordinate with city staff and the Neighborhood Planning Area contact team to ensure certain conditional overlays are provided that will adequately protect the character of the adjacent uses and the existing E. Riverside/Oltorf Neighborhood Plan. You may contact me at (512) 879-8413 or at sbuffum@brownngay.com if you have any questions regarding this submittal.

Sincerely,

Steven Buffum, P.E.

Applicant Criteria Worksheet Submitted by the Applicant

Provide this information with your plan amendment application.

Taken From: Article 16: Neighborhood Plan Amendment Ordinance

§ 25-1-810 - RECOMMENDATION CRITERIA.

(A) The director may not recommend approval of a neighborhood plan amendment unless the requirements of Subsections (B) and (C) are satisfied.

(B) The applicant must demonstrate that:

- (1) the proposed amendment is appropriate because of a mapping or textual error or omission made when the original plan was adopted or during subsequent amendments;

Does this criterion apply to your proposed plan amendment application? ___ Yes x No

If there was a mapping error, explain here and provide documentation: _____

- (2) the denial of the proposed amendment would jeopardize public health, safety, or welfare;

Does this criterion apply to your application? ___ Yes x No

If this condition applies, explain here _____

- (3) the proposed amendment is appropriate:

(a) because of a material change in circumstances since the adoption of the plan; and

(b) denial would result in a hardship to the applicant;

Does this criteria apply to your application? x Yes ___ No

If yes, explain here This portion of the neighborhood is in need of multifamily housing opportunities. The NPA at the time of latest revision, did not consider the excellent opportunity to provide said housing along the Ben White corridor. Denial of the change would prevent the applicant from providing said multifamily housing opportunities in this area.

- (4) the proposed project:

(a) provides environmental protection that is superior to the protection that would otherwise be achieved under existing zoning and development regulations;

Does this criterion apply to your application? ___ Yes x No

If yes, explain here _____

_____ or

Applicant Criteria Worksheet Submitted by the Applicant

(b) promotes the recruitment or retention of an employment center with 100 or more employees;

Does either one of these criterion apply to your application? ____ Yes x No

If yes, explain here _____

(5) the proposed amendment is consistent with the goals and objectives of the neighborhood plan;

List the goals and objectives from the plan that you feel support your plan amendment request, along with your rationale for why it meets these goals/objectives. Use separate document if necessary:

Applicant team has contacted the NPA Contact Team which supports the FLUM change.
Rezoning meets the "Vision and Goals" of the Neighborhood Plan. Goals met: Items 1, 3, 4, 8,
and specifically item 12 of the vision and goals (attached).

(Reference the plan document here: <http://austintexas.gov/page/adopted-neighborhood-planning-areas-0>)

or

(6) the proposed amendment promotes additional S.M.A.R.T. Housing opportunities.

Is this a S.M.A.R.T. Housing project? ____ Yes x No

If yes, explain here and provide the letter from Neighborhood Housing and Community Development _____

(C) The applicant must demonstrate that:

(1) the proposed amendment complies with applicable regulations and standards established by Title 25 (Land Development), the objectives of Chapter 25-2 (Zoning), and the purposes of the zoning district proposed for the subject property;

https://www.municode.com/library/tx/austin/codes/code_of_ordinances?nodeId=TIT25LADE

All future development of subject tract will fall under regulations current at the time of application. Proposed FLUM change allows zoning which provides a transition between the commercial and single family intensive uses. Also the change would permit a more complatible residential use (multifamily) adjacent to the single family district to the north of the property.

and

(2) the proposed amendment is consistent with sound planning principles. (See attached)

Applicant Criteria Worksheet Submitted by the Applicant

LAND USE PLANNING PRINCIPLES

You can find the Guide to Land Use Standards here:

<http://www.austintexas.gov/department/neighborhood-planning-resources>

Please **DESCRIBE** how your proposed plan amendment request will meet these principles. If you believe a principle does not apply to your proposed plan amendment application, write "Not applicable".

1. Ensure that the decision will not create an arbitrary development pattern;

Provide your analysis here: The plan amendment allows for transitional zoning and flexibility of use for the property in between the adjacent commercial / industrial properties and the single family neighborhoods.

2. Ensure an adequate and diverse supply of housing for all income levels;

Provide your analysis here: Not Applicable

3. Minimize negative effects between incompatible land uses;

Provide your analysis here: The FLUM update enhances transitional zoning and compatibility of uses in between adjacent lands

4. Recognize suitable areas for public uses, such as hospitals and schools that will minimize the impacts to residential areas;

Provide your analysis here: Not Applicable

5. Discourage intense uses within or adjacent to residential areas;

Provide your analysis here: FLUM change allows for residential / residential compatibility. Existing zoning offsets / transitions on property further protect adjacent single family residences from any development.

6. Ensure neighborhood businesses are planned to minimize adverse effects to the neighborhood;

Provide your analysis here: Neighborhood business to be regulated by zoning and conditional overlays which limit business types to those approved by council.

Applicant Criteria Worksheet Submitted by the Applicant

7. Minimize development in floodplains and environmentally sensitive areas;

Provide your analysis here: Not Applicable – there is no floodplain onsite and stormwater mitigation is applicable under current code.

8. Promote goals that provide additional environmental protection;

Provide your analysis here: Not applicable – current regulations apply.

9. Consider regulations that address public safety as they pertain to future developments (e.g. overlay zones, pipeline ordinances that limit residential development);

Provide your analysis here: Not applicable – current regulations apply.

10. Ensure adequate transition between adjacent land uses and development intensities;

Provide your analysis here: The mixed use land use provides transition between the industrial and commercial uses to the south and the single family residential uses to the north.

11. Protect and promote historically and culturally significant areas;

Provide your analysis here: Not Applicable

12. Recognize current City Council priorities; (Look at the Imagine Austin Comprehensive Plan Document found here: <http://austintexas.gov/department/imagine-austin-download-center>. Appendix E. Framework for Decision Making, pages A-57 through A-58.)

Provide your analysis here: Zoning and Land Use change would be livable by providing retail or services and connectivity within half a mile.

13. Avoid creating undesirable precedents;

Provide your analysis here: Current precedent is established in Subchapter E via the “Opt-In” process. Multifamily is an allowed use in CS based zoning districts when on XXXX Roadways. Nevertheless, the proposed use still requires a FLUM change.

Applicant Criteria Worksheet Submitted by the Applicant**14. Promote expansion of the economic base and create job opportunities;**

Provide your analysis here: Retail and management jobs related to commercial / residential mixed use would be permitted with zoning and FLUM change. Additional housing provides needed housing availability.

15. Ensure similar treatment of land use decisions on similar properties;

Provide your analysis here: Mixed use is allowed as a standard for CS based districts on XX Roadways. In this NPA, a FLUM change is required to permit the use.

16. Balance individual property rights with community interests and goals;

Provide your analysis here: Housing and jobs to be provided via mixed use land use designation.

17. Consider infrastructure when making land use decisions;

Provide your analysis here: Infrastructure currently available surrounding the project area.

18. Promote development that serves the needs of a diverse population.

Provide your analysis here: Housing and jobs to be provided via mixed use land use designation.

Applicant Criteria Worksheet Submitted by the Applicant**Vision and Goals****Vision**

We who live, work and own property in the East Riverside/Oltorf Area wish to preserve and improve the quality of life in our residential neighborhoods, honor the cultural diversity of our residents, be good stewards of the natural environment, support the success of our locally owned businesses and major employers, and build and maintain a strong sense of community.

Goals

1. Preserve and enhance the character of existing residential neighborhoods.
2. Increase home ownership opportunities that are compatible with surrounding properties.
3. Improve the appearance, vitality and safety of existing commercial corridors and community amenities and encourage quality urban design and form that ensures adequate transition between commercial properties and adjacent residential neighborhoods.
4. Encourage a balanced mix of residential, civic, commercial, office and other land uses without adversely affecting adjacent residential neighborhoods.
5. Enhance the transportation network to allow residents and visitors to get around safely and efficiently by foot, bicycle, automobile and public transit.
6. Protect and enhance the Town Lake Waterfront as well as creek areas and other natural amenities.
7. Preserve and enhance existing parks, the 18-hole Riverside Golf Course and other open spaces and create opportunities for additional public open space.
8. Provide affordable housing opportunities through redevelopment of existing multifamily developments.

Applicant Criteria Worksheet Submitted by the Applicant

East Riverside/Oltorf Combined Neighborhood Plan

9. Create interesting, lively, inviting, attractive, safe and comfortable non-residential environments that will encourage walking, biking and transit use and be appealing to passing motorists.
10. Create convenient and accessible parking areas that do not dominate the environment and provide safe interaction between vehicles and pedestrians.
11. Encourage urban design strategies for single-family neighborhoods that preserve, complement and enhance existing character.
12. Promote multifamily structures that relate well to the surrounding environment, utilize a variety of building forms, have a thoughtful parking scheme, provide public open space and include a variety of appropriate landscape options.
13. Minimize the visual impact of industrial properties from other districts and public spaces in the neighborhood planning area.

Citizen Correspondence

From: Susie
Sent: Thursday, August 11, 2016 6:59 PM
To: Meredith, Maureen
Subject: Sun ridge Park community

Hello Meredith,

I wasn't able to attend the meeting this evening but wanted to express my concerns in regards to the possible extension of Sunridge to Ben White. I live 4 houses from Sunridge Dr. Our community is called Subrudge Park because it's tucked away from all the bustle giving it a quaint quiet park like feeling. Residents from the surrounding apts as well as my neighbors walk these streets with their kids and their dogs. It would be a tragedy waiting to happen if this road should be extended to Ben White. As it is, cars speed by Oltorf and even some down Sunridge thinking it intersects with Ben White. In my opinion, Pleasant Valley is a better candidate with it having the wider lanes and some sidewalks giving it a Blvd feel. Alvin Devane and Montopolis also serve that purpose well.

Sunridge Park is home to some native denizens such as deer, raccoons, opossums and many other animals. Where will they go? Please consider my thoughts. I appreciate your time.
Thank you!!

Subject: Zoning Change Case C14-2016-0021.01 Sunridge Park Neighborhood

To whom it may concern:

I am a 15+ year resident of Sunridge Park and am writing to express my opinion of the proposed zoning changes and extension of Sunridge Drive.

While I welcome the zoning change to allow for a mixed use development, I am strongly opposed to the hazards that would be inflicted on our neighborhood if Sunridge Drive were to be extended through to Ben White Blvd. The streets in our neighborhood are wide, yet curvy and hilly, which is a dangerous combination. Wide streets are conducive to driving at a higher rate of speed than normally safe in a neighborhood, which I see on almost a daily basis, while curves and hills limit visibility. Increasing the cut through traffic from Ben White to Oltorf through our neighborhood, which an extension of Sunridge Drive would surely achieve, is the

last thing our residents, their pets, and their property need. It would decrease our residents safety and quality of life.

In addition, an extension of Sunridge Drive is unnecessary and a waste of money. There is an existing, non-residential, and relatively strait and flat road not 1,900 feet from the intersection of Sunridge Drive and Oltorf. This road, Alvin DeVane, is wide enough to handle increased traffic and is already a regularly used path between the main arterial roadways of Oltorf and Ben White. Did I mention that this already used road is non-residential?

My understanding is that the majority of my neighbors, and the developer himself, do not want the Sunridge Drive road extension and it is only an issue because of a requirement of the Traffic Engineering Division. While I believe that planning and rules are important, what is equally if not more important is to assess the needs of all parties involved in the development of a neighborhood and its surrounding land at the time of change. At this time of change to our neighborhood, not only is the extension Sunridge Drive not wanted, it is certainly not needed.

I appreciate you taking my input under consideration

Best,

Susan Alexander

Dear Ms. Meredith,

I understand that other neighbors have contacted you about this issue. I'm also a resident of Sunridge and I will be attending the meeting tonight at the library, but I wanted to share my deep concerns with you about the city's plan to extend Sunridge Drive through to Ben White.

My primary concern is safety. Cars and trucks already speed down Sunridge southbound, until they come to a screeching halt at the dead-end; they turn around and speed back down Sunridge.

Sunridge Drive is not a straight or level street. It has a blind curve, a steep hill, and 3 intersections, one at Wickersham Lane (whose stop signs generally mean nothing, not even a mere suggestion...). Sunridge Drive has heavy pedestrian traffic, joggers and walkers in the mornings when people would likely be cutting through the neighborhood rushing to work, and the same in the evenings, when people would likely be rushing home from work. Pedestrian traffic is not able stay on sidewalks exclusively because there are properties that have not been developed, and some homeowners have elected to opt out of installing sidewalks.

Keep in mind that if Sunridge Drive is cut through to Ben White, the only destination for that northbound traffic off Ben White is East Oltorf. Alvin Devane already provides access to Oltorf from the Ben White frontage road, and it runs, appropriately, through a commercial development.

A more thoughtful solution to building a well-connected city in this south/southeast corridor would be to cut Pleasant Valley through to Ben White, because Pleasant Valley is already a MAJOR existing north/south corridor that carries a lot of traffic across the river, along with Montopolis Drive and IH-35. Cutting Pleasant Valley through to Ben White is clearly a better choice than extending Sunridge Drive, which runs through a residential neighborhood.

Thank you for your time, and I look forward to the meeting tonight.

Sincerely,

Julia Diggs

Subj: Re: Street plans sunridge dr

There is another safety concern that I plan to bring up. I use Alvin DeVane to get to Ben White in the mornings; the vast majority of cars using that intersection are going onto Ben White proper, not the frontage road. Where the Sunridge extension would hit the Ben White frontage road is right across from the ramp onto Ben White. The only way to get from Sunridge onto Ben White at that ramp would be to cut directly across the three lanes of the frontage road, and you know that there will be people trying to do just that. It would be only a matter of time before someone gets T-boned.

Also, according to my Google Earth measurements, Sunridge Drive is only 39 feet wide, where Alvin Devane is 61 feet wide. This is another way the two roads are not equivalent.

Subject: Pls do NOT put thru street on Sunridge ref Zoning Change Case number: Case C14-2016-0021.01

Zoning Change Case number: Case C14-2016-0021.01

I have lived in this neighborhood for 24 years and watched the crime escalate in our Henry sector, seen monies given to other areas for parks while ours is ignored and now feel we will be punished further if Sunridge becomes a cut thru street to Ben White. This is a small neighborhood where the elderly walk and children play in the street as there are no nice parks like Violet Crown, veloway, shoal creek, etc.

Making this a thru street would endanger the children and elderly, be dangerous to all drivers as it is not wide enough for the cars that park on both sides of the street plus increased traffic and this would increase the number of robberies and break ins

and currently the majority of the streets feed into dead ends. I am not

totally opposed to the change in zoning, We are only opposed to the requirement that Sunridge Drive be extended to Ben White.

Sunridge Drive has steep grades, curves, and runs through a small residential neighborhood. We recently had to appeal to Ott, City Manager, to get multiple street lights repaired after several months of request and lack of action. It is a short street that only serves the Sunridge residential neighborhood and apartments, and does not connect to any other arterial street other than Oltorf. It is not suited as short cut between major arterial roads.

Alvin DeVane is a wide, straight flat street that runs through an industrial area from Oltorf to Ben White. The intersection of Alvin Devane and Oltorf is only about 1,900 feet from the intersection with Sunridge. Traffic to Ben White currently takes this route, and should continue to take this route. Alvane Devane does nit cut through a residential area, it is a current known cut through as well as Montopolis which is a bit furthur east on Oltorf.

The entrance from Oltorf to the large City View apartment complex is 100 feet from the intersection of Sunridge and Oltorf. This arrangement has already created a traffic hazard, because east bound cars turning left into the apartment complex and west bound cars turning left into Sunridge Drive quite often are in head on conflict. This situation will become worse with more cars trying to use Sunridge Drive as a cut through.

Please do penalize our neighborhood and make our residential streets more dangerous . Do not make Sunridge a cut thru street

As a resident of the Sunridge neighborhood, I will not support the zoning change C14-2016-0021.01 if Public Works requires that Sunridge Drive be extended through to Ben White. This extension will destroy the residential character of this neighborhood, while not improving area connectivity to a significant degree. I will support the zoning change if there is a Conditional Overlay added to the property that prohibits the extension of Sunridge Drive. I am in favor of pedestrian access through to Sunridge Drive from the Ben White property.

Subject: Case # NPA-2016-0021.01 and a request to open Sunridge Drive to Ben White Boulevard

RE: Case # NPA-2016-0021.01

Dear Maureen and Andrew,

I live at the southern part of the Sunridge Park subdivision and know about the request for a zoning change to include MU for the wilderness lot between Ben White and our subdivision. I am OK with the MU change. It is preferable to the previous land-use proposal for that lot.

I am in favor of opening Sunridge Drive to Ben White Boulevard, if development occurs in this area. With increased population in the area, continuing to restrict access contributes to unnecessarily long driving routes from one place to another.

For example, I live 1/4th mile from my church on Ben White Boulevard. I generally I walk there through the woods, but if I need to haul something there in the car, I must drive all the way to Oltorf and loop around. Google shows this to be a 2-mile drive there and more than 3 miles to return home. It is necessary to drive too far in every direction, because of the limited roads available today.

From the meeting at Ruiz last week, I am aware that vocal Sunridge residents (particularly in the northern part of our subdivision) would like to restrict access to Ben White Boulevard from Sunridge Drive. For those of us at the southern end of Sunridge Drive, it seems that the benefits would outweigh the cost of increased traffic. Besides, I believe that most nonresidents would continue to prefer the shorter Alvin Devane route than meandering between Ben White and Oltorf on Sunridge Drive.

So, my vote is to expand the zoning for the lot in question to multi-use and open Sunridge Drive to access Ben White Boulevard.

Thank you.

To: Meredith, Maureen; Moore, Andrew; Renteria, Sabino
Subject: Zoning Change Case number: Case C14-2016-0021.01

Hi, Maureen, Andrew, and Sabino,

Please, see below regarding Plan Amendment case number NPA-2016-0021.01 for Zoning Change Case number: Case C14-2016-0021.01:

I am against the extension of Sunridge Drive to the access road of Highway 71/ Ben White for the following reasons:

1. Sunridge Drive will be more dangerous for neighborhood pedestrians, pets, drivers, and bikers. Also, those entering Ben White or turning onto a new extension will increase car crashes.
2. Sunridge Drive road is not physically wide enough for increased traffic. It has hills, curves, and cars parked on both sides of the roads. Also, Sunridge Drive already plays chicken with City View apartment residents turning into the property across the street and gambles with speeding cars and busses both school and city flying and stopping down/on Oltorf's hills, respectively.
3. This road is NOT Alvin Devane which is a wide, flat industrial main street with a dangerously busy turning lane. Sunridge Drive is purely residential with an already dangerous intersection for vehicles, pedestrians, City View apartment residents/visitors, 2 bus stops, and bus passengers illegally crossing the 5 lanes of Oltorf to get to the opposite bus stop.
4. Adding a traffic light and pedestrian blinking stop light cross walk would make Alvin de Vain safer. Have you ever witnessed the morning rush hour, lunchtime, and end of the business day at Alvin Devane. It is DANGEROUS! Please, add these 2 items to Alvin Devane before adding a dangerous extension to Sunridge Drive.
5. An extension will bring more crime. As a single woman, I will move if this change happens because this extension will bring more awareness to this hidden neighborhood.
6. At least 40 Sunridge Drive neighbors protested the extension at the Ruiz library. They unanimously opposed the requirement that Sunridge Drive be extended to Highway 71/ Ben White.
7. Seth Mearig, the representative of the developer, mentioned that the developer did NOT want Sunridge Drive extended through their property.
8. Andrew Moore, the City of Austin Planning and Zoning staff member explained that this is a requirement of the Traffic Engineering Division of the Public Works Department. If this is true, then why is Pleasant Valley not extended? Pleasant Valley is a busy mixed used area of residents and businesses.

Please, consider the above and my neighbor's pleas before extending Sunridge Drive. I will be happy to elaborate on or clarify my concerns. Also, I'm willing to give you a guided tour of our neighborhood on Sunridge Drive and Alvin Devane if you are available for a field trip. Please, don't hesitate to reach out to me directly.

Thank you,

Subject: FW: SUNRIDGE DR WILL BE CUT THROUGH TO BEN WHITE... UNLESS...

Dear Mr. Moore & Ms. Meredith;

I'm a resident of Sunridge Subdivision and I am unable to attend the meeting on Thursday, due to prior commitments, but I want to voice my opinion on the issue addressed here. I am **totally & strongly objecting** to the idea of Sunridge Drive being cut to allow through traffic to Ben White.

Please make a note of my strong objection as this will affect my home directly and the safety of our neighborhood. My neighborhood is strictly residential homes and we like the traffic flow the way it is.

As it is, we have cars zooming through Sunridge Drive and this will definitely attract more of these irresponsible drivers. There is never police present when this happens and if we call 311 they take forever to send someone over since it is not considered an emergency. And I understand this, but please protect us from attracting more of these drivers by not allowing Sunridge Drive to be a through traffic street to Ben White.

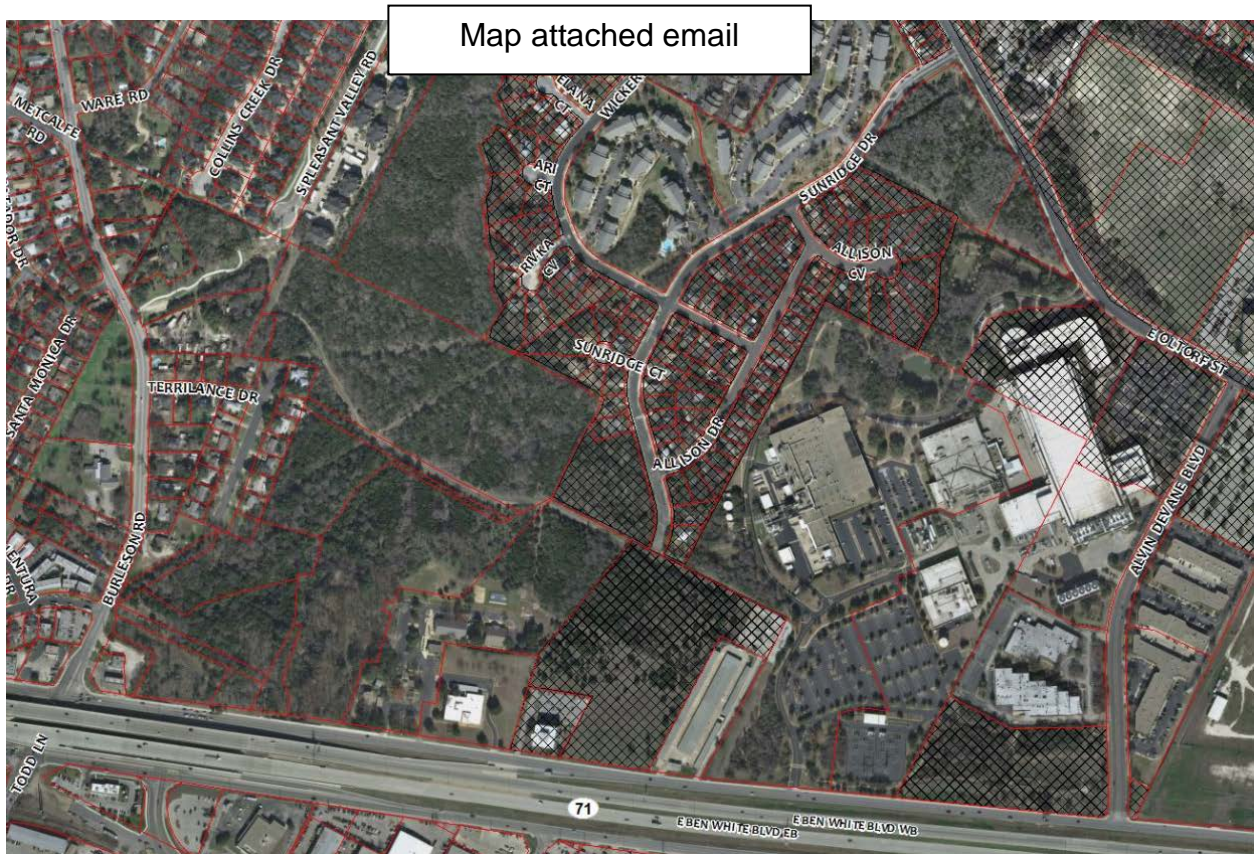

The fact that it is a neighborhood with no through traffic is what makes it attractive, safe for our kids, our elderly and our pets. It also helps with break-ins.

Again, please voice my concern since I won't be able to attend the meeting on Thursday.

If you must cut a street to Ben White why don't you cut Pleasant Valley? It's already running very close to Ben White and is highly populated with the apartment complex.

Thanking you in advance.

Subject: Zoning Change Case number: Case C14-2016-0021.01 - Sunridge extension Ben White zoning

Council Member Renteria,

I am a resident of Sunridge Subdivision and I am contacting you in regards to the zoning change for the property at the end of Sunridge Drive. I understand that Planning & Zoning Department is planning on extending Sunridge Drive through to Ben White.

As a resident of this subdivision I want to make you aware that I am strongly opposed to this change. I am not alone, all of my neighbors are also opposed to this idea, as you can read in the Meeting attendance & Minutes from last Thursday's meeting at the Ruiz Library. The representative of the developer, Seth Mearig, also mentioned that the developer did not want Sunridge Drive extended through their property either.

Sunridge Drive is not a straight or level street. It has a curve with steep hills, and 3 intersections, runs from east to west and then curves south. Sunridge Drive has

heavy pedestrian traffic, joggers and walkers which will be affected by the morning traffic cutting through the neighborhood rushing to work & home from work.

Sunridge Drive does not connect to any other arterial street other than Oltoft. It is not suited as short cut between major arterial roads. If they take Sunridge from Ben White, travelling north, they would only get to Oltoft and have to turn either right, towards Alvin DeVane or left toward Pleasant Valley. They can't continue travelling north. Alvin DeVane is only about 1,900 feet from Sunridge. If you are travelling West on Ben White you would get to Alvin DeVane before Sunridge.

Mr. Andrew Moore of the Traffic Engineering Division of the Public Works Department said that this is a requirement, however, we know for a fact that this requirement could be waived.

I, nor the Sunridge neighborhood residents along with the EROC Contact Team will not oppose the rezoning if a Conditional Overlay is added to the zoning that prohibits extending Sunridge Drive through to Ben White. I am also asking that the EROC Contact Team vote to deny this Plan Amendment change.

It makes more sense to extend Pleasant Valley to Ben White as Pleasant Valley runs directly north through the River and all the way North to Manor St.

Thanking you in advance for your serious consideration in this matter.

Subject: Concern over Sunridge Dr Expansion

Hi Maureen,

I am a resident on Allison Cove near Sunridge Dr. I understand there is a plan to expand Sunridge Dr to Ben White, Blvd. I would like to express my concern and opposition over this proposal.

I have seen people barreling through the street. We walk our two dogs down Sunridge and we have to run across the street because cars come barreling down the road. There are hills with blind spots and drivers care less about speed and safety if they do not live in the area. I also fear it will bring more crime and unwanted activity with it being overly accessible.

Also please consider that semi-trucks illegally park along Sunridge all the time, the drivers take naps and keep the trucks on the street overnight since it is close to Ben White. I feel this will only worsen with the additional access.

Please keep this area RESIDENTIAL and not a cut through to Ben White. There are already 2 nearby options that are commercial areas to get to Ben White. There is no more efficiency or connectivity by adding more traffic just a few blocks to a family neighborhood. Being a well connected city should also consider keeping neighborhoods safe and not just add as many road as we can in order to cater to traffic.

Please do NOT expand Sunridge Dr.

Thank you for your consideration.

Subject: Zoning Change Case number: Case C14-2016-0021.01

Zoning Change Case number: Case C14-2016-0021.01 I am an elderly, 87 year old widow.

I have lived in this neighborhood for 11 years and I walk around the neighborhood for exercise. I already have to be very careful on Sunridge as once the apartments were built the traffic increased, speeding increased and the number of cars parked on Sunridge really increased. Visibility is poor around the cars as it is a small street and often one car has to wait for another to get thru if cars are parked on both sides.

Also large semi trucks have started parking at nite on the street sides making transit more difficult. I strongly oppose placing more traffic on this tiny, already overburdened neighborhood, residential street. Cars can already cross at Burleson, Alvan Devane and Montopolis. Why do they need to burden this tiny street?

I dont feel safe in neighborhood due to crime , so why are you considering increasing our danger to robbery and aggressive road rage ? This would make it extremely dangerous for our seniors, children and bikers who currently use the street

Please do not ruin our safety. Do not make Sunridge go thru to Ben White. This would endanger automobiles on Ben White as people driving out of Sunridge would try to cross 2 or 3 lanes of traffic to enter the Ben White entrance to the expressway. How many horrific accidents would that cause?

Please dont do this.

Subject: Zoning Change Case number: Case C14-2016-0021.01

Hello Ms. Meredith,

I was in attendance at the meeting at Ruiz Library regarding the zoning changes for the property at the end of Sunridge.

I just wanted to make sure the importance of our message is heard and know by all parties involved. We are not opposed to the changes in zoning. We are opposed to the possibility of Sunridge Drive being extended to Ben White.

It would be detrimental to our neighborhood if they wanted to extended Sunridge drive to Ben White opening up our community to such traffic. Sunridge runs through a small residential neighborhood. which only has access to Oltorf.

The roads are narrow and cannot support high traffic and It is not suited as a short cut between major arterial roads.

Alvin DeVane is a wide, straight flat street that runs through an industrial area from Oltorf to Ben White. There is also already access to Ben White down Alvin Devane.

My concern is safety of our neighborhood kids , families and dog walkers. As Sunridge Drive has heavy pedestrian traffic and sidewalks are not always available.

We frequently see cars unfamiliar with the area who are speeding through in search for an outlet only to reach a dead end.

I /we are greatly opposed to the idea of Sunridge Drive being extended to Ben White and think that Pleasant Valley seems like a more appropriate option as it extends closer to Ben White, does not travel through a neighborhood and already continues South on the south side of Ben White.

Thank you for your time.

Subject: Case C14-2016-0069 - 5016 1/2 E. Ben White

To whom it may concern,

My name is Marie Harang and I live in the Sunridge neighborhood at 4809 Allison Cv, 78741. I am writing to protest the extension of Sunridge Drive to the Ben White/71 Frontage road. Currently the road consists of sweeping blind corners that are already taken by drivers at a concerning speed, and connection to the Ben White service road will add unnecessary amounts of fast-rolling through-traffic to what is currently a very quiet and peaceful neighborhood. Also, there is no current reason to extend Sunridge Drive to the Ben White/71 Frontage road, as there is another through-way from Oltorf to Ben White Frontage road less than a half a mile down Oltorf at Alvin Devane Blvd, and a full intersection with Ben White a further half mile down Oltorf at Montopolis. As a resident who will be effected by these zoning changes, I hereby protest the extension of Sunridge Drive to Ben White/71, on the basis of what I have written.

I ask that my written protest be added to the records on this case and taken into consideration by the zoning planning commission.

Thank you for your time and consideration on this issue.

Subject: Sunridge Drive Extension Proposal

A bad traffic proposal. If they open the street onto HY71 there will be problems getting on HY71 because it will be a short on ramp. The Alvin DeVane road is barely adequate. They have to wait for people moving at +50 mph onto the ramp and the local traffic going forward on the access road. You can't get to Hy71 speed from that short access that you are proposing. We are asking people to get on HY71 within a few yards. Dangerous. People will speed on Sunridge Drive so there have to be at least one stop sign at Wickersham. "Children Playing" would also be needed as there are children on Wickersham playing all the time. Students/children wait for the bus on Sunridge Drive. People walk pets on Sunridge. Speed bumps would be needed. This is a family neighborhood. Coming out of my house on 4702 Sunridge Court on to Sunridge Drive would be a feat. Speeding traffic right in front of my house.

Subject: Zoning Recommendations Case C14-2016-0060 Ben White Zoning

Address 5016 1/2 E. Ben White Blvd WB

As a resident of the Sunridge neighborhood I object to the recommended change by the Austin Planning Commission that Sunridge Drive be extended out to Ben White Boulevard and it was my understanding that the developer of this property objected to this as well. If another outlet to Ben White is needed from Oltorf it would make more sense it be Pleasant Valley Road rather than Sunridge Drive.

Our neighborhood residents had recently met with the developers representative and the city representative and we were in agreement that we did NOT want Sunridge Drive extended to Ben White. Doing so would add too much traffic to our relatively quiet neighborhood.

I would appreciate your adding my email to the case file. I plan on attending the 9/27 Planning Commission meeting when this issue will be voted on.

Subject: Sunridge extension through to Ben White - NO WAY!

Maureen,

Please record my protest of the the extension of Sunridge to Ben White. This is a winding residential road with lots of young children and seniors populating the area. Why would you not extend the straight Pleasant Valley to Ben White and reconnect it with its own namesake south of Ben White. This sounds like a really ridiculous idea given two major wide and straight roads parallel Sunridge, (Alvin DeVane and Pleasant Valley).

What logic goes though the head of a city planner to choose the most illogical path? This should not even be a suggestion or a topic of discussion, its idiotic. Why do I even have to point out the obvious to a city worker when they don't exhibit the slightest grain of common sense? Get off you seat and drive all three roads and tell me your logic for such a stupid idea. I would be very interested in your path of reason.

I live in and own 2914 Wickersham Lane. I STRONGLY DISAGREE with extending Sunridge Drive through to Ben White, it makes the neighborhood and especially the intersection of Sunridge Dr and Wickersham Drive UNSAFE

Cars and trucks are already speeding down Sunridge Drive towards the dead-end. This dead-end is where my son and other younger children cycle or walk to the green belt. It is a quiet and peaceful street in a quiet and peaceful neighborhood, we would like to keep it quiet and peaceful.

Sunridge Drive is not a straight or level street. It has a blind curve, a steep hill, and 3 intersections, one at Wickersham Lane . Sunridge Drive has pedestrian traffic, joggers and walkers and young children on bicycles. If the street cuts through to Ben White we the people living here will no longer be able to use it the way we use it now when it becomes a thorough fare and shortcut for every car and truck rushing from Ben White to Oltorf.

Please include this email to the Planning Commission members.

Please DO NOT allow the extension.

Thank you

Aini Omar

Dear Ms. Meredith,

A 25 year resident of our Sunridge neighborhood let me express my conviction that a proposed Sunridge cut-through to Ben White is an absolutely misguided idea. It would significantly change the character of our residential area. Alvin Devane—hardly a quarter mile to the west—is an entirely adequate cut-through. It offers an unencumbered straight shot through commercial district and provides quick easy-on access to Ben White. I use Alvin Devane daily for an incredibly easeful commute to my St. Edward's University campus and to the many commercial points of destination beyond Congress Avenue.

If you're looking to create a cut-through that facilitates traffic flow, you'd do well to consider Pleasant Valley which is already a vigorous north/south corridor that that carries significant cross-traffic across the river and into our southern district. This southeastern area of town has been abused by zoning decisions made decades ago. Give our Sunridge neighborhood some room to breathe!

Sincerely,

Curtis D. Hirsh

Subject: {Sunridge:76} FW: C14-2016-0069 - 5016 1/2

Dear Ms. Maureen Meredith,

I wish to express my strong objection to opening Sunridge Blvd through from Ben White Blvd. I have lived in the Sunridge Neighborhood just one half a block off Sunridge Dr for 26 plus years and see a huge increase in traffic up and down Oltorf that has become somewhat of a freeway to access Ben White Blvd and Montopolis over the years. Opening Sunridge Dr would create the same fast busy traffic cutting off a block early to access Ben White Blvd. There is already an open access to Ben White at Alvin Devine just up the hill East off of Oltorf; this is more than adequate and goes through an industrial street instead of a quiet neighborhood.

There is no need for another access to be run through a quiet neighborhood when one exits at Alvine Devine just one block East. Such an opening would cause traffic to be backed up at Sunridge Dr to a busy Oltorf forcing traffic to go right or left since Sunridge Dr does not go through or across Oltorf St. Sunridge is a short neighborhood street ending at Oltorf. Please do not ruin our small quiet neighborhood street by putting a cut through from Ben White Blvd to Oltorf St. Let us remain a neighborhood,
Carol Hirsh

Dear Ms. Meredith and Mr. Moore,

I am writing to urge that the city council NOT recommend the extension of Sunridge Drive from East Oltorf to the westbound Ben White access road. It could be disastrous to this narrow, hilly neighborhood street with several blind curves (where accidents have happened before).

People are walking their dogs and children are playing here.

It is not necessary as there is a flat wide street, Alvin DeVane, which runs from Oltorf to Ben White thru a business area, just one block over. A better for city-wide connectivity plan would be to extend Pleasant Valley through to Ben White.

We ARE in favor of gated access for pedestrians and emergency vehicles.
Thank you for your consideration,
Carol Gunn

Subject: Sunridge extension Ben White zoning C14-2016-0069 - 5016 1/2 E. Ben White - Staff Report PC 9-27

Dear City Manager, Mark Ott, Mayor Adler & Council Member Renteria,

I am a resident of Sunridge Subdivision and I am contacting you in regards to the zoning change for the property at the end of Sunridge Drive. I understand that Planning & Zoning Department is planning on extending Sunridge Drive through to Ben White.

As a resident of this subdivision I want to make you aware that I am strongly opposed to this change. I am not alone, all of my neighbors are also opposed to this idea, as you can read in the Meeting attendance & Minutes from last Thursday's meeting at the Ruiz Library. The representative of the developer, Seth Mearig, also mentioned that the developer did not want Sunridge Drive extended through their property either.

Sunridge Drive is not a straight or level street. It has a curve with steep hills, and 3 intersections, runs from east to west and then curves south ending in Oltorf and can't go further north. Sunridge Drive has heavy pedestrian traffic, joggers and walkers which will be affected by the morning traffic cutting through the neighborhood rushing to work & home from work.

Sunridge Drive does not connect to any other arterial street other than Oltorf. It is not suited as short cut between major arterial roads. If they take Sunridge from Ben

White, travelling north, they would only get to Oltorf and have to turn either right, to Montopolis or left to Pleasant Valley. They can't continue travelling north. Alvin DeVane is only about 1,900 feet from Sunridge if traffic want to cut to Oltorf from Ben White. If you are travelling West on Ben White you would get to Alvin DeVane before Sunridge.

Mr. Andrew Moore of the Traffic Engineering Division of the Public Works Department said that this is a requirement, however, we know for a fact that this requirement could be waived.

I, nor the Sunridge neighborhood residents along with the EROC Contact Team will not oppose the rezoning if a Conditional Overlay is added to the zoning that prohibits extending Sunridge Drive through to Ben White. I am also asking that the EROC Contact Team vote to deny this Plan Amendment change.

It makes more sense to extend Pleasant Valley to Ben White as Pleasant Valley runs directly north through the River and all the way North to Manor St.

Thanking you in advance for your serious consideration in this matter.

Subject: C14-2016-0069 - 5016 1/2 E. Ben White - Staff Report PC 9-27

Hi, Maureen

We wish to add our voices to those of my neighbors who are of one mind in vigorously opposing the notion of extending Sunridge Drive to connect with Ben White.

The reasons for our opposition are manifold. Sunridge Drive is a quiet street that winds through a residential neighborhood where we residents of Sunridge Park walk our dogs, ride our bikes, and let our kids out to play. It is **not** an appropriate thoroughfare for traffic between the major streets of Oltorf and Ben White Boulevard.

The mentality of the "connect Austin" argument falls completely flat in its inconsistency. Consider, for example, the industrial area around Todd Lane and East St. Elmo and its connectivity (or lack thereof) with the other commercial area along Burleson Road south of Ben White. The only way to get from one to the other is to go out to Ben White or to go all the way around via Montopolis and

Stassney. Why doesn't the City direct its efforts toward correcting obvious impediments to mobility like this one instead of ruining residential neighborhoods with transient traffic?

Here's another concern: The point where Sunridge Drive would connect to Ben White is right where there is a ramp onto the freeway. Drivers coming from Oltorf and wanting to get onto Ben White will be constantly trying to cut across three lanes of the frontage road to get onto that ramp. How long will it be before someone gets killed doing that?

Alvin Devane is an appropriate connector between Oltorf and Ben White. It is fairly straight and level, sixty feet wide, and runs through an industrial area. Sunridge Drive is hilly, winding, is less than forty feet wide, and passes through a residential subdivision. Alvin Devane is far enough upstream of the Ben White ramp to give drivers plenty of space to safely change lanes in order to reach it. And Alvin Devane is right there and convenient; connectivity through Sunridge Park is **not** needed.

There is plenty of precedence for what we are asking. The east-west streets through the residential subdivisions along MoPac do not connect to the freeway access road for precisely the same reason; they do not want transient traffic speeding through their neighborhoods looking for ways to dodge rush hour traffic any more than we do. Why would you do it to our neighborhood if you will not do it to theirs?

One more thing I will add: the people who are pushing for this street extension do not have to live with the ramifications of their decision.

We do. Please consider the impact this would have on the folks who would have to deal with it every day.

Sincerely,
Gordon Gunn

Subject: zoning case C14-2016-0069

Ms. Maureen Meredith,

I am writing in reference to zoning case C14-2016-0069. Understand there is consideration to extend Sundridge drive through to Ben White Blvd. I live in the Sunridge drive neighborhood and would prefer Pleasant Valley be extended through to Burleson / Ben White.

Reasons for this include:

- 1) safety - amount of foot traffic in neighborhood in evenings (neighbors and apartment complex residents walking dogs, babies)
- 2) safety - we have several children in neighborhood as well as blind person

- 3) security - have had issues of break-ins & crime in neighborhood, would not want 'easier' access (get-a-way)
- 4) noise - presumably more road traffic on 'through street' would increase vehicle noise / disturbance

Please include my email in the file being sent to the planning commission.

David Baker
2804 Allison Dr
Austin, TX 78741

Having lived in the neighborhood for 10 years, I am now getting to know my neighbors and it appears to be becoming safer - at least a feeling of that with more folks walking around in evenings & mornings. Concerned a thru street would be step back making easier access to block of homes. I presume & would think from a macro planning perspective - extending Pleasant Valley (2 blocks away) would make sense as a thoroughfare for thru traffic. Alvin Devane seems to adequately provide an alternative to get from Oltorf to Ben White.

Appreciate your consideration,

David

Subject: Concern regarding Ben White re-zoning case

RE: C14-2016-0069 - 5016 1/2 E. Ben White - Staff Report PC 9-27

Hi Maureen,

I hope this email finds you well.

My name is Adelaida Vasquez and I own the property located at 2933 Wickhershaw Lane, Austin, TX 78741, in the Sunridge neighborhood. I write to you to respectfully request that Sunridge Drive not be extended through our residential neighborhood to reach Ben White.

I do not agree with this extension being necessary, as Alvin Devane provides access between Oltorf and Ben White; adding another access road to Ben White seems excessive considering this existing access. Further, Alvin Devane is an ample road that goes through commercial space whereas Sunridge goes through a residential area.

In our neighborhood, we already have to deal with a significant amount of cars zooming by - it's unclear if it's because of the apartments within our neighborhood or people's heavy feet. Regardless, adding an access way to a highly trafficked highway would likely result in an increase in the number of speeders in our neighborhood, with little to no police surveillance. This is very unsafe for the kids in our neighborhood, those out exercising on our sidewalks and generally anyone out enjoying the neighborhood.

Lastly, this neighborhood has suffered a good number of break ins in the past. An access way to Ben White through our neighborhood would invite more strangers into our neighborhood, potentially increasing the already high number of break ins that occur.

I would greatly appreciate it if you added this email into the case record. Thank you for your time.

Respectfully submitted,
Adelaida Vasquez

To: Meredith, Maureen
Subject: C14-2016-0069 - 5016 1/2 E. Ben White - Staff Report PC 9-27

Dear Ms. Meredith,

Regarding C14-2016-0069 - 5016 1/2 E. Ben White - Staff Report PC 9-27 :

I have lived in the Sunridge Park neighborhood since 1992, currently own two houses here, and plan to stay the rest of my life. In other words I have a deep long-standing personal and financial investment in the well-being of this neighborhood.

I understand there is a plan to extend Sunridge Drive to Ben White Blvd. The reason Sunridge Park is such a safe, quiet, desirable neighborhood is because it is a cul-de-sac. Extending Sunridge Park Drive would slice the neighborhood in two and destroy this essential feature. Traffic would increase markedly resulting in increases in vehicular, bicycle, and pedestrian accidents, pollution, noise, and crime, while property values and quality of life for the residents who have invested large amounts of money in their homes would decrease.

Why is this extension even being considered? Drivers can already access Ben White Blvd. from Oltorf St. by way of Burleson Road and Alvin Devane Blvd. If the City believes yet more access is needed – something I would strongly

contend is not the case – the obvious candidate for that role is Pleasant Valley Road which is already a major north-south corridor.

I urge you to DENY this unwarranted and destructive proposal to extend Sunridge Drive.

Thank you for your time and consideration.

Dear Ms. Meredith and Mr. Moore:

My wife Delma R. Alvarez and I join our neighbors (and I understand the proposed developer) in opposition to the staff's proposal to extend Sunridge Drive from its current state to Ben White Blvd. While I understand the City's wish for "connectivity" on all Austin roads, I do not believe that this Transportation Department request for 'connectivity' to be smart, but rather a useless and dangerous 'connectivity' of roads.

I invite all interested persons to drive the current Sunridge Drive road, and then envision what increased and more rapidly moving traffic will do for (and against) the neighborhood, Austin traffic and Austin drivers.

Thank you for all you do.

C14-2016-0069 - 5016 1/2 E. Ben White - Staff Report PC 9-27

I am writing to express my opposition to the city of the idea of extending Sunridge Drive from Oltorf to Ben White.

I was in attendance at the meeting at Ruiz Library regarding the zoning changes for the property at the end of Sunridge.

I just wanted to make sure the importance of our message is heard and know by all parties involved. We are not opposed to the changes in zoning. We are opposed to the possibility of Sunridge Drive being extended to Ben White.

It would be detrimental to our neighborhood if they wanted to extended Sunridge drive to Ben White opening up our community to such traffic. Sunridge runs through a small residential neighborhood. which only has access to Oltorf.

The roads are narrow and cannot support high traffic and It is not suited as a short cut between major arterial roads.

Alvin DeVane is a wide, straight flat street that runs through an industrial area from Oltorf to Ben White. There is also already access to Ben White down Alvin Devane.

My concern is safety of our neighborhood families and dog walkers. As Sunridge Drive has heavy pedestrian traffic and sidewalks are not always available. I frequently see cars unfamiliar with the area who are speeding through in search for an outlet only to reach a dead end as I am walking my dog in the morning and in the evening.

I /we are greatly opposed to the idea of Sunridge Drive being extended to Ben White and think that Pleasant Valley seems like a more appropriate option as it extends closer to Ben White, does not travel through a neighborhood and already continues South on the south side of Ben White.

Thank you for your time.

Subject: C14-2016-0069 - 5016 1/2 E. Ben White - Staff Report PC 9-27

Dear Ms. Meredith, As a longtime resident homeowner in the Sunridge subdivision, I oppose the extension of Sunridge Drive onto Ben White Blvd as proposed in C14-2016-0069 - 5016 1/2 E. Ben White - Staff Report PC 9-27. I will be speaking at the Development Department meeting this evening, and I hope you can attach this email to your staff report.

The reason I oppose extending Sunridge is simple.. I will be directly impacted by the increased traffic. I understand the latest city craze for "compact and connected" which mandates that everyone be connected to everyone else, but sometimes that idea just doesn't make sense. I bought my house in '93 when this was a quiet cul de sac neighborhood bounded by woods. The city then permitted a large apartment complex to be build across the street, which removed the woods and increased noise and crimes. Then the city built Ben White Blvd into the expressway it is now without a second thought to noise abatement, which impacted the neighborhood. And now you want to run a street through the neighborhood, increasing traffic, noise, trash and increased danger to pedestrians and bicycles (which are in abundance here). It's just too much!

As a member of the NPCT, I and the contact team have met with the developer several times, and we all agreed that the proposed development does not need vehicular access into the neighborhood. The developer was quite content with a conditional overlay to establish a gateway for pedestrian and bicycle traffic between our neighborhoods, without allowing vehicular access. We agreed on that! It seems unreasonable for the city to run roughshod over the wishes of both developer and neighborhood association.

So I ask that you attach this email to your staff report to the commissioners and I, and my neighbors will speak with them this evening.

Respectfully Yours,
Michael Valescu

Ms. Me riders,
My name is Ricardo Sanchez. I live at 2913 Allison Dr, Austin TX, 78741. My phone number is 512-385-4393.
I am writing to inform you that I am very much opposed to the proposal to extend Sunridge Drive, through the heart of our neighborhood, to connect with East Ben White Blvd. This plan, in my opinion, would have a devastating effect on our quiet neighborhood. I do not see the sense in this action, since Alvin Devane already

connects Oltorf St with E Ben White. It is a very wide street, just east of our neighborhood.

If Sunridge Dr were to be extended, it would bring an end to the stillness of the neighborhood, thus diminishing the quality of life for me, my family, and many others. It's not hard to imagine speeding cars endangering children and walkers in this uniquely situated quiet spot that is so close to downtown. I implore you and the planning commission, to reject this proposal and to please listen to our pleas to sustain our quality of life.

Please include my email in the file that is presented to the planning commission members.

Thank you so much for your attention to this grave concern, and for your help.

Sincerely,

Ricardo Sanchez
